## **Maintenance blitz for schools in Southern Logan area**

Local schools in the Southern Logan area have benefited from the Palaszczuk Government's continued investment in school maintenance.

Member for Springwood, Mick de Brenni said local state schools had undergone extensive capital and maintenance works over the Easter holiday period.

"Schools in Springwood, Logan and Macalister have shared in over \$3.5 million for improvements to classrooms and other facilities with most work carried out during the school holidays to ensure classes were not disrupted.

"We want our state school students to have quality learning environments to make the most of their education," he said.

Member for Logan, Linus Power said the Palaszczuk Government was committed to delivering world-class educational facilities for all Queensland students.

"Our Government is delivering a state wide Infrastructure Investment program valued at more than \$778 million during 2017-18," he said.

"This funding will help state schools stay on top of maintenance needs and ensure students have access to quality education facilities," he said.

Some of the school maintenance projects in the area include:

- \$2,030,000 for the refurbishment of the Manual Arts Building at Springwood State High School (Springwood)
- \$967,000 for the refurbishment of B Block at Jimboomba State School (Logan)
- \$460,000 for the refurbishment of D Block at Beenleigh Special School (Macalister)

Member for Macalister, Melissa McMahon said that every year principals and the Department of Education worked together to prioritise school maintenance projects for local schools.

"Our school maintenance program is not only building better schools in the area but also providing valuable jobs for tradies and training opportunities for apprentices," she said.

## **Maintenance blitz for schools in North Brisbane area**

Local schools in the North Brisbane area have benefited from the Palaszczuk Government's continued investment in school maintenance.

Member for Aspley, Bart Melish said local state schools had undergone extensive capital and maintenance works over the Easter holiday period.

"Schools in Aspley, Sandgate, and Nudgee have shared in over \$500,000 for improvements to classrooms and other facilities with most work carried out during the school holidays to ensure classes were not disrupted.

"We want our state school students to have the best possible classrooms to make the most of their education," he said.

Member for Sandgate, Stirling Hinchcliffe said the Palaszczuk Government was committed to delivering world-class educational facilities for all Queensland students.

"Our Government is delivering a state wide Infrastructure Investment program valued at more than \$778 million during 2017-18," he said.

"This funding will help state schools stay on top of maintenance needs and ensure students have access to quality education facilities," he said.

Some of the school maintenance projects in the area include:

- \$30,000 for the replacement of swimming pool tiles at Aspley State High School (Aspley)
- \$150,000 for the refurbishment of ceilings at Sandgate State School (Sandgate)
- \$270,000 for the refurbishment of the ground floor in Block C2 at Earnshaw State College (Nudgee)

Member for Nudgee, Leanne Linard said that every year principals and the Department of Education worked together to prioritise school maintenance projects for local schools.

"Our school maintenance program is not only building better schools in the area but also providing valuable jobs for tradies and training opportunities for apprentices," she said.

## **Maintenance blitz for schools in Caboolture area**

Local schools in the Caboolture area have benefited from the Palaszczuk Government's continued investment in school maintenance.

Member for Morayfield, Mark Ryan said local state schools had undergone extensive capital and maintenance works over the Easter holiday period.

"Schools in Morayfield and Pumicestone have shared in over \$1 million for improvements to classrooms and other facilities with most work carried out during the school holidays to ensure classes were not disrupted.

"We want our state school students to have the best possible classrooms to make the most of their education," he said.

Mr Ryan said the Palaszczuk Government was committed to delivering world-class educational facilities for all Queensland students.

"Our Government is delivering a state wide Infrastructure Investment program valued at more than \$778 million during 2017-18," he said.

"This funding will help state schools stay on top of maintenance needs and ensure students have access to quality education facilities," he said.

Some of the school maintenance projects in the area include:

- \$350,000 for the refurbishment of Block G at Morayfield East State School (Morayfield)
- \$250,000 for the refurbishment of Block 2 at Caboolture East State School (Morayfield)
- \$250,000 for refurbishment work at Tullawong State School (Morayfield)
- Over \$380,000 to rectify the fire hydrant system at Bribie Island State High School (Pumicestone)

Mr Ryan said that every year principals and the Department of Education worked together to prioritise school maintenance projects for local schools.

"Our school maintenance program is not only building better schools in the area but also providing valuable jobs for tradies and training opportunities for apprentices," he said.

## **Maintenance blitz for schools in the Far North**

Local schools in the Far North have benefited from the Palaszczuk Government's continued investment in school maintenance.

Member for Cairns, Michael Healy said local state schools had undergone extensive capital and maintenance works over the Easter holiday period.

"Schools in Cairns, Cook, Mulgrave and Barron River have shared in over \$2 million for improvements to classrooms and other facilities with most work carried out during the school holidays to ensure classes were not disrupted.

"We want our state school students to have the best possible classrooms to make the most of their education," he said.

Member for Cook, Cynthia Liu said the Palaszczuk Government was committed to delivering world-class educational facilities for all Queensland students.

"Our Government is delivering a state wide Infrastructure Investment program valued at more than \$778 million during 2017-18," she said.

"This funding will help state schools stay on top of maintenance needs and ensure students have access to quality education facilities," she said.

