<b>Total Number of Serious Incidents (Calculated Manually by Regional Offices Based On their Records As NQA ITS Was Not Implemented In QLD Until September 2012)***</b>													<b>2686</b>

\* Serious incidents captured outside of the NQA ITS (e.g. prior to its implementation in September 2012) are not included. A small number of incidents that occurred prior to the implementation of the NQA ITS may have been recorded retrospectively.

\*\* 'Incident Category Total' is sometimes different to 'Total Number of Serious Incidents' because it is possible to select multiple categories for each serious incident recorded in the NQA ITS.

\*\*\* A 'Summary Report' including details of incidents or incidents broken down by incident type is not available for the total number of Serious Incidents recorded for 2012 (only for those captured by the NQA ITS) as this system was not implemented in Queensland until September 2012.

Robina	NERANG	No	No	No	No	Yes	No
Incident		Mount Gravatt	COOPERS PLAINS	No	No	No	No	Yes	No
<u>ursu</u> was riding his scooter and lost balance. He attended a dentist.		Mount Gravatt	ALGESTER	No	No	No	No	Yes	No

Child was sitting in soft fall on plank situated on bottom of A Frame with legs either side and her arm through A Frame. She lost her balance falling off the plank, her hand caught in A Frame and landed awkwardly, resulting in a fracture.

Excursion - Deleted pursuant to section 47(2)(b) around 12.00pm. [redacted] was helped off ice, icepack applied and sling applied. Parent phoned 12.10pm.

Child fell and banged lip causing bleeding

Spoke to service 15 Jan. Daily reminders to children reg correct and active supervision-interim risk management. Proposal to committee to pad all posts

Child had object stuck up nose

While playing cricket, child developed signs of heat stroke and ambulance was called.

We had an excursion to [redacted] and around 11am [redacted] slipped on a mat she said that her ankle hurt so we elevated it and she rested it on a chair. [redacted] then strapped her ankle and she rested it for a little more and then went back up into the playground. Throughout the day myself and other staff members had asked [redacted] how her foot was feeling and she said she was ok. As she was not looking to be in pain and [redacted] is able to tell me if she was hurting we assumed that she in fact was ok as she had stated. Times she was observed were at around 11.30 after she said she fine and went back into the play gym. 1pm verbally asked how is your foot again she said she was ok. Around 2.30 I asked her to put a thong on as she was walking around and I thought the bandage would get dirty (observed her being up and about). Also please note that after she initially elevated her foot there was no noticeable bruising or swelling and this is why we strapped it.

[redacted] was sitting on a lounge chair in the office area talking to another child. Another child entered the room and sat next to [redacted] on the lounge, accidentally sitting on [redacted] right hand, bending back his thumb. There was an audible crack.

12.40pm Child fell from junior playground equipment on to softfall sustaining a broken arm. Ambulance was called to the service. The child was dancing and lost her balance falling forward and bumped her ear on the leg of the computer table.

Child bumped her mouth on a chair when she tripped over a mattress, resulting in a cut to her lip.

[redacted] had just been removed from a highchair for transition to another room when she walked over a baby play station, climbed up onto it and left off.

Child ran into a metal shade sail pole sustaining a cut to middle of forehead.

Child was running in the garden when she tripped resulting in falling forward and bumping her chin on wooden bench. The child sustained a cut under the chin approx 1cm in length.

Child with whooping cough

Deleted pursuant to section 47(2)(b) has placed a bead/ball in his right ear.

Injury to back of head

At 9.50am the child was jumping on pillows in the Senior Kindy room. An educator was approaching the child to re-direct him when the child has lost his balance. This resulted in the child falling forward and bumping his head on the wooden activity shelving. The child sustained a cut to the forehead approximately 1cm in length and approximately .5cm in depth. The wound was cleaned and and ice pack was applied. The wound was dressed.

At 5.15pm the child was in the dress up corner of the kindy room playing with other peers when an educator noticed blood on the child's forehead. The educator noted a cut to the forehead onto of the left eyebrow approximately 1cm in length. An ice pack was applied.

Entered by RA. TF [redacted] turned around & rang into a board on top of shelves in room. Shelf (board) collected with his eye.

Child burnt fingers on BBQ plate parents called

[redacted] was playing in the under cover area at approx 1.25pm. He hit his head. Contacted Mum and suggested he get checked out. Took him to Gold Coast hospital. Mild concussion. Kept over night for observation.

Child tripped on a school bag and bumped head

Injury to head

10.00am at [redacted] playground area, [redacted] climbed the stairs and educator answered another child and [redacted] fell backwards down stair putting her tooth through her lip [redacted] applied first aid than contacted [redacted] (Co-ordinator) & contacted [redacted] parents & took her to Mackay Base hospital.

Child tripped over own feet falling forward and bumping his face on edge of the door.

[redacted] was playing with the bead frame when a peer accidentally leant on her. She fell forward onto the frame resulting in a bump to her forehead.

Child sustained an irritation to the right eye after another peer poked the child in the right eye unprovoked

Parent was contacted by phone at 3.00pm

Child slipped on mosquito net and sustained bleeding gum

Child hit in the head with a toy

Incident

Child fell off bike. Medical attention was sought.

Child found 2 beads and has inserted the beads into each nostril. Educator noticed the child was in some discomfort and removed only one of the beads.

Child sustained a bruise to the middle of the forehead approximately 5cm - 6cm in size.

Child was roller skating and fell and hurt wrist. Ice was applied and she felt better. Once back at service she felt unwell and mum was called.

Parent was phoned at approximately 2.30pm. Parent was able to come and collect child straight away

On the 18.01.2013 at approximately 3:49pm staff members noted a child tion deleted pursuant to section pull the drop bolt on the gate in the kindy playground and push the gate. The staff members further noted the child push his way through the gap in between the gate and the fence as he pushed the gate open ( The gate has a pad lock at the top however the gate opened slightly). The child was located approximately 1 meter away from the gate in the park area when he was re-directed by a staff member pursua s pursuant to the playground area. The Centre Director and pursua Manager will investigate the incident. The Gate/fence area was repaired deleted pursuant to s

The parent called the centre on the 18.01.2013 once they had arrived home to advise the service of the child being covered in insect bites. The parent advised the child would be taken to the doctor. There was also a bite mark located on her right foot.

At 3:20pm the child was playing with other peers in the pre-school room in the home corner when another peer has accidentally closed the door on the child's fingers. The child sustained swelling and bruising to the left hand side ring finger and little finger. There was broken skin noted on the child's little finger. An ice pack was applied to the area.

Entered by RA:TF Child bounced on settee, fell off and hit head on corner of table educator was setting up beds & getting bedding in another room. Ice applied. Parent took child to doctor.

17/01/2013 - 3:25pm child complained his foot was hurting. The right foot was raised and monitored until collection time.

Child fell from fort and sustained a break to the elbow.

Mum confirmed hearing from Doctor that pursua had a case of Whooping Cough.

A bruise/bump to forehead

pursua was hit on the head with a children's size broom by another child, resulting in a cut on his head.

pursua sustained injury to chin

Child hit his head on the corner of a pot plant - parent was called

At 12:00pm the child was asleep in his cot when he vomited a small amount. The educator cleaned the area and the child remained asleep. Shortly after the child vomited a large amount and the educator cleaned the area and took the child to the bathroom to bathe him. The educator noted the child was pale in complexion and very lethargic. The educator continued to monitor the child until the parent arrived. The child had small sips of water and was reassured by the educator. The grandparent arrived and was nursing the child when he vomited again. The educator offered to call an ambulance and the grandparent refused and advised she would wait for the parent. The child remained lethargic. The parent arrived and called an ambulance.

At 10:40am the child was playing in the senior playground and was sliding down the slide when the child has fallen sideways off the slide. This has resulted in the child falling on his left elbow. Swelling to the area was evident at the time and an ice pack was applied.

The child was running taking her thongs off at the same time causing her to trip and fell forward bumping her head on the corner of the drink box.

At 11:00am the child was about to sit on the carpeted mat area in the pre-kindy room when a peer stood up and collided with the child. This resulted in the child biting down on his tongue. The child sustained a cut the right side of the tongue approximately 1mm in length with swelling. Ice blocks were provided to the child.

8:35am Child was climbing on fort, slipped & bumped head on step. The child cried, went stiff, rolled eyes back in head & bit side of tongue. After ten seconds child was conscious complaining of a sore back.

pursua was participating in a disco activity where he lost his balance and slipped. This caused pursua to fall and land on his arm. First aid was applied and parents were notified.

pursua sustained a cut to her top lip approximately 1cm long and top left tooth was loose. This was while she was climbing the small ladder in front of the wooden train table.

The child's finger was caught in the nursery gate as it was being closed by the educator.

pursua sustained injury to shoulder

Child went missing from service

Child sustained a cut/graze to the eye approximately 5cm in length. Bruising and swelling was also evident. An ice pack was applied.

Child was sitting in Home Corner when peer picked up chair and swung chair towards child cutting his face below the eye.

Entered by RA-LN pursua was playing with building blocks sat on a chair. She then tried to stand up on the chair pursua was asked to sit back down and as the teacher walked round the table, pursua fell off the chair onto the floor and as she did this she bumped her forehead.

Child lost balance on ladder hitting her chin, biting and splitting her tongue.

Entered by RA:TF pursua was in the toddler's room (7 children with 2 staff) at rest time pursua chose to not sleep and was spinning around in the middle of the room. He lost his balance and fell bumping his face on a book shelf. This caused a 1cm cut on pursua eyebrow.

Entered by RA-LN 2pm on 22/1/13 staff member noticed red mark next to pursua right eye. See attached accident report and letter.

Child was inside lying on a mat when a peer stepped on his arm.

pursua was skating along the edge of the rank, her skate got caught and twisted on a right angle to her body, this made her fall and her ankle twist even further with this she fell to the ground.

Child sustained injury to elbow

pursua but lip and inside of mouth with teeth

A child was on the small fort when he was pushed by a peer causing him to fall forward.

pursua fell off a bike and fractured his thumb.
As the toddlers were entering the room from outside play time at 9.20am, pursua tripped and fell, hitting her head on the floor. Child was climbing on scramble net on the fort and lost her balance and slipped.
Child was sitting at table forward on his chair. Chair slipped out from under him and his eyebrow hit the table.
Entered by RA TF Child was not at Kindy this day - mum noticed some red spots on child's hand Monday night. Next day some were blisters. Parent took child Tuesday am and Dr said it was hand Foot and Mouth. Director [redacted] had staff scrub and wash toys and furniture with warm soapy water and air dried in the sun.
Incident
The child arrived to the centre with their parent and was putting their belongings away in the preschool room when the CD noted she was upset. The parent advised the child fell over in the carpark and grazed her knees. The parent then took the child to the playground. An ice pack was placed on the child's knee and the father was semi-nursing the child when the staff heard pursua say "Oi, Oi." Staff tended to the parent and child and noted she appeared unconscious on his shoulder. Staff offered an ambulance and the child opened her eyes and responded to the parent. Parent advised to not call the ambulance and he would take the child to the hospital himself. These symptoms lasted for up to 3 seconds. [redacted] relevant information deleted pursuant to section 22 of the FOI Act
Irrelevant information deleted pursuant to section 22 of the FOI Act [redacted] the parent signed the child into the centre at 9.00am and signed her out of the centre at 9.05am.
[redacted] had his first go at slip and slide and ran down the tarp and slipped on his knees, other children had been playing on this since 10am, water was consistently being applied. He opened up his knee.
Parent was contacted by phone at approx 10.45am. Mother contacted father both parents arrived at centre approx 20 mins later.
Outside in the big yard, pursua approached educator who was upset. Educator noticed blood coming from forehead. She applied first aid and called mum. Mum came and took him to the hospital. Incident occurred at 5.40pm. Mum came 5 mins later.
Entered by RA TF See attached for details
Information deleted pursuant to section 22 of the FOI Act playground. Slipped from rung on to metal platform and sustained small split to forehead.
The subject child was swinging toy binoculars from side to side across his chest when the binoculars struck him in the front tooth causing significant chip. The action was not witnessed in person by any staff, but reported immediately by child.
[redacted] deleted pursuant to section 22 of the FOI Act was playing with other children when he fell over. [redacted] said that he heard a cracking noise when his ankle rolled sideways
Incident
pursua had an accident causing her left front tooth to be pushed upwards and backwards.
Bump to head
At a little before 11.00am, pursua was talking to an educator in the playground. He suddenly appeared to become confused and disorientated and said he couldn't remember how he got here or what day it was. He became very distressed and began to cry. He had not been in the sun for long and had had no injury which would explain his behaviour, which continued even when his mother arrived 20 minutes later to take him to [redacted] Hospital.
At 4.10pm the child was playing hide and seek with other peers in the pre-school room when he was found he came out from under the table in the home corner and has bumped his ear on the table edge as he tried to run away. The child sustained a cut to the ear approximately 1cm in length
Educator was taking children back to car in a trolley after being to Coles, when the trolley hit a rock and tipped over. [redacted] bumped the left side of her forehead.
4.05pm swing area. [redacted] on swing - came off swing at highest point.
[redacted] was climbing the plastic fort, when he slipped with his hands, falling directly onto the fort with his mouth. He cut his top lip and one tooth fell out (swallowing tooth)
Carer noticed [redacted] standing in book corner, when carer was supervising other children, carer looked back at [redacted] and saw her laying on the ground. Carer went over to [redacted] and noticed a cut and bruise on the outside of her right face cheek. Blood was then noticed on the inside of [redacted] mouth. Carer asked [redacted] what had happened and [redacted] replied she fell on the floor.
Spoke to service 26.01.13, coordinator advised the child had returned to the service. Review of excursion risk assessment being carried out.
Entered by RA TF Please see attached report
2.55pm child was playing on monkey bars and slipped off and landed on right wrist.
Child fell off slide and bumped head and elbow while on an excursion.
Incident
Staff smelt smoke in our Kindy one room. Building was evacuated and triple Zero phoned
Child sustained injury to head from a fall
[redacted] slipped and landed on his right shoulder when exiting the pool resulting in an injured ligament/tendon.
12.19pm [redacted] deleted pursuant to section 22 of the FOI Act was asleep on his mat/bed. [redacted] spontaneously started convulsing. Ambulance was called and attended premises. [redacted] was taken to hospital

At 3:15pm the child was walking up the inclined beam attached to the fort in the senior playground when he has slipped. This resulted in the child falling forwards and bumping his head on the edge of the beam. The child sustained a cut to the forehead approximately 1.5cm in length. A pressure bandage was applied to the area.  
The child climbed onto the fort and lost balance.  
The child was riding her scooter down a ramp when she lost her balance. She sustained a graze to the right side of her nose and chin.  
At 3:55pm the child was in the nursery playground when a peer pushed her from behind. This resulted in the child falling forward and bumping her head on the square wooden pole. The educator checked the child and noted no visible injuries. The educator applied an ice pack as a precaution. The child returned to play and approximately 10 minutes later the child vomited a few times. Parent later reported the child continued to vomit in the car and a bruise appeared to the top of the forehead approximately 3.5cm in length.  
At 2:30pm the child was putting his sheets back in his locker in the toddler room when the staff heard a noise. The staff turned and noted the child hopping up from the floor. The child sustained a cut to the inner right side of the bottom lip approximately 0.5cm in length. The child also sustained a cut with swelling under the outer bottom lip approximately .5cm in length. Pressure and an ice pack was applied to the area.  
At 3:00pm the child was in the toddler playground when he jumped off the small foam steps and misjudged his landing. This resulted in the child landing on his arm on the safety mats. The child's left arm was checked with no visible injuries, however the child was favouring his arm. Swelling started to appear to the elbow. An ice pack was applied to the area. The ambulance was called at 3:00pm and provided pain relief to the child. The child was transported to the hospital accompanied with the parent.  
The child was punched in the head by a peer.  
Child was hit in the mouth with a bat accidentally. The child was taken to the dentist and a bruise was found on her gum.  
Child fell off balance beam stumbling hitting his head on the leg of a nearby table.  
4:35pm Child playing around mudpit, ran into the perimeter fence sustaining cut to forehead which was glued by doctor.  
3:00pm Children were playing with a plank of wood near the fort when a child's finger was caught between the wood and a large boulder. Doctor applied compression bandage.  
Wednesday 23/01/2013 at 4:45pm persua was playing sleeping tigers with 19 other children. When it was time for persua to wake up - she would not wake up. The children played this game inside the indoor basketball court. Ambulance was called for advice - they took her to the hospital.  
Inside Preschool room at 4:10pm persua and 2 other children were playing with cotton buds, when persua started crying and Educator checked blood was coming out of right ear.  
Child sustained injury to knee  
persua was pushing a truck on concrete path and fell forward hitting his head on the concrete resulting in a raised lump above his eyebrow.  
Child fell over whilst playing hitting his head on the corner of the dress-up trolley resulting in a small cut and bump.  
persua was standing on frame of small stage watching the trucks. He fell over the rail landing on the soft fall bark. He told persua that his elbow really hurt. persua called persua on Friday morning to see how she went at doctors. persua told persua had a fractured elbow.  
ASSOC NOT ID: NOT-40003442 Entered by RA-LN 24/1/13, 1:11pm While on excursion to local park, persua was climbing lower branches of a tree when the branch broke and he fell to the ground landing on his right forearm.  
Incident  
Child injured playing basketball  
persua was playing with another child when the other child bit her on the face.  
persua wandered away from the group on excursion to persua was missing for 10 minutes and located by persua to persua  
On the 25.01.2013 at approximately 9:00am a group of pre-kindergarten children and staff were transitioning from the playground to the pre-kindergarten room. A staff member noted during the transition that she could not account for a child and immediately went to the playground area where she could hear an audible noise at the shed area. The staff member located the child in the shed. It is believed that the child was in the shed for approximately 1-2 minutes after the bikes had been put in the area. The child had no visible injuries and did not appear distressed. persua Manager and the Centre Director will investigate the incident.  
Phoned service 01.01.13, large tyre moved further into the sandpit, away from concrete edging.  
Child has a nose bleed  
Missing children - walking along persua to Aspley. Staff members believe that the fire gate in the playground was left open after a gardener attended the service.  
Child ran through a damp spot on the floor which was previously mopped, as a result he slipped backwards bumping his head on the floor.  
Child in senior toddler room we their clothes just as another child walked past and slipped on the urine and fell backwards, hitting the back of his head on the vinyl floor.  
persua had been to the toilet and was running out when she tripped hitting her head on the bin which resulted in a cut above the eye.  
Child was hit on the head by a wooden brick.  
Child sustained cut to his eye  
Call from persua to advise parent intoxicated prior to attempted collection approx 16:30. Police attended

ASSOC NOT ID: NOT-40003481 At 12:55pm the child was walking to the playground from the toddler room when he tripped on his feet. This resulted in the child forward and bumping his head on the edge of the table. The child sustained a bump with bruising to the middle of the forehead approximately 5cm in size.

Trim # 13/44503

Child fell off the balance beam and ended up with concussion.

Child was unsettled, not playing and refusing food and liquids. Doctor was consulted and diagnosed a virus.

P-1 Children were playing in the [redacted] playground at 5.10pm. 1 educator present. 13 children [redacted] fell from the climbing web. 4/02/2013, 9.25am. Child slipped on a low balance beam and fell awkwardly on his right elbow. Child sustained a broken arm above the elbow.

Child had allergic reaction to an unknown source

Child fell and hit head

Child was playing on the see saw when a peer approached a staff member and advised the child has fallen off. The child approached the educator and said her arm hurts. The child sustained a suspected broken arm above the wrist.

Child was running and bumped into a peer and fell forward bumping her nose on a bike. Bruising and swelling to nose and nose bleed.

At 1.30pm the child was lying on her bed in the toddler room when she rolled and bumped her on the stud in the wall above. The child sustained a cut above the left eye approximately 1mm in size. An ice pack was applied to the area.

Child vomiting and taken to hospital in an Ambulance

At 3.40pm the child was lying down on the floor and bracing her stomach. The child appeared to be experiencing severe abdominal pain. An ambulance was called at 3.50pm and arrived at 4.05pm. The child was kept still and monitored until the ambulance arrived. The ambulance transported the child and the parent to the hospital.

At 4.00pm the child was in the playground when the staff heard him cry. The staff tended to the child and noted he was sitting next to the rope poles near the slide. The staff checked the child and noted no visible injuries.

Spoke to service, child has returned

5/2/13 4.00pm, Junior back playground, [redacted] was climbing on a stair attachment to the fort when she slipped and bumped her chin causing a cut from hitting the floor.

Entered by RA TF 4pm - [redacted] was racing his friends with the push bikes and fell off the bike. Educator helped him up - checked him over and there was no apparent signs of injury.

ASSOC NOT: 40003866 At 3:55PM [redacted] was playing on the monkey bars. As she let go to land on ground she lost her footing and fell forward causing her to fall awkwardly on her wrist. This happened at [redacted] playground in [redacted] program.

At 9:30am the children were sitting on the mat for group time when [redacted] approached [redacted] to say that he has a marble stuck in his mouth.

Child tripped on her feet, resulted in the child falling forward and bumping her head on the edge of the hard plastic of the sandpit. Sustained a bump to the right side of the forehead - 4cm. Ice pack applied

ASSOC Not ID: NOT 40003608 Please see attached report

DUPLICATE RECORD - SEE NOT-40003606 (INC-00008730) This record assigned from Central Office

Information received by service adequate. Risk management in place and child has returned to centre

ECO Pat Cornford spoke with educator 6.2.13, child went to Doctor and now has cast on his leg. Has since returned to service. Staff spoke to children re swing safety, softfall has been checked and meets safety standards.

3.30pm 6/2/13 in main play area, child presented with small red bite mark on left ankle leg - was told a peer did it and his knee was saw when he kicked a ball. Child did not want to walk but could move foot, ankle, knee - no swelling

[redacted] had lumps on her arms when she came back indoors.

Incident

TRIM ref:13/51459

At 3.30pm [redacted] fell on to a metal platform on the fort hitting his head. Parents were contacted while first aid was applied [redacted] appeared drowsy and 000 was rung. Mother, Father then ambulance arrived [redacted] was taken to Kingaroy Hospital

A child was standing on a blanket and it was pulled from under her, she landed on her wrist.

Child was sitting on his bed towards the end of rest time when he bumped his head on a table sustaining a cut between his eyebrows.

Child sustained bite on leg resulted with [redacted] leg swelling.

A child was playing near [redacted] and threw bark into the air and some went into his eye.

Child sustained possible dislocated elbow

[redacted] was climbing up the slippery slide and lost balance and on the 2nd step and fell

[redacted] was riding a bike and attempted to ride over a stepping stone, resulting in child falling off the bike and sustaining soreness to left arm

TRIM Ref No: 13/46340

10.09am in the kindy room at free play time [redacted] and another child were running inside [redacted] had just asked them to use their walking feet when [redacted] ran off.

Upon arrival to the centre on the 8/02/2013, the parent notified the centre that medical treatment was sought on the morning of the 8/02/2013 for a serious incident involving the child inserting playdough in her ear. The centre were unaware of the incident occurring and notified the Approved Provider on the 12.02.2013 that medical treatment was sought.