Some of the school maintenance projects in the area include:

- \$310,000 for an indoor sports facility at Gordonvale SHS (Mulgrave)
- \$150,000 for the replacement of roof sheets in the Science Block at Woree SHS (Mulgrave)
- Over \$1 million for additional accommodation 6 GLA at Cairns West SS (Cairns)
- Almost \$400,000 for the replacement of air-conditioning at Edge Hill SS (Cairns)
- \$400,000 for a new multi-purpose hall at Trinity Bay SHS (Cairns)
- Over \$700,000 for air-conditioning replacement at Western Cape College – Weipa (Cook)
- \$800,000 for covered multi-purpose court and storage at Northern Peninsula – Bamaga Jnr (Cook)

Member for Mulgrave, Curtis Pitt said that every year principals and the Department of Education worked together to prioritise school maintenance projects for local schools.

Member for Barron River, Craig Crawford said the Palaszczuk Government's school maintenance program is not only building better schools in the Cairns region but also providing valuable jobs for tradies and training opportunities for apprentices.

## **Maintenance blitz for schools in Inner City South**

Local schools in the inner city south have benefited from the Palaszczuk Government's record investment in school maintenance.

Member for South Brisbane, Jackie Trad said local state schools had undergone extensive capital and maintenance works over the Easter holiday period.

"Schools in South Brisbane and Miller have shared in over \$200,000 for improvements to classrooms and other facilities with most work carried out during the school holidays to ensure classes were not disrupted.

"We want our state school students to have the best possible classrooms to make the most of their education," she said.

Member for Miller, Mark Bailey said the Palaszczuk Government was committed to delivering world-class educational facilities for all Queensland students.

"Our Government is delivering a state wide Infrastructure Investment program valued at more than \$778 million during 2017-18," he said.

"This funding will help state schools stay on top of maintenance needs and ensure students have access to quality education facilities," he said.

Some of the school maintenance projects in the area include:

- Over \$48,000 for the refurbishment of hallway and stairwell ceilings at Yeronga State School (Miller)
- Over \$160,000 for the refurbishment of D Block oval at East Brisbane State School (South Brisbane)

Mr Bailey said that every year principals and the Department of Education worked together to prioritise school maintenance projects for local schools.

"Our school maintenance program is not only building better schools in the area but also providing valuable jobs for tradies and training opportunities for apprentices," he said.

## **Maintenance blitz for local schools in the wider Mackay area**

Local schools in the wider Mackay area have benefited from the Palaszczuk Government's continued investment in school maintenance.

Member for Mackay, Julieanne Gilbert said local state schools had undergone extensive capital and maintenance works over the Easter holiday period.

"Schools in Mackay, Mirani and Whitsunday have shared in almost \$2.3 million for improvements to classrooms and other facilities with most work carried out during the school holidays to ensure classes were not disrupted.

"We want our state school students to have the best possible classrooms to make the most of their education," she said.

Ms Gilbert said the Palaszczuk Government was committed to delivering world-class educational facilities for all Queensland students.

"Our Government is delivering a state wide Infrastructure Investment program valued at more than \$778 million during 2017-18," she said.

"This funding will help state schools stay on top of maintenance needs and ensure students have access to quality education facilities," she said.

"I am proud to have delivered these much-needed maintenance projects for the community, both in my electorate of Mackay, and in the wider Mackay region," she said.

Some of the school maintenance projects in the area include:

- Over \$860,000 for the refurbishment of the pool amenities at Victoria Park State School (Mackay)
- \$200,000 to upgrade the administrative services at Pioneer State High School (Mackay)
- Over \$1,000 to repaint external doors at Marian State School (Mirani)
- \$800,000 for the refurbishment of Block A at Bloomsbury State School (Whitsunday)
- Over \$150,000 for safety upgrades at Hamilton Island State School (Whitsunday)

Ms Gilbert said that every year principals and the Department of Education worked together to prioritise school maintenance projects for local schools.

"Our school maintenance program is not only building better schools in the area but also providing valuable jobs for tradies and training opportunities for apprentices," she said.

## **Maintenance blitz for schools in Townsville region**

Local schools in the Townsville area have benefited from the Palaszczuk Government's continued investment in school maintenance.

Member for Mundingburra, Coralee O'Rourke said local state schools had undergone extensive capital and maintenance works over the Easter holiday period.

"Schools in Townsville have shared in almost \$2 million for improvements to classrooms and other facilities with most work carried out during the school holidays to ensure classes were not disrupted.

"We want our state school students to have the best possible classrooms to make the most of their education," she said.

Member for Thuringowa, Aaron Harper said the Palaszczuk Government was committed to delivering world-class educational facilities for all Queensland students.

"Our Government is delivering a state wide Infrastructure Investment program valued at more than \$778 million during 2017-18," he said.

"This funding will help state schools stay on top of maintenance needs and ensure students have access to quality education facilities," he said.

Some of the school maintenance projects in Townsville include:

- \$410,000 for the refurbishment of D Block at Bwgcolmann Community School (Townsville)
- \$285,000 for the refurbishment of E Block at Aitkenvale State School (Mundingburra)
- \$100,000 for the refurbishment of W Block at Wulguru State School (Mundingburra)
- \$375,000 to upgrade the computer rooms at Thuringowa State High School (Thuringowa)
- \$275,000 for the refurbishment of Block 7 at Weir State School (Thuringowa)

Member for Townsville, Scott Stewart said that every year principals and the Department of Education worked together to prioritise school maintenance projects for local schools.

"Our school maintenance program is not only building better schools in Townsville but also providing valuable jobs for tradies and training opportunities for apprentices," he said.