ASSOC NOT ID: NOT40003971 Entered by RA-LN At approx 8.55 this morning [pursuant] became distressed, crying and using two fingers. [pursuant] made an open and close action at the mouth and just inside the mouth [pursuant] was playing with lego and a carpet square alone with other children playing around her. [pursuant] would not relax and would not say what happened. TRIM ref: 13/51276 child not collected from school
Associated Notification ID NOT-40004585 Entered by RA TF Child tripped over own feet which resulted with him hitting his forehead on the skirting board around the door. At 10:30 during outdoor/indoor transition an Educator noticed [pursuant] holding his hand and becoming quite distressed. [pursuant] was placed on the change mat on closer inspection the educators noticed slight bruising and swelling at 10:50 an Educator phoned his parents. Incident occurred approx 10.55am, where [pursuant] fell over hitting the frame of a window with the contact [pursuant] received a cut above the eyebrow. Ambulance assessed [pursuant] and notified us that he would need butterfly stitches. Hit to back of head with soft ball. TRIM# 13/45455 Child lost footing while climbing ladder. Medical attention was sought.
ECO Nola Davis spoke at length with director re policy and procedure for administering medication. Director stated that this would be brought up at next staff meeting. Nola followed up after a few days to confirm it was discussed. She was also informed that area manager was also present to reiterate to importance of 2 educators being present during the whole medication process. Entered by RA-LN At 4.45pm [pursuant] swung over side of rope bridge and as he swung forward he hit bridge of this nose on timber frame of mud pit. Ice pack applied immediately LOCATION- OUTSIDE MAIN PLAYGROUND [pursuant] SAID HE TRIPPED WE ASSUME LANDING WITH HIS RIGHT FOOT OVER, AFTER JUMPING FROM THE SECURED FRAME OF THE HORIZONTAL FRAME ATTACHED TO THE CLIMBING FORT. THIS IS LESS THAN 1 MT WITH SOFT FALL BELOW Incident discussed with Director, no injury sustained by child. 8.15am Child was running along a plank bridge on obstacle course, slipped & fell sustaining a cut to chin. Parent sought doctor's advice. Glue was offered but parent chose not to have this applied.
[pursuant] sustained a cut to the head that was glued together at the Doctor [pursuant] tripped over his own feet bumped his head on the table. The table was checked for sharp edges and none were found. Educators hold current first aid/cpr certification. [pursuant] sustained an injury to his head Trim# 13/50625 Incident Hand, foot and mouth. Bump to head At 10:20am the child was running in the preschool room when she jumped onto the large cushion and lost her balance. This resulted in the child falling forward and bumping her mouth on the edge of the book shelf. The child sustained a cut to the outer left corner of the top lip approximately 7mm in length, a graze under the bottom lip approximately 4mm in size. Swelling and bruising were also evident to the area.
Entered by RA-LN Children and staff in the centre have experienced symptoms of gastroenteritis, with four children having diarrhoea/vomiting in the senior kindy room on 12.2.13. Please see attachment for cases reported on 13.2.13 as well. [pursuant] was climbing on the ladder attached to the fort [information deleted pursuant to section 22] He only had socks on his feet and slipped falling to the ground onto his right arm. The fall height was from 2nd rung of ladder 52cm. He landed onto the soft fall area under the ladder on right arm. Injury to knees and hands Phoned service 21.2.13, child 'passed' small stone at the service 2 days later. Have implemented RM procedure of sweeping and checking the area prior to children entering the playground. Associated ID: NOT40004132 Entered by RA-LN At 9am on 12 February 2013 [pursuant] was walking up the side when she slipped and fell forwards landing on her left arm. Child slipped and bumped her arm. Medical attention sought. child fell and hurt his arm. [pursuant] was playing outside with another child on a sea saw - Educator went indoors - When returned she saw a scratch on [pursuant] eye and left arm. Parent took [pursuant] to doctor to have her eye checked. 10.55am [information deleted pursuant to section 22]
Staff member had a seizure in [pursuant] room. Staff administered First aid until ambulance arrived. Time 2.00pm happened. [pursuant] was playing on the monkey bars at top adventure, she attempted to grab the next bar and didn't grab it, she fell to floor which is soft fall rubber putting hands down, she immediately became distressed. Was brought into centre 1st aid applied. Attempted to phone Mum. Incident Incident [pursuant] was climbing on the large rocks that surround the sandpit. She slipped, fell and hit head first onto a rock [pursuant] grazed her chin and chipped her left front tooth. [pursuant] sustained a cut to his chin [pursuant] sustained a 3cm laceration on his right eyebrow.

pursua was hit by a shovel thrown by another child  
Child was running, tripped and fell bumping his head. Medical attention was sought.  
Child running in the kindy room ran into a toy shelf  
Phoned service 22.02.2013, Equipment always positioned in this area on the soft fall mats, No other incidents of this nature have occurred in the past. An educator was and will continue to be positioned close by.

Phoned service 22.2.13, investigation of area showed no protrusions in the surface of the playground. Injury possibly resulted from a small car as these were in the area at the time. Child remained at service following the incident for parents were satisfied with the procedures carried out by staff. They took child to Dr at a later point where wound was cleaned.

At 3.25pm [pursu] & another child under the supervision of a staff member went to the toilet. [pursu] While in the toilets [pursu] hand was caught in the door resulting in a laceration to his right finger approximately 1 cm in diameter. Parents called, injury iced and dressed. Dad was encouraged to seek medical advice. No outside medical services were required.

Child was serving himself afternoon with a pair of tongs when another child grab them and they pinched and tore his skin.  
Incident 9.55am occurred near the sandpit, between sandpit and sand toy box in the play ground. Sustained a neck injury while playing.  
Injury to child's head

19/02/2013 - 10.40am Child was tired during playtime inside, then lay down and convulsed. Ambulance & parent were contacted.  
Child was collected by another provider  
Cut to finger  
Child caused a disturbance on the centre bus  
pursua sustained a cut to the left side nng finger  
staff asked Mum to collect the child as they thought medical attention should be sought as the cut appeared deep. Mum collected pursua but decided against taking him to the hospital or doctors. she is a registered nurse and said that she didn't think it was required. Follow up call to parent [pursua] on Thursday by staff and they were informed by that [pursua] had not suffered concussion and would return next week on the 26/02/2013 as booked

ASSOC NOT ID: NOT-40004629 [pursua] arrived at ASC complaining of being tired. She rested for the afternoon, watching a movie, until being picked up by mum. When [pursua] didn't come to ASC the following day, staff called to see where she was. [pursua] Irrelevant information deleted pursuant to section 22 of the FOI Act Staff had not been notified that [pursua] suffered from asthma, and apart from being tired, had not shown any normal symptoms of asthma eg wheezing, difficulty breathing.

Spoke to service, police were called and searched the immediate area, offending person was not found. No children were exposed to person either for they were taken into lockdown. Service is revising the lockdown procedure and have notified all staff/educators of the incident.  
Child slipped in the bathroom sustaining a cut to forehead. Parent took child to hospital where the cut was glued.  
Notification ID - NOT-40005067  
3.45pm - Child climbing on the fort, fell, sustaining a cut to right eyebrow.  
Child held her breath and passed out  
Child sustained injury to chin  
Injury to arm  
pursua got his foot caught under the table, take to the doctor. Xray taken the next day and advised that he sustained a sprained ankle  
Child bumped chin on a ladder and sustained a cut to the chin approximately 1cm in length.  
Child was hit on head with a wooden block  
Spoke to Nominated Supervisor who said that an accident of this type had never happened at the centre before. The Shade poles are not padded but they feel the chances of this occurring again are minimas so are not looking into getting pads. Parent was happy with the way centre dealt with it and child is back at centre.  
pursua moved the ladder attached to an A frame to the top where it did not securely fit - she then attempted to descend, but fell when the ladder fell.  
Incident  
At approximately 5.15pm [pursua] deleted pursuant to section 22 of the FOI Act fell from the side of the fort in the [pursua] deleted pursuant to section 22 of the FOI Act Kindy playground, hurting her right elbow. An ice pack was applied and her arm placed in a comfortable position until the ambulance arrived.  
Child was running. Tripped on chair and fell and hit head on another chair.

The children were playing outside with [pursua] A rash appeared on [pursua] face (RHS) and down her right arm. [pursua] took all children inside. Checked [pursua] for insect bites. None were apparent. [pursua] called [pursua] to collect at 11.30am.  
During the escorting of children from the meeting point to the [pursua] room, [pursua] indicated to the Educator that he had been pushed into a metal pole by another child. These metal poles are located outside [pursua] ant information deleted pursuant to section 22 of the FOI Act  
Upon chatting with [pursua] it was identified that he was between the two metal poles and his bag became stuck that he couldn't get through and he pushed his way through causing the top of his right ear to hit the metal poles causing a cut to this ear. This occurred at 3.00pm.  
Entered by RA-LN [pursua] fell over hitting his left eye on the corner of table cutting top of eyebrow in senior kindy room at 4.35pm. Requiring medical attention.

21/02/13 4:45pm [pursua] and another child were playing in play room [pursua] was in hallway other child in room when he pulled on the door and slammed it to keep [pursua] out. Her finger next to the little finger was jammed in door of her left hand. Mum came and picked her up.

Contact service and spoke to assistant director, child will not be returning to care. Father of child has been in discussion with [ursu] [pursua] on three occasions to discuss and inform of the steps being taken to prevent this occurring again. Offending child has also ceased care at parents choice.

3:20pm Children playing in hall because of wet weather. One child chasing a ball collided with another & fell sustaining broken wrist. Ambulance was called and child was taken to hospital.

Two children locked in car at centre

Swelling to child's wrist from teething bracelet

Sustained a sore back after being on trampoline. Taken to doctor regarding another condition. Doctor advised to rest. No further action required.

[pursua] was holding a car when a peer leant forward and took the car from [pursua] and bit and scratched him on the cheek

At 4:30pm the child was in the preschool playground when she approached an educator upset. The educator noted a cut to the middle of the forehead approximately 1cm in length. The child advised the staff she fell over on the fort.

At 4:50pm the child was playing in the home corner in the [pursua] room when the child attempted to step over a cardboard box and tripped. This resulted in the child falling forward and bumping her head on the leg of the home corner table. The child sustained a bump to the left side of the forehead approximately the size of a 10c piece. An ice pack was applied.

Child became distressed while playing. Family sought medical attention and child sustained a green stick fracture.

Child had a square paver 15cm x 15cm accidentally dropped on the top of his head. Causing a 2.5cm cut to child's head.

At 3:00pm [pursua] was hit with toy fry pan. 3:20pm mum [ursu] was notified. At 4:20pm child left centre with Mum and [pursua] vomited in car over [ursu] on way home. [ursu] took her to doctor and he suggested to go Mater Hospital [pursua] sent via ambulance. [ursu] reported to management and confirmed mild concussion.

ASSOC NOT ID: NOT-40004626 [pursua] did not arrive for ASC as booked. parents were called but were unable to be contacted. Message were left on all supplied phones numbers. Police were called at 3:50pm, and notified staff at 4pm that [pursua] was with her mother.

Entered by RA-LN [pursua] was dancing around the wooden table in home corner area when he jumped up and came down hitting his chin on the table. Attached copies of incident form and form from emergency department Associated Notification ID: NOT40004687

Entered by RA-LN Child tripped over and hit his eye on edge of wooden chair. [pursua] at 10:40am. Child taken to GP and glue applied to eye. Parents called to inform child is fine.

Child was taken by ambulance with parents to hospital. Dr said child went into shock rather than having a seizure. [pursua] back at service the next day, parents were very pleased with the care and treatment and the precaution Director took by phoning ambulance.

Child was jumping into sandpit and fell unconscious. Emergency services were called.

[pursua] fell off [pursua] platform and sustained an injury to his arm

Incident

Child. [pursua] [pursua] to [pursua] has chicken pox

22.02.2013 [pursua] to [pursua] Trim # 13/71030

Injury to head from a rock

Child threw something at another child and hit her in the head, resulting in a small laceration.

Spoke to AP - not sure if it was actually the chicken pox.

Incident

TRIM Ref No: 13/65362

Contacted coordinator. [pursua] Child-the biter has ceased care. His mother saw the bites on the other child and decided that her child should not be in care. Bitten child has returned to care. Spoke to coordinator about management of the incident, why the child and the opportunity to bite so many times. Coordinator asked the educator some questions and has put educator on an additional 3 months probationary period to offer more support. Service is considering adding biting to the behavioural management policy.

[pursua] was walking out of bathroom after washing hands to have m/tea. This is where [pursua] dropped and had his convulsion at 9:45am approx. The director called for an ambulance and the Lead educator rang [pursua] mother.

child his on head with spade by peer, ambulance called - no treatment needed

Associated Notification ID NOT-40005320

TRIM ref: 13/115341

Incident

[pursua] was standing in a circle on verandah with group watching when educator noticed his mouth twitching. Educator carried [pursua] into room and placed him on mat in recovery position. Ambulance called and parent contacted. Educator monitored [pursua] - mouth twitching - eyes fixed - arms limp. This lasted 2-3 minutes - educators talking and reassuring [pursua] he was going to be fine. [pursua] sat up himself then stood up and walked to table - having sips of water. Information relayed to ambulance on arrival.

The child tripped over wheel break of trolley

[pursua] sustained an injury to his lip

At 10.25am the child was playing with bubble wrap in the pre-school room with other peers when a peer has approached the child and bumped the child on the head with a wooden block. The child sustained a cut to the back of the head approximately 1cm in length. An ice pack was applied.

At 10.30am the child was playing with musical instruments in the kindy room when he approached an educator. The educator noted a cut to the right cheek approximately 2cm in length. A peer advised they bumped him on the face with an instrument.

NOT-40004553 The parent further advised when the bus arrived to [redacted] a peer took the child's seatbelt off and opened the bus door. This resulted in the child falling forward and bumping his head on the edge of the concrete gutter. The bus driver was standing at the door with her back to the bus signing the child out.

child was kneeling on mat, fell toward hitting her mouth on equipment and chipping tooth

Injury to head

Incident

Child collapsed in educators arms.

Child injured arm. Medical attention was sought.

Child bumped his mouth on the platform of the fort resulting in a cut to the inner left side of his mouth.

Child tripped and fell forward bumping his nose on the corner of the table resulting in a cut to his nose approximately 1cm in length. Child admitted to hospital on a Sunday evening with Viral Infection after suffering a seizure.

At 12.00pm the educator noted the child picking up small pieces of playdough and placing them in his mouth. The educator spoke with the child. Shortly after he approached the educator and advised he swallowed a toy. Educator asked which toy, the child advised it was a bead. The child advised it was stuck in his throat however was not having any breathing issues.

Rang, spoke to coordinator [redacted] Educator followed lockdown procedure, notified police and parents informed.

NOT40004639

child was riding a bike, fell forward and bumped her mouth on the ground

Incident

Vandalism at centre

02/02/2012 8.30am The child was putting fingers in mouth and ears at carer's home.

27/02/2013 - 2.30pm Child had a runny nose, was crying and appeared unwell. Parents took child to Doctor who removed a small battery from child's nose.

Child pushed by car off the table and it hit [redacted] in the head resulting in a small cut to the head.

[redacted] was playing with the bus in the toddlers room when he tripped, hitting his mouth on the bus or ground. [redacted] mouth started bleeding but didn't want an ice pack on. Gave him his dummy then mum arrived.

Incident

[redacted] was walking on the cushions. He became unbalanced, fell hitting his face (Cheek) on the table

After having lunch carers noticed red welly rash at 11.40. Notified Director at 11.45. 11.50 rubbing eyes as they are red and itchy. 11.55 eye, red more blotches breathing is being monitored. 12.00 face and eyes swollen - Mum and Dad rung throughout to come and collect him - Dad coming from afar. Then calling Mum no answer so rung ambulance

At 9.30am [redacted] deleted pursuant to section [redacted] was walking around in a dress up costume when she tripped and landed on her left knee. Her knee was very sore, educator's [redacted] and [redacted] attended to [redacted] providing an ice pak and wet washer and sitting her on a chair to take the weight of her legs.

Associated Notification ID NOT-400004559 At 7.40am the child was in the pre-kindy playground when she hopped off the see-saw and the see-saw bumped her on the face. The child sustained a cut to the top front gum, swelling and bruising was evident to the area.

Child taken to DR as a precaution. Child did not have playdough in nostril, child was returned to service afterwards.

Bump to child's face from a fall

05.03.13. Service contacted and discussions held with centre Director - staff stated accident not recorded at centre - difficult to ascertain when cut to child's ear area occurred. Outcome Report requested. Finalised.

Child received medical attention, possible asthma, medication given. Child returned to care and medication on site with letter from medical practitioner to be used in an emergency.

Spoke to Coordinator 05.03.13, child taken to hospital as precautionary measure. Has returned to service.

child was running, tripped and hit his head on a post

bus picked [redacted] up he had a temp on arrival at service - mother couldn't be contacted - ambulance was called, educator went to hospital with [redacted]

Incident

Red welts appearing on [redacted] legs and hands after administering antibiotics

Sand in eye

The child was standing on a cushion in book corner and attempted to jump to another cushion when he lost his footing and fell forwards bumping his head on the brick wall. This resulted in the child sustaining a lump to the right side of the forehead approximately the size of a 50 cent piece. The staff member's applied an ice pack to the area and monitored the child until the parent arrived at approximately 10.40am. The parent took the child to the Hospital where it was determined no further treatment was required. The parent was advised to monitor the child. The child returned to the centre on the 04.01.2013.

Incident Occured on 1 March 2013 at 10.00am, [redacted] deleted pursuant to section 47(2) had a seizure as she suffers from epilepsy. First Aid was applied while waiting for the ambulance to arrive. Child returned to the centre on the next booked day.

Incident

An educator was in the kitchenette when she has opened the [redacted] door to walk out of the kitchenette and did not realise the child was on the other side. This resulted in the door bumping the child on the head. The child sustained a bump to the head unsure of the size. The child remained unsettled for the remainder of the day. Unsure if first aid was applied.

10am - Child jumped from the front of [redacted] in digging pit landing on back in the sand

Associated Notification ID NOT-40004676 [redacted] was playing outside when she was hit in the head with a ball. She fell to the ground and was knocked unconscious. An ambulance was called and she was placed in the recovery position. Staff checked her airways and then followed medical instructions.

Cut to middle of under the chin

The child has [redacted] deleted pursuant to section 47(2) and the staff manage this through an action plan. The child woke from his rest and advised the staff he had a headache. The parent was notified and permission was given to administer panadol, prior to having the panadol he vomited, which is a sign the child is not coping. Mum was notified again and requested his personal medication to be administered as well as per action plan. Staff monitored the child until the ambulance arrived.

Child jumped off fort. Sought medical advice

Spoke to director, child returned to service 7.03.13. Staff have been spoken to re supervision at obstacle course at all times. Toddler outdoor play routine has been changed so that there is less children in outdoor play area at once.

Child arrived to care at approx 7.50, soon after arrival she went to sit on cushions near educator playing a game with other children. At approx 8.10 the educator, [redacted] noticed [redacted] was upset, she asked her what was wrong and [redacted] told her that she had scratched her arm. There was a red mark similar to a scratch on the child's arm. [redacted] informed [redacted] (the Coordinator) who organised an ice pack for the "scratch". Prior to taking the children to class, [redacted] asked [redacted] what she had scratched her arm on, [redacted] then said it had been on the toaster. The toaster was not on, but had been used earlier. [redacted] had reached over it to get the Hama beads that were on the bench behind it, and had touched her arm on it. It was still warm from making breakfast and had burnt her arm. When [redacted] had taken her to class she had mentioned it to the teacher. From information provided by the parent, the teacher had been concerned about the burn - the skin had been broken - and took [redacted] to the office where her mother was called. [redacted] took her to the hospital for treatment. [redacted] had recorded the injury in the minor injury register as on their inspection there were only 2 small red marks and the skin had not broken. Illness and Injury forms were completed once they had been informed by the mother on Monday afternoon that medical attention had been sought. The form has not been signed by the mother because it had not been complete until after she left that afternoon.

Child was indoors when she was bumped by two children who were running past. She bumped her wrist on a storage door. Ice pack was applied & child was settled & playing normally during the afternoon.

Child fell and hit mouth on edge of table

Child bumped mouth on metal climbing bar. Medical advice was sought.

Child was having arm wristles with a peer and lost her balance, she fell forward and bumped her mouth on the floor. She sustained bleeding from the upper gums.

Child fell off monkey bars. Emergency not called

4/3/2013 - 1.45pm - Child was lying on a kindy mat when she cried out in pain saying that she had hurt her right ear. [redacted] fell down the outside stairs and hurt his knee.

11.05am outdoor playground [redacted] was playing on the fort when he lost his balance and fell, landing on his left arm.

Risk assessment complete Wound glued at doctors 13/115330

Child sustained cut to chin

[redacted] was leaning on the wooden bench and the wooden bench has fallen over and when the leg flew up it knocked [redacted] in the mouth knocking her front tooth out and when her head came straight back down it got knocked on the bench on the ground.

Child received medical attention after overbalancing on the chair. Service has conducted equipment and environment risk assessment and have altered the environment. Child was monitored by family overnight and returned to service on 06.03.13. Parents were encouraged to seek medical advice as per service procedure with injury to head/face.

Notification ID - 40005013

5/3/2013 - 5.10pm - Child was playing and throwing blocks at other children. Child was redirected and moved to the slide banging head on the side sustaining a bleeding gum and bent tooth.

Children fell on a wooden divider, resulting in a 2cm cut to the chin

NOT-40005295

The children were playing basketball, information deleted pursuant to section 22 of the staff member did not see [redacted] get hit in the head. It was witnessed by [redacted] deleted pursuant to section 47(2) who said she seemed fine. [redacted] wasn't upset by the incident - didn't cry or indicated to anyone that she had a headache.

3.50pm - Kindy room - [redacted] was moving from the one big pillow to the other big pillow placed around the coffee table when he lost his balance and fell. He bumped his ear against the table causing a small cut on the left upper ear. The ear started to bleed. Educator applied a compression bandage over the ear for a few minutes until the bleeding stopped. His mum was called and he was taken to a doctor.

At the end of rest period [redacted] kept climbing onto a small wooden dollhouse onto a low stack of beds and then onto mats, the dolls house was moved several times. When [redacted] was busy he did this again, falling and landing on the side of the beds hitting his forehead and eye area.

Supervisor who advised that the child was taken to a doctor who requested the injured area to be x-rayed. Following the X-ray it was determined there was no broken bones and the child has sustained some strained ligaments in her thigh. *leted pursuant to s									
deleted pursuant to s									
was happy with the management of the incident. • A follow up doctors appointment on the 15/4/2013 confirmed that no further treatment was required and the child returned to care the following day which was her next usual day of care. • The Nominated Supervisor advised that on the child's return to care she has been observed walking, running and playing normally. • There were 5 children in the group with 2 educators at the time of the incident. The ages of children ranged from 15m to 2 years. • One educator was at a table with 3 children and another educator was changing a child's nappy. • The injured child was climbing on the slide in the fort area and stood up and began walking down the slide, by the time the educator moved from the table activity towards the child she had fallen at the bottom of the slide. • The Nominated Supervisor advised that the slide is the appropriate height for the ages of the children and soft fall mats were placed around the slide. Both educators hold relevant qualifications and current first aid and cpr. • The Nominated Supervisor advised that she has discussed and reviewed the supervision plans for the area with the educators. 4.15pm Child playing outside on the grass cut her left leg on the lid of a tin can which was on the ground.  
NOT - 4006791. Child fell off swing and an Ambulance was called.  
Incident  
Children collided hitting heads.  
Incident  
Incident  
Children were playing with the football and tackled one another to the ground at 3.45 pm on back grass area. Parent notified at 3.50 pm. The child was taken to the doctor by the parent and diagnosed with a fracture.  
NOT-4006903  
The incident occurred in the centre one playyard at approx 3.30pm. [redacted] was running to pick up a ball and fell sideways on her left ankle.  
Incident  
Educator at service touched a light switch, receiving an electric shock. Emergency Services were contacted  
Staff member personal accident, ambulance called, refused treatment.  
[redacted] and another child were playing in home corner with childrens tongs (mini tongs with rubber surrounding top) when the other child closed the tongs on [redacted] fingers which were resting half way down the tongs handle causing a cut on her right index finger & pinky.  
17/04/2013-1pm- Child jumped onto her feet from a sitting position and fell over the side of the couch sustaining a bump and bruise to the left side of forehead.  
Child has placed a bead inside his nose.  
NOT - 4006837. Child jumped off fort and fractured left foot.  
Child fell off a musical instrument and lost balance.  
At 10.05am the child was jumping in the pre-kindy room when he lost his balance. This resulted in the child falling forward and bumping his head on the edge of the bookshelf. The child sustained a cut to the right side of the forehead approximately 1cm in length.  
At 5.15pm the parent arrived to collect the child and noted what appeared to be insect bites to the child's ankles and feet. The parent and staff also noted slight swelling to the right ankle, this area was also hot to touch. The child did not appear concerned.  
Child suffers pre existing condition.  
Educators have discussed the risk involved with the piece of equipment and are encouraging children to not sit on top of the caterpillar. Safe use of equipment has also been discussed with children.  
Child was tackled to the ground by another child and sustained a scratch to the right eyebrow.  
Child was in the bathroom when she got off the toilet to be re-dressed, she slipped and landed on her head. She sustained a visible red, swollen bump on her forehead. Child was sat down with an educator and an ice-pack was applied. Offered her water and gave cuddles for reassurance. Mother took the child to the local doctors to ensure she was ok. Doctor gave the mother the all clear and the child attended the next booked day at the centre.  
[redacted] was playing on the playground when he slipped on his shoelace and hit his chin, cutting it.  
Incident  
NOT-40007479  
[redacted] was playing cricket on the grass with some friends. He ran after the ball, heading toward the timber ramp. It appears that he tripped over his feet while running and then fell forward, knocking his head on the edge of the timber decking on the ramp to the building.  
Child was walking when he tripped over bookcase.  
Injury to [redacted] forehead  
Child was playing tag missed his step and landed on the platform under the climbing frame on his ankle.  
At 1.50pm the child had just woken up from his sleep. When the child was getting his nappy changed the educator noted the child coughing alot and weasing. The educator notified the Centre Director and attempted to call the father from 1.50pm. The ambulance arrived at 2.50pm and checked the child and administered ventolin through a nebuliser. The child was transported to the hospital accompanied by the Centre Director.  
At 1.50pm the child had just woken up from his sleep. When the child was getting his nappy changed the educator noted the child coughing alot and weasing. The educator notified the Centre Director and attempted to call the father from 1.50pm. The ambulance arrived at 2.50pm and checked the child and administered ventolin through a nebuliser. The child was transported to the hospital accompanied by the Centre Director.  
[redacted] did not show up for ASC so parent was called who informed staff he should have been there. Police were notified.  
[redacted] had forgotten he was supposed to go to ASC and had gone home instead. When he remembered he returned to school and ASC.  
[redacted] was playing in the playground when he ran under the wooden bridge and came up too quickly, banging his head on the bridge and cutting into his scalp. Staff applied first aid and called parent who collected him and took him to the doctor. No further treatment was provided once the cut was cleaned. Staff investigation revealed two bolts protruding from the bridge which have now been removed by the school.  
Child picked up a sticky tape dispenser when she dropped it on her toe  
[redacted] Child fell backwards, missing swing and hitting head and causing bleeding in mouth on impact with the ground.  
[redacted] had climbed down from the playground and was running through the playground with 3 girls following her. She was running forward and turned her head to look behind her, at which moment she connected the climbing structure across the bridge of her nose/cheek area.

NOT-40007128
Child appeared unwell while at the service. Medical attention was sought.
Child bumped the child on the head with a wooden block
Incident
Child slipped on exercise pole and chipped his two front teeth
At 10:30am the Director noted the child had drawn on his face with texta. The Director attempted to remove it with wet wipes however was unsuccessful. The Director then got a magic eraser sponge and used it on the child's face. After rest time the child woke and the staff noted his cheeks were red.
Child fell on
SI01 Investigation -
At 11:20am the child was transitioning to rest period when she tripped over her mattress (bed) and fell forwards bumping her face on a bead frame box activity centre. The child sustained a cut to the corner of the left eye approximately 4mm in length. Pressure was applied to the area using an ice pack and paper towel. The child was monitored.
Child in home corner - reached over top of shelf, shelf fell onto child's foot. Attached
Child was prescribed antibiotics and a steroid, appeared fine when returned to service.
At 10:45am the child was in the preschool room when he approached the educator to request an ice pack. The child advised he hurt his knee at home. The educator applied an ice pack to the child's right knee and continued to monitor him. Approximately one hour later the educator noted swelling had become evident to the area. Upon further inspection the educator noted a small circle where the skin was removed which appeared like an insect bite.
Child returned to care the following day, has not required any further medical treatment. Educators have reflected on supervision around the safe use of equipment.
At 4:00pm the child was sitting on the bike, bouncing it by pulling up the handles in the senior toddler playground when he lost his balance. This resulted in the child bumping his mouth on the handle bars. The staff tended to the child and noted a cut to the outer top lip approximately 4mm in length. The educator applied first aid and the child returned to his routine without concerns. At 4:10pm the child was near the fort when the staff heard him cry. The staff tended to the child and noted his front top left tooth appeared pushed up in the gum.
Child sustained a cut to forehead on bar at top of slide
Incident
Child fell from platform, hitting his head and twisting his right arm underneath him.
Child was playing netball at the tennis courts when she tripped and landed on her right wrist. (her educator on the scene) applied ice.
Child complained of a sore behind her ear. Mother notified.
NOT-40007451
Child and another child were running when the other child pushed causing him to fall down on grassed area, taken to Hospital and awaiting results to determine if there is a fracture.
Child accidentally kicked toe while playing and bent his toe back.
Child away. 21.05.13 Spoke to witness. Child admitted to hospital and has returned to care.
4pm - Outdoor grassed area. Child showed educator what appeared to be a scratch or small splinter on ankle. Educator flicked it out and child continued playing. Parent advised two days later that the site had become swollen and Doctor prescribed anti biotics.
Parent conflict
Trim # 13/139904
On the 24.04.2013 at approximately 9:10am the child was washing her hands in the kindy bathroom. As the child walked out of the bathroom she misjudged her space. This resulted in the child bumping her head on the edge of the door.
11:00am Child was in playground when fell off chair and started to have a convulsion. Director was in yard and called an ambulance. Educator watched Child and placed in recovery position until medical assistance arrived.
Child lost his balance and resulted in the child falling forward and bumping his head on the pot plant.
Child was playing at approximately 3:45PM on the 26/04/2013 at After School Care when he fell over hurting his left arm between his elbow and shoulder. First aid was applied and his mother was called and
Manager.
Child was hit above the left eye by a plastic walking stick swung by another child.
At 11:30am the child was running in the playground when she tripped on her feet. This resulted in the child falling forward and grazing her elbow and knee on the astro turf ground. The child sustained a graze to the upper right of the forearm approximately 5cm in length. A graze to the right knee approximately the size of a 50c piece was also noted. An ice pack was applied to the areas.
Entered by RA-LN Associated Notification Reference ID NOT - 40007688 Child was placed on the bathroom floor as he had an extremely runny poo, so the carer could access resources to clean him. During this time Child pulled himself up to the cabinet, turned and tried to take a step over to the toilet, when he lost his balance. He fell forward towards the toilet bowl hitting his face on it then landed face first on the floor.
4:15pm child was lying on ground in playground. When approached by educator she began to cry and stated her arm was sore. Incident not observed, but suspect child's arm was pulled by another child.
Child sustained a wound to his head
10:45am in playground Child was pushing a push bike/trike when he ran into the back of another bike. The bike/trike jumped up and hit him in the mouth/chin. Tooth fell out.

At 8.40am the child was playing with the wheelbarrow in the senior playground when the educator noted he had a cut to the left side of the inner and outer top lip approximately 1cm in length.
Child lost his balance and fell onto his left arm resulting in a fracture
Child was riding a scooter when he fell bumping his face on the handlebars
At 2.45pm the child was near the pre-kindy bathroom when the educator heard him cry. The educator tended to the child and noted a cut to the left side of the forehead approximately 3cm in length.
NOT-40008708
Child slipped while walking up the balance beam attached to the fort and fell forward hitting his chin on the edge of the fort.
Child slipped and fell resulting in a cut to forehead.
Incident
Phoned Director. Child returned to service next day. Enquired if an incident of this nature had ever occurred previously. Advised that none as serious. However, educator had been heard yelling at the children in the past. Director had not addressed this with the educator as the Director had only been in this position for two weeks and is still "getting her head around everything". Director advised that she will: - address any incidences of staff misconduct immediately in the future; - provide relief time for staff showing signs of stress; - discuss the service policy re behaviour management at staff meeting next week. ECO requested the Director forward an email outlining the above strategies to be implemented, together with evidence that behaviour management policy has been discussed with educators. Phoned [redacted] pursuant to Manager. Requested a NL01 to be completed/forwarded. Recommended they report the incident to CPIU. Advised that we would also be reporting the incident to CPIU on receipt of the NL01
[redacted] ed pursuant to was walking on a step in the playground when she tripped & hit her chin on the softfall.

Associated NOT-40008874 TRIM#13/178098 At 4 05PM on Tuesday the 21st May 2013 [redacted] was playing on the playground. He jumped off the slide and landed with his left arm straight out. Outcome [redacted] taken to hospital, X-Ray taken Buckle Fracture. Next day no fracture but bruising and soft tissue damage [redacted] has a sling. See attached reports.
NOT-40008889 Children at the table during meal time. Child was getting off her chair when an older child started to help her. Both children fell over. This happened outside under pergola @ 10.40am.
Director reported that children will no longer join together post afternoon tea (kindy group and pre-school group) as there are too many children - supervision of all children discussed again at Staff meeting with emphasis on each staff member being responsible for supervision of all children at all times.
22/05/2013 8.10am Child was playing with a hoop in the playground. He tripped and bumped his nose on the ground. His nose was sore & bled a little.
[redacted] was playing when she tripped over a scooter causing her to fall and cut her chin.
Child was bitten on the face by another child & medical attention was sought.
A staff member shut the sliding door without realising [redacted] finger was there. First aid was administered and 000 was called and an ambulance requested.
NOT-40009030
Child has his hand on the door jam of the bus when the door was closed.
Child tripped and landed on her face, she lost consciousness so Ambulance was called.
NOT-40008805 A child fell backwards off a chair and hit his head.
At 7.25am the child was in the toddler room when a peer threw a wooden block. This resulted in the child being bumped on the head with the wooden block. This resulted in the child sustaining a cut to the top of the head approximately 1cm in length. The area was cleaned and an ice pack was applied.
Incident
At 10.00am the child was engaged at the playdough table in the toddler room when he approached an educator (his parent) holding his ear. The educator checked the area and noted playdough lodged in the left ear canal.
4:50PM, Oval. Playing Piggy in the middle [redacted] collided with another child and fell to the ground. Reports attached.
Bump to Head
Child presumed missing from service.
[redacted] fell off a ball on the trampoline and hurt her shoulder.
P/C to service, child received a clean fracture to the arm and now has a cast on. Has returned to Kindy. Educators have spoken to children about safe play and using the play equipment the way it's meant to be used. Additional matting has been placed around the slide to prevent any further injuries and accidents.
The child was running to the block area when he tripped, sustaining an approximately 4cm cut behind the ear. The incident occurred in the 3-5 room at 9.15am.
3.25pm, Child approached carer holding his head which was bleeding on the right hand side. Child had sustained a 2mm cut and graze which was glued by medical practitioner. No witnesses. Child had bumped his head on the wooden fort.
Associated Notification NOT 40009636 TRIM 13/196255 [redacted] was dancing with a group of children at before school care. Staff were not aware he had injured his thumb. Staff supervising activity did not observe [redacted] to be in discomfort.
Incident
NOT # - 40011247 - Child hurt knee
TRIM: 13/244135 Service visit discussions with Approved Provider Collection of first aid certificates, service policies and procedures, sighting of diary entries from lead educator regarding wellbeing of child and sibling request SIO1, asked to review policies and procedures at service around serious incidents, photographs taken of sight of accident, equipment
9.00am [redacted] was on the fireman's pole on the fort and as she came down she swung her legs out and hit her toes on the side of the fort.
Bump to head
At 10.00am the child was walking on the wooden stepping stones on the toddler verandah when he misplaced his footing. This resulted in the child falling forward and bumping his head on the edge of the wooden stepping stone. The child sustained a cut to the middle of the forehead approximately 1cm in length.

On the 27.05.2013 at approximately 4.40pm the child was walking up a hill towards the art table in the playground when he lost his footing. This resulted in the child falling forwards and bumping his eye on the table. The child sustained a cut to the left eyebrow approx 1cm in length. The staff members attended to the child, cleaned the cut and applied an ice pack to the area. The parent collected the child at approximately 4.50pm and took the child to the Doctor's where the area was dressed with steri strips. The child returned to the centre on the 28.05.2013. Associated incident reference number INC-00012582 Associated notification reference number NOT-40009001									
Child collided with another peer. It is believed that she passed out because of the head bump									
NOT-40009103									
Child received cut to her head & medical attention was sought									
NOT-40009158									
Child was standing near the portracks. An older boy ran past her and brushed her left arm, bending her hand back at the wrist.									
child convulsion									
Incident									
Child lost her footing and hit her head on a toy, causing a small split at the corner of her right eyebrow.									
Telephoned service discussed incident. Requested service provide, supervision plan, risk assessment of trees to fence lines, photographic evidence of space between trees and fence, Discussion about supervision, request educators revise the service supervision procedure.									
Child tripped over the dress up trolley and hurt right ankle/knee area.									
Phone call to service. Director is creating a risk minimisation plan and emailing to Townsville.OECC@dete.qld.gov.au Risk management plan received. Matter finalised.									
Child has history of dislocation and medical attention was sought									
P/C to service - Director advised that child had returned the following day. Staff have discussed the risk & supervision of any activity providing risk. Child who pushed child from balance beam was spoken to about safe play.									
Injury to wrist									
Child slipped and fell causing fracture to arm									
Associated Notification ID NOT-400010148 TRIM # 13/205648 Please see attached details									
Bump with bruising to middle of the forehead									
At 9:10am The child was walking through the nursery room when he tripped on a toy. This resulted in the child falling forward and landing his hands out on the lino floor to stop his fall. The child sustained no visible injuries, however was favouring his right arm. The child was monitored until collection.									
10:00am - Educator noticed child's breathing did not seem normal. He was using his neck and abdominal muscles to breathe. He seemed to lack energy. 10:15 - Child began to make noises as he breathed. 10:30 - Child escorted to deleted pursuant to section 47(2) of the Information Privacy Act 2009 (IPAA) Medical Centre.									
On the 29.05.2013 at approximately 11.30am the child was sitting at the table eating her lunch and began to rock the leg of the chair when she lost her balance and fell bumping her left shoulder on the metal table leg. The child sustained no visible injury at the time of the incident however became unsettled after rest time at approximately 3:00pm. The staff members attended to the child and applied an ice pack to the area when the child became unsettled. The parent collected the child and took the child home. On the 30.05.2013 the parent advised that she had sought medical treatment for the child where x-ray's determined the child had a fracture to the left side of the collar bone. The child's left arm was placed in a sling. The child returned to the centre on the 30.05.2013.									
Child was sitting at the cutting table when she missed the paper she was holding to cut with the scissors and cut the tip of her pointer finger on the left hand. The incident occurred at 10.50am									
In the playground Child fell from the balancing beam and landed on her wrist. 4pm 3 staff supervising/19 children Child called on 30/5/13 to tell us that Child has 2 fractures in her arm									
Child pushed Child over and he hit the back of his head.									
Injury to foot									
Incident									
NOT-40009442 A child was hit on the nose with a shovel									
Object found in child's nostril & medical attention was sought									
Child hit with a wooden piece of equipment									
Child pulled toy fridge on self and resulted in cut to left eye brow									
Notification NOT-40010293									
13/194855 no further action required									
Cut to chin									
While child was playing got dirt in eye. Parent took child to doctor.									
NOT-40009269 A child had an asthma attack									
P/C to service, Child deleted pursuant to section 47(2) of the Information Privacy Act 2009 (IPAA) playing with a large plastic toy barrel when it tipped over causing her to fall backwards and bump her head on the metal pole. Child didn't notify educators that she had hurt herself and didn't realise she had cut the back of her head. First aid applied, and parent took child to hospital. Educators to hold a group discussion with schoolies to ensure that they notify educator if they hurt themselves. Move activities and develop a tyre garden around poles to prevent further incidents.									
Child fell & fractured wrist. medical attention was sought.									
At 10:30am the senior kindy group transitioned to Child for a birthday. Shortly after this had occurred the Director heard a noise from the senior kindy room. The Director went to the room and noted the child was unsupervised. The child was unsupervised for approximately 1 minute.

TRIM: 13/230559 Service contacted spoke to Nominated Supervisor [deleted pursuant to section 47C(2)(b)] child has not returned to the service as yet but is due to return next week. Door to the toilet area is kept closed and children ask staff to open it to ensure supervision. All staff have been coached on Centre policies in relation to supervision, toileting advising Director if they feel unwell and expectations.
[deleted pursuant to section 47C(2)(b)] was walking back toward the nursery door in the Under 3's playground and tripped over her feet bumping her right eye on a wooden seat/platform resulting in a cut approximately 1 - 1.5 cm long.
10.10am - [deleted pursuant to section 47C(2)(b)] fell forward and struck her forehead on the edge of a table and cut the skin open. First aid given - steri strip applied to the wound. No emergency services involved.
TRIM ref: 13/205138
Child tripped, and fell on table edge - cutting forehead
At 8:25am the child was in the senior playground when the educator heard him cry. The educator tended to the child and noted a bump above the right ear approximately the size of a 10 cent piece. The child then went limp in the educators arms and his eyes rolled. The child appeared pale and blue in complexion. This lasted for approximately 2 seconds. The child wanted to return to his normal routine after a few minutes.
The child suffers from febrile convulsions and the staff manage this through an action plan. At 11.45am the educator recorded the child's temperature at 39.4 degrees. Staff initiated cooling methods and notified the parent. The child then went white in complexion and saliva came from his mouth. The educator placed the child in an open area. His body began to shake and he vomited. The educator placed the child in the recovery position. The educator administered 4ml of Midazolam in each nostril as per action plan. The staff monitored the child until the ambulance arrived.
At 4.20pm the child was jumping over a car track in the preschool room when he lost his footing. This resulted in the child falling forward and bumping his mouth on a toy shelf. The child sustained a cut above the top lip approximately 1.5cm in length. Pressure was applied and a bandage was used to dress the wound.
13/224169 Risk assessment of area. Supervision and discussions with educators in relation to better areas to play these types of games.
Incident
13/210711 Telephoned service discussed incident. Requested service provide, child's individual medical plan, evidence all educators are aware of the child's medical plan to provide appropriate care for the child.
[deleted pursuant to section 47C(2)(b)] was walking along the wooden suspension bridge of the fort. She was talking to Educator [deleted pursuant to section 47C(2)(b)] as she fell. [deleted pursuant to section 47C(2)(b)] fell forwards, flat on her stomach, hitting her chin of the bridge. Immediately, [deleted pursuant to section 47C(2)(b)] picked her up and began to carry her inside for first aid treatment. Dad had just arrived and went into the bathroom too.
Another child pulled child's arm which resulted in a greenstick fracture. Medical attention was sought
[deleted pursuant to section 47C(2)(b)] suffered a broken right forearm
On the 14/06/2013 the staff members were advised that the child had been admitted to hospital following an incident that occurred at the the centre on the 13/06/2013.
Child had a episode & medical attention was sought
on [deleted pursuant to section 47C(2)(b)] twitching after rest pause. Ambulance called
Temperature and rash across stomach -
9.30am at the fort - [deleted pursuant to section 47C(2)(b)] jumped off the fort and landed on the ground. He cried a little but then settled with an ice pack. - Left arm
NOT-40010610 Incident
Child woke from sleep gasping for air
Incident
TRIM ref: 13/235177
*
Children did not arrive for SAC as per booking - after checking school and the grounds the [deleted pursuant to section 47C(2)(b)] Manager as called. Police contacted.
[deleted pursuant to section 47C(2)(b)] was trying to swing up onto the parallel bars and his leg didn't quite reach & he fell landing on his right arm.
Risk management strategies to control children's access reduces the risk of such an incident occurring again.
Child fell while walking along on A-Frame cutting his mouth. Medical attention was sought
[deleted pursuant to section 47C(2)(b)] sustained a cut to the inner top lip
Child was pushing a container on wheels when the container flipped, landing on her finger. Resulted in fractured finger.
Irrelevant information deleted pursuant to section 22 of the FOI Act [deleted pursuant to section 47C(2)(b)] the child was in her walking frame with a carer after being peg fed when she started to have seizures and her eyes rolling back. The ambulance was called at 3.40pm and advised staff to take her out of her walking frame and put her in the recovery position. The child was unconscious but breathing normally. [deleted pursuant to section 47C(2)(b)]
nation deleted pursuant to section 22 stayed with the child until ambulance arrived. The ambulance assessed the child and gave the child an electronic stimulant to wake the child up. The child regained consciousness. The Ambulance transported the child and the Centre Director to the residential home and picked up her carer to transport her to hospital with the child.
[deleted pursuant to section 47C(2)(b)] was playing with Child A on oval when that child swung him around and dropped him on the ground.
[deleted pursuant to section 47C(2)(b)] was walking in the nursery playground when he tripped over his feet falling forward. He hit his forehead on the edge of the decking area. This resulted in a wound across the middle of forehead.
Child was kneeling on a chair, moved backwards and slipped off hitting her mouth on seat of chair, causing a cut to inside of her mouth/top lip from her bottom teeth penetrating skin.

pursua was playing on fixed equipment in yard when he fell from equipment onto crash mat resulting in injury to left arm - Please see attached incident report.

Associated Notification ID NOT-40010367 TRIM # 13213833 At 3:00pm The child was running in the ed pursuant to playground and has tripped over her own feet. This resulted in the child falling forwards and bumping her head on the astro turf ground. The child sustained a bruise with swelling to the right side of the forehead approximately the size of a 20c piece. A graze to the top of the bruise was also noted. An ice pack was applied.

NOT# 40010379 INC#00013478 TRIM# 60/12/1456

TRIM 13/219734 NOT 40010382

Child fell against book shelf resulting in a cut.

TRIM 13/212311 container 60/12/687 NOT: 40010479

13/242889 Phoned Nominated Supervisor - pursua Advised that the child is fine and returned to the service today (26.06.13). Have discussed this incident and other serious incidents with educators at Staff Meeting. Plans to create gardens around and/or place padding around verandah poles. Requested risk assessment and risk management plan that includes timelines for remedial actions by Friday 5th July 2013. Risk assessment and risk management plan received 05.07.13. Effectiveness of risk minimisation strategies of gardens and supervision strategies to be reviewed 26.07.13.

Incident

pursua presented with diarrhoea.

Child vomited at service - parent contacted and requested ambulance be called as child swallowed detergent at home.

Educator leted pursuant to s was having an allergic reaction to peanut butter sandwich. '000' called for ambulance to attend.

TRIM ref. 13/235738

leted pursuant to s - High Temp

pursua was rocking on a chair and it over balanced and pursua fell backwards and hit his head on the window ledge.

Incident

Ran into pole hit head

At 9:35am the child was involved in a small altercation when the child was pushed backwards. The child fell onto his bottom. No response from parent in regard to messages left checking on where pursua might be. Police called, and school notified. Mother called to apologise for not contacting the service to let them know pursua wasn't coming in. Police advised she had been found.

NOT - 40010469 Child slipped and cut above her eye on train table.

Ref. 13/218385 Phoned service. 1 educator with 4 children at time of incident. Educator feeding/attending to other children. Educators requested to be more vigilant re supervision of children playing near window in playroom. Cannot restrict access to this area due to the window extending the full length of the wall in the playroom.

ted pursuant to At 1:15pm the child has woken from her sleep when the carer has picked her up out of the cot and noted that her face was puffy. The child's right ear was also swollen. The child was also red around the armpits, back of neck and belly button. The child was wiped with a cold washer over her body.

Blisters were noticed in pursua mouth. Hand, Foot and Mouth disease was suspected but not confirmed. The child was referred to information deleted pursuant to section 22 of

20/06/2013 in the prekindy room ed pursuant to at 10:35am pursua had been directed by staff to stop running. As she was asking him to stop he tripped over the end of the room divider and fell onto the shelf and split the top of his eye near his eyebrow. He was not upset and seemed calm with the first aid being applied. Grandmother chose to take him to her doctor.

00pm pursua turned and fell over a toy vacuum and hit his mouth on the handle.

At 3:05PM pursua came inside room for afternoon tea then walked outside onto deck area pursua tripped and upon falling, his right ring finger fell in between the wooden slats. Pursua fingernail was slightly lifted and finger was swollen and bleeding. Mother picked pursua up at 3:40PM and the child went to the doctor and he said that the finger was not broken but the nail will probably fall off in time. The nail was covered with a bandaid at first but now the child is happy and the finger is no longer covered. The child is attending Vac Care today.

ursua bumped face on toy truck

NOT-40010800

tion deleted pursuant to section

Child tripped and hit his head on the door.

Incident

The child did not want to stand up and lost his balance. This resulted in the child landing on his arm on his bed.

Incident

9:45am - centre carpark - police. Parents arguing

Broken wrist on his right hand.

Child fell & cut chin, medical attention was sought

TRIM 13/224409 Phoned service. Advised that educator was over cautious (coordinator said that she preferred educators to be that way), thus phoned parent to view the cut. Educator and parent collaboratively decided to have cut checked by medical practitioner. Butterfly band aid applied not butterfly clip. No changes to outdoor area required. Child accidentally "tripped over own feet".

pursuar flopped down on a large cushion in the playground hitting her head on the bottom rail of the fence causing a 2cm gash to
right hand side of ther forehead.
Incident
Incident
Incident
Associated Notification ID NOT-40010675 TRIM # 13/219794 At 10.50am, [pursuar] was playing on the oval when a child ran up
and punched her in the right shoulder. Mum collected [pursuar] at 11.35am and took her for xrays.
pursuar was scratching his tummy and complained of being itchy.
[pursuar] was sitting on a metal bench near prep playground when he lifted his legs and as he did he lost balance causing him to fall
and bump his forehead on a wooden pole and as he tried to save himself, fell further bumping the back of his head on a metal pole.
Incident
Incident
tion deleted pursuant to section
Child was found outside centre standing with 2 parents in the carpark. Child was brought back inside
TRIM 13/220061 NOT 40010727
At 3.20pm the child was in the kindy room when he began to run and tripped. This resulted in the child falling forward and bumping
his face on the edge of the toy shelf. The child sustained swelling to the nose. A red mark to the tip of the nose approximately 1cm
in size was also noted. The nose bled for approximately 3 minutes. The area was cleaned.
Child was pushed & fell forward. Medical attention was sought
ation deleted pursuant to section 2
ursu was running to the far end of the playground to obtain a bike to ride, when he tripped over his feet and landed head first on the
bike. This resulted in a cut to the left side of his forehead.
on deleted pursuant to section
13/225222 Phoned service. Ambulance checked child and advised that family take the child to the doctor rather than they take the
child to the hospital as no medical treatment was required. [information deleted pursuant to section 22 of th] Child returned to
service next day. Memo and verbal advice individually to staff re risk management strategies including: - Cushions to be placed in
store room rather than home corner area of playroom in preparation for rest time. Moving home corner furniture to create more
space in this area for children to move around, thus reducing the risk of them bumping their head on furniture.
At 12:10pm the child was getting organised for lunch in the pre-kindy room when she misjudged her space. This resulted in the
child bumping her head on a chair. The child sustained a bump with bruising to the left side of the forehead approximately 2cm in
length. An ice pack was applied.
Incident
TRIM # 13/221548
eted pursuant to [was walking over to get his water bottle when he tripped over his feet falling forward knocking his forehead,
causing a bruised lump. (Junior Kindy Room)
Child fell & hit pole, medical attention was sought
pursuar put a bead in his ear
NOT 40010706 [on deleted pursuant to section

At 10:30am the child was reading in book corner when he opened and closed the sliding door. This resulted in the child causing a cut to his right finger approximately 1cm in length.

TRIM: 13/225660 P/C to service spoke to Acting Director. ~~ed pursuant to~~ educators were close by and responded straight away. first aid applied and parent contacted. Educators have discussed supervision and risk assessment.

Incident

~~pursua~~ was swinging on the saucer swing when he turned and bumped the right side of his forehead on the wooden frame. First aid was performed by way of ice being applied to his forehead and monitored.

Child sustained injury to lip and tooth after hitting during fall

At 9:30am ~~ursu~~ stood up from the table after morning tea. As she stood up the chair fell backwards. She tripped over it and landed on the chair face forward. Her mouth began to bleed.

Incident

Parent notified on 2/7 that they had sought medical attention for the injury that occurred on 28 June. ~~pursua~~ was playing a game when she fell and landed on her hands. Parent arrived as it happened and was present when staff administered first aid. Initially parent indicated that they thought she would be fine and wouldn't be seeking further medical attention. On 2/7 parent contacted the service to notify staff that they had sought medical attention and that ~~pursua~~ had broken her wrist.

TRIM # 13/226180 - Bump to cheek near child's right eye

~~on deleted pursuant to section~~ - Tripped over a toy and as he fell, knocked his head on the gate.

TRIM: 13/251119 P/C to service during outside activities sunscreen was applied by child with assistance of staff. While applying sunscreen to child face a small amount of sunscreen got into the child eye. First aid applied, eye was rinsed twice and dried with tissue, parent called and grandmother collected child and went to doctor, eye drops were given to child as her eye was red.

4:30pm the children were playing Red Rover on the grass patch. This is located between two school buildings. The child ran alongside building and ran into a window rail. First-aid applied. Parent called. Incident form attached

At 11am ~~pursua~~ was on blue tar mat sliding on knee when he cut his knee on a metal clip.

Child was feeling tired and sleepy. The child passed out and was unable to be woken up by Educators. The child was unresponsive.

Child prone to holding her breath when upset. She became upset at morning tea time and went forward onto the table. She became limp, eyes closed however she was still breathing. Ambulance called

Incident

Lost her balance and fell onto her right hand.

Trim nos 13/238497

10:15am ~~d pursua~~ was on the deck when he tripped over a ball, falling forward onto a toy train he had in his hand, causing a cut to his right eyebrow. (as stated on incident form)

The child was playing handball when he reached for the ball. He heard a cracking sound in his knee. Ligament damage

The child has attempted to jump on the foam blocks when he has fallen.

Educator noticed a bump on child's head

13/227140 Area has been redesigned to prevent further incidents

~~ed pursuant to~~ had trouble breathing - ambulance was called

Child had glass in their knee & medical attention was sought

~~pursua~~ was running outside not watching where he was running and ran into the pole. This happened in the yard at 2:10pm.

Please see attached incident form.

Loose tooth after a fall

Child slipped down pole to ground & injured foot. Medical attention was sought

Child slid down the slippery slide in the large playground head first with his arms down beside his body. When he went over the nose of the slide he hit his chin on the slide banging his top and bottom teeth together.

Running in playground and ran into pole of shade cloth

TRIM: 13/229081 Service contacted spoke to Coordinator ~~ed pursuant to~~ child has returned to service. Staffs have been spoken to around supervision. Children spoken to regarding the correct way to use equipment (Flying Fox). Risk assessment has been updated and an educator will be positioned next to the Flying Fox while in use.

NOT- 40011075 - tripped cut outer corner of left eye

Incident

Slipped in the bathroom hitting his head on the corner of the half door

Incident - ~~on deleted pursuant to section~~

~~ursu~~ was playing in home corner at 10:35am and the educators seen him fall. He was facing the opposite direction when he fell and the educators did not see what he hit his head on. When the educators attended to ~~ursu~~ he was bleeding from the forehead and had a cut to his forehead.

Incident

~~pursua~~ was playing in the hall with a ball, and looking up, when he ran into a wall hitting his chin

On the 3 July 2013 at 3:35pm ~~pursua~~ was standing on a box (wooden) at the back of our room ~~on deleted pursuant to section~~ (She slipped and fell off and landed on her lumbar. An Educator saw this and attended right away. The Educator (Please see attached paper)

He fell and landed on his left shoulder. He was in pain, crying and said that he couldn't move his shoulder and arm.

n deleted pursuant to secti
9am [pursua] complaining of feeling sick. Taken to bathroom and starts gagging and trying to vomit. [pursua] said he ate Lego at home and tummy was sore. Still gagging with breathing concerns (at 9.15am). Emergency services called at 9.20am.
Child told educators the morning after the incident that he had hurt his fingers picking up a ball from the ground.
At 3.00pm the child was walking in the nursery room when he lost balance. This resulted in the child falling forward and bumping his head on the edge of the table. The child sustained a bump with bruising to the left eyebrow approximately 2cm in size.
Confirmed case of hand foot and mouth
Confirmed case of hand, foot and mouth
Child had nail in foot
Incident
17/07/2013 10.25am - Child approached educator showing a cut on his right hand. Ambulance was called. Child explained that he had cut his hand on a nail which was protruding from the fence.
Incident
tion deleted pursuant to section
Child [pursua] was attempting to move the wooden train set box in the pre-kindy room when he dropped the box. This resulted in the box bumping the child on the toe. The child sustained bruising and bleeding under the nail bed of the left big toe.
At 5.15 pm [pursua] and another child were chasing a ball and [pursua] fell and hit his mouth on a school bench. Ice was applied and parents notified to collect immediately [pursua] was taken to the dentist the following day [pursua] and the centre was notified of a bone in the tooth had been fractured.
Child [pursua] was riding a scooter when she fell head first onto the fall, hitting the top left side of her lip.
[pursua] observed falling off outside money bars. Complained left arm hurt. Notified nominated supervisor. Observed slight swelling.
Put arm in sling 3.50 Rang mother. Rang father. Mother arrived 4.40. Advised to seek medical advise.
10.05. Outside on upper platform of the climbing frame [pursua] Educator assistant gave [pursua] a book to hold. He stepped off the platform onto lower one twisting L leg behind him. Rang ambulance 10.15. Parent arrived 10.25. Ambulance 10.25. Rang parents 10.16
ion deleted pursuant to section was on the swing when she lost balance falling onto her elbow (right). Ice was applied and child was [pursua] Parent was contacted as the child was favouring arm and a difference between both elbows was visible.
ation deleted pursuant to section 2
Incident
At 2:30pm the child was standing at the play centre in the nursery room when he lost his balance. This resulted in the child falling forward and bumping his head on the lino floor. The educator checked the child and noted no visible injuries. Approximately 15 minutes after the incident the child began to fall asleep. The parent took the child to seek medical treatment immediately.
Child fell cutting chin & medical attention was sought
nation deleted pursuant to section 22
Child's [pursua] body began to shake and her eyes rolled. The child was breathing however non-responsive during rest period.
Child [pursua] was pushed by a peer. This resulted in the child being scratched on the face by the peer.
Child was pushed & bumped head, medical attention was sought
4.10pm [pursua] deleted pursuant to section 22 of [pursua] was walking [pursua] deleted pursuant to section 22 when she tripped and fell forward, hitting her forehead against a pole. A large egg formed on her forehead immediately [pursua] was very upset and crying for about 5 mins before calming down. Ice pack was applied immediately to her forehead and she was sat down with an Educator calming her and comforting her until Mum arrived about 10 minutes later. Educators recommended seeking medical advice due to the serious nature of her injury.

ted pursuant to was leaning into reach something in the bottom of the dress up trolley, [redacted] lost his footing and balance
12noon - [redacted] was upset and appeared in pain. Visual inspection of his upper body staff discovered a lump on his right shoulder. After a short sleep [redacted] was distressed, parents were unable to be contacted. Emergency services were called.
Child tripped on pebbled path in playground and hit forehead sustaining cut to forehead.
TRIM 13/260874 NOT 40012565 Child was playing on the wooden stumps when she miss stepepd and fell head first into another stump.
TRIM: 13/261248 [redacted] has discussed incident with educator to determine if it could have been avoided. Supervision, car and environment has been checked - risk assessment Outcome: an accident Child has returned to care
n deleted pursuant to section 22 of the FOI Act
13/276944 Phoned service. Spoke with [redacted] (coordinator). Explained that the incident occurred on a plastic chair that was part of the obstacle course. Child slipped and her tooth got caught in a part of the chair. Educator followed correct first aid procedures for handling an incident involving teeth then took the child to the hospital where they were unable to replace the tooth.
Irrelevant information deleted pursuant to section 22 of the FOI Act
However, nerve to tooth will eventually die. Child on antibiotics. Coordinator visited the educator's to provide support and check the environment.
Child was hit on head with shovel & medical attention was sought!
Incident
At 8.50am the child was standing on the a-frame attached to the obstacle course in the preschool playground when the educator heard her cry. The educator tended to the child and noted she was on the safety mat. The child sustained a graze to the outer left ankle approximately 2cm in size. The child favoured her left foot.
child cut finger while helping to set up equipment
Child fell from chair bumped eye sustained swelling to eye and eyebrow.
TRIM: 13/264143 Child taken to Doctor as he was favouring his wrist and unable to put weight through it. Child sustained a sprain to the wrist. Child did not fall off A-frame. A-frame was on softfall. Activity appropriate for age of child Educator present at the A-frame for supervision
P/C to service - [redacted] Director. Child will have tooth extracted under anaesthetic [redacted] As at 1/8/13 service has not reviewed, risk assessed incident. Director will follow-up with staff at next staff meeting and provide a copy of minutes to ECEC. Meeting minutes received 2/8. Supervision addressed, ideas to make area safer invited - "fill up area with more filling". To discuss risks with children to prevent accidents Recieved photographs of soft fall area, filling of tan bark in area appears sufficient.
The child has been unwell and has recently been extremely congested. At 2:50pm the child was eating his afternoon tea in the pre-kindy room when he sneezed. The educator tended to the child to wipe his nose when they noted a red spot in his ear canal. Upon closer inspection, staff determined it was blood. The child sustained slight bleeding from the right ear canal. The ear was cleaned and the the child was monitored.
At 4.00pm the child was kicking a ball in the playground when he lost his balance. This resulted in the child falling forward and bumping his face on the astro turf ground. The child sustained a cut to the right eyelid approximately 2cm in length.
At 3:00pm the educator was reading the children a story on the story mat when she noted the child playing with his nose. The educator asked the child if he had put anything up his nose and the child replied "Yes". The educator checked the nose and could only just see the object. The child was fiddling with his nose and caused the object to go further in. The child was breathing normal and did not appear to be distressed. The educators encouraged nose blows, however were unsuccessful.
Child fell from playground knocking head on a pole.
26/07/2013 - 11.15am - Staff member located in outside play area reported to two educators that she had pins & needles running down right arm into hand.
eted pursuant to fell with her knee and shin hitting the ground

TRIM: 13/278308 P/C – 13.08.13 to service. Children stopped using the bottom playground until school has completed repairs on greenhouse. Top playground will be used in the programming.

Child took a staple from a stapler and injected it whilst in his classroom. This was at 11:30am - 26/7/2013

13/295202 Service incident report, discussion with service nominated supervisor, photograph of area/soft fall and supervision roster.

delet pursuant to section 22 of the FOI Act. Mum called and thought she may have caught the bus home. Police contacted by 3.15pm. Mum contacted delet pursuant to section 22 of the FOI Act. Mum called back at 3.30pm when she had located her.

When investigating a toad under a dome, delet pursuant to section 22 of the FOI Act slipped on educator's foot and hit his chin on a brick wall. Pressure was applied to the wound until bleeding slowed. Appropriate first aid was then applied.

TRIM: 13/276582 P/C – 01.08.13 to service, spoke to centre Director – All families, staff informed of possible case of Rubella. Child has stayed away for recommended 5 days. Director rang Public Health regarding notifiable disease. They didn't need it as it wasn't confirmed.

The parent called the centre to advise the staff to not put the child to bed as she would collect him and take him for an x-ray. (Last week the parent had stated the child had hurt his nose and she was trying to get him in for an x-ray). The Centre Director assumed the x-ray was for his nose and went to pass the message onto staff. Once in the playground the Centre Director noted the child was upset. The educators relayed they had noted the child was upset and sitting on the ground near the wooden deck. The Centre Director then called the parent back to advise the child had an accident. The parent stated that is why he is getting an x-ray, the parent asked is it his right arm. The parent stated the child hurt it at home on the weekend. Parent was unaware she had not notified the educators of the child having a previous injury.

delet pursuant to section 22 of the FOI Act. was playing in the sand pit of the preschool playground when a peer bumped the child on the head with a plastic shovel. NOT-40012617 child fell from a flying fox TRIM # 13/261515

At 2:55pm the child was standing on the balance beam in the preschool playground when she lost her footing. This resulted in the child falling forward and bumping her shoulder and face on the astro turf ground. The child sustained a graze to the chin, approximately the size of a 10c piece. The front top left tooth is dislodged from the gum. The area was cleaned and an ice pack was applied.

on delet pursuant to section 22 of the FOI Act.

29/07/2013 Parent came to centre to advise that her child would be absent from the service for a week as she had been diagnosed with mumps.

13/276827 P/C – 02.08.13 to service, stethoscope have been removed and thrown out. Child had no damage in ear, however ear was scratched and bleeding. Child has returned to service.

delet pursuant to section 22 of the FOI Act. was found with a toy car (metal) on top of him.

ion delet pursuant to section 22 of the FOI Act.

delet pursuant to section 22 of the FOI Act. 15mths to 2 1/2, 10am delet pursuant to section 22 of the FOI Act. was walking to the locker area when he tripped over bumping his lip on the lockers.

13/276946 Phoned service. Spoke to delet pursuant to section 22 of the FOI Act. who advised that the other child who was involved in the incident thought the injured child was still playing in the game of tackle, thus tackled the child as he was walking away. Did not hurt the child intentionally. Educators were positioned nearby. The older child is much bigger and stronger than delet pursuant to section 22 of the FOI Act. who was injured. delet pursuant to section 22 of the FOI Act. relevant information delet pursuant to section 22 of the FOI Act. Apology forwarded to the injured child. Educators constantly talking with children about rough play and its potential consequences. Now use this scenario as an example of consequence to refer to during discussions. Injured child has returned to the service.

29/07/2013 - 4.34pm Child playing soccer in undercover area attempted to kick a ball and fell hitting his head on concrete.

delet pursuant to section 22 of the FOI Act. slipped on wooden stepping stone resulting in a 2cm cut near his brow.

Child was hit on the wrist with a badminton racquet & medical attention was sought.

The child has not been previously diagnosed with asthma problems. Arrived with a slight cough and runny nose, at 2.15pm educators noticed the child's breathing had become laboured. Parent notified - Ventolin administered. Ambulance called.

A group of children were involved in information delet pursuant to section 22 of the FOI Act. oval at approximately 4.00pm. The injured child was attempting to play the ball and was in a bent position when the opposing player hit the ball with his hockey stick and on his follow through accidentally hit the injured player on the side of his neck. The hockey stick was raised slightly above the players waist. All Players were taught the proper way to hit the ball and were wearing protective gear.

At 2:15pm the child was walking across the toddler room with a peer when he attempted to jump over a child's size lounge. This resulted in the child falling forwards and bumping his head on the wooden lockers. The child sustained a bump to the right side of the forehead approximately the size of a 50c piece. An ice pack was applied to the area. The child was monitored until collection at approximately 3.15pm.

Child injured arm & medical attention was sought.

The parent took the child to the doctor and it was confirmed that she had hand, foot and mouth.

Child delet pursuant to section 22 of the FOI Act. was helping pack away the toys when he tripped and fell face first onto the edge of the table. delet pursuant to section 22 of the FOI Act. put his tooth through his tongue.

At 10.20am [redacted] was walking across the jousting board in the outside kindy playground next to [redacted] who was supervising the area. Another child pushed her and [redacted] landed on her shoulder on the softfall mats. First Aid was applied and Manager was called to assist.

Child climbed up the 6 foot high flat wooden back fence of playground, got to the top and jumped over [redacted] to the back of centre. Staff followed within seconds of child leaving.

[redacted] was playing on a grassed area and fell over her own foot and landed on blue stone. [redacted] did not report this to anyone and only relayed this is what occurred after she was taken to the hospital to visit a doctor.

Child fell on screw sticking out from cement surface

[redacted] tripped and hit head on outside play frame.

TRIM: 13/276621 P/C – 01.08.13 to service, educators have spoken to children regarding sticking things in their ears. Educator will continue to monitor. Child returned to service.

Child running in playground, tripped and fell, bumping top lip resulting in small cut on the frenula.

At 10:40am the child was running across the playground when he has lost his footing. This resulted in the child falling forwards and bumping his mouth on the astro turf ground. The child sustained a cut to the middle of the inner and outer bottom lip approximately 0.2cm in length. The wound was cleaned with a wet paper towel and an ice pack was applied.

At 1.25pm the child was playing near [redacted] when she has attempted to stand up. This resulted in the child falling forwards and bumping her head on the front of the boat. The child sustained a cut to the right side of the eyebrow approximately 2cm in length. The wound was cleaned and an ice pack was applied.

P/C – 02.08.13 to service [redacted] Deleted pursuant to section 2. Followed management plan from [redacted] Deleted pursuant to section 2. Have requested management plan from child's doctors as there is a conflict of time calling ambulance. Child has only been in care 1st day was day off seizure. Mum has been informed that service will follow current management plan and ring ambulance at 5min into seizure until management plan received from child's doctor. Child has returned to service.

NOT-40012779 TRIM # 13/265240 [redacted] approached an Educator and reported that he had been hit by a toy another child had thrown. The incident was not witnessed however Educators believe that the toy was not thrown directly at the child due to a dispute as the children were playing at the time and no altercation was observed prior to the incident. No investigation created as no medical attention sought or ought to have been sought.

TRIM: 13/267024 Child taken to hospital by ambulance where further eye-washes were performed. Child returned to care next booked day and is on a course of eye-drops to prevent infection. Incident has been discussed with all staff -> to maintain increased on-going supervision when children are in the sandpit. (particularly the offending child who likes to watch sand falling). Educators will consider other ways to address this child's fascination. Educators have discussed safety in the sandpit with children at several group times since the accident. Service was unable to contact the child's mother on her mobile at the time of the incident. Service has now obtained an alternative work phone number for the parent.

At 4:00pm the child has held his breath when the mother arrived to collect him. The child turned blue and his eyes started to roll backwards in his head. An ambulance was called to attend the centre. The child held his breath for approximately 30 seconds. An ambulance was called to attend the centre. The ambulance took the child and the parent to the local medical centre.

Child [redacted] sustained a cut to the back of his head, the incident was not witnessed by any staff

[redacted] became very angry after altercation with another child - attempt to run away

[redacted] was running and went to kick a ball that was on the ground in front of him. [redacted] missed the ball and fell over landing on his left arm and hitting his top lip on the ground.

Child lost footing & fell bumping their chin.

TRIM #13/268276 Associated complaint ID COM-00004303 TRIM # and investigation report TRIM #13/264442 (initial parent complaint that injury of fractured arm occurred at service) The incident was unwitnessed. The centre was not aware the incident occurred. We are unsure how the incident occurred. No staff was witness to any incident involving [redacted] on 31/07/2013.

Missing child.

cut to left eyebrow

on deleted pursuant to section 2.

3.30pm, outside forte area. Child was pushed by another child off the forte and fell onto bark area surrounding the forte.

TRIM ref: 13/267063

Hand, foot and mouth.

Child responded to an Educators request to put the mop down by punching her then scaling the internal fence from waterpark to play area.

11am - [redacted] started crying and attempting to vomit. Carer looked in her mouth and gave her 4 or 5 hits on her back but she continued to cry and trying to vomit. Carer called mother and explained situation. Mother arrived approx 10 minutes later. As [redacted] was crying a lot and was distressed the decision was to call the Ambulance. At this point [redacted] was conscious and good colour but beginning to become quite stressed. Mother reported [redacted] was showing signs of going blue. An ambulance arrived with three paramedics. Unable to see what was in her throat they organised to transport her to hospital. While being taken to the ambulance, the carer reported the choking item seemed to have passed and [redacted] settled. Paramedics suggested her mucus had probably assisted the items to pass. They transported mum and [redacted] to hospital for check up, and she was returned to carer at 1.30pm.

<p>ursu was crouching under portable ursu water cooler. Two other children were with him. Water cooler full of water and fell on his head.</p> <p>ursu slipped on plastic food, fell and hit his cheek on the edge of wooden storage toy box sustaining a 1.5cm deep cut. ursu picked his nose and it started bleeding. it continued bleeding for 45 mins.</p> <p>Child was hit accidentally by educator causing the child to slip &amp; hit their head on a wall</p> <p>Child got poked in the eye, medical attention was sought</p> <p>Child ran through Garden cutting their leg, medical attention was sought</p> <p>*</p> <p>ursu was role playing dogs, crawling around. evant information deleted pursuant to section 22 of the FOI Three other children were playing the game. d pursu was supervising these children whilst also helping children at easle painting. d pursuant and d pursuant were inside with remainder of class. While crawling ursu hit his face on a wooden bench. Pls note. In deleted pursuant to section 22 of the FOI group of children is no longer employed by this Centre and is unable to sign this document. As Co-Director and teacher of another group of children I will be the contact person and sign the declaration. I was not a witness to this incident. d pursuant</p> <p>Associated Notification ID NOT-400013042 TRIM # 13/268963</p> <p>At 9:15am the child was jumping off the balance beam with a peer in main playground when he landed on his peer on the safety mat ground. This resulted in the child bumping his mouth on the peers head. The child's front top left tooth appeared loose in the gum, bleeding was evident from the area.</p> <p>Child boarded ASC bus</p> <p>Discussions with service indicate child is expected to make full recovery. Due back into care on Monday 12.08.2013.(next book day of care) Educators have moved the mat away from the wall and had discussions with children about using words to communicate rather than physical actions with their friends.</p> <p>.</p> <p>Associated notification ID NOT-40013122 TRIM # 13/270311</p> <p>Associated Notification ID NOT-40013127 TRIM # 13/270358</p> <p>child was sitting on a chair (Child size table and chairs approx 30 cm from the ground) she turned around to get off the chair, fell onto the floor face first, the educator was sitting at the table also but not able to catch her. She had a small lump appearing above her eye in the same place that she had recently had an injury from home that she had stitches for. lump less than 5 cent piece, no bruise but slightly red. d pursuant had a runny nose on the day and there was some blood in the discharge from her nose at this time, small amount and stopped with one wipe of nose. ice pack was applied. Parent was contacted but did not want to collect her when the educator called, the educator then called the office and advised of the incident and parent response. Manager advised for the child to be collected by the parent. d pursuant called the office back and advised parent was now collecting the child. Child did not see a doctor and has returned to care the next day, the incident was minor but due to recent stitches in the same area and it being a head injury the child needed to go home, if the incident was more serious a clearance letter would be requested prior to returning.</p> <p>Not# 40013131, Child fell and sustained a laceration to his lip</p> <p>NOT-40013140 child fell off chair and bumped head</p> <p>ursu slipped off plank and hit his head near right eyebrow on nearby fort.</p> <p>Child slipped &amp; fell, cutting their head. Medical attention is sought.</p> <p>Child had High Temp &amp; medical attention was sought</p> <p>Slipped and fell landing on his wrist - jarring his arm and complained his elbow was hurting</p> <p>6/08/2013 - 11:20am Child was at the top of the slide in the Toddler/Junior Kindy yard when he was pushed by another child and landed on his head.</p> <p>TRIM: 13/278352 Phoned service. Spoke to the Director. Cause of injury still undetermined. A sharp twig was found during an immediate check of the sandpit (possible cause). Sand pit raked every morning for foreign objects. Parent advised that child has a skin condition but did not believe that this was the cause of the bleeding. Director to enquire whether or not the family requires the service to take extra precautions due to the child's skin condition eg wearing shoes outdoors. Child returned to service next day. Sandpit raked every morning for foreign objects</p> <p>TRIM: 13/279351 Phoned service. Spoke with d pursuant. Advised that the step that the child hit his head on was the step to the slide. Child has tripped in this area before and consistently has falls. Appears to be "accident prone". Has concerns re child's balance. ursu has completed SAFER (to be forwarded together with photo). Risk control measures to be implemented include extension of garden bed and rails at top of area. Child returned to service on 12.08.13. Still has some swelling. X-rays revealed no floating bone. Happy and engaged. Educators to continually monitor child's physical skills/abilities.</p> <p>ation deleted pursuant to section 22 of the FOI</p> <p>child hit in the face with plastic shovel by peer</p> <p>tion deleted pursuant to section 22 of the FOI</p> <p>P/C to service indicated that the damage to car was very minimal, none of the children realized what had happened, no one was scared or traumatised. All educators have written risk assessments that parents read and sign and they also ensure they take supplies with them when they travel in case they are held up.</p> <p>4.40pm Child slipped over her own feet and hit her head on the edge/corner of the wall</p> <p>13/296672 - Child in deleted pursuant to section 22 of the FOI so balance was impaired. Child was taken to hospital by parent where he was diagnosed with a broken arm. Child will return to care next week.</p>

13/295449 Discussion with <u>ursua</u> child did not need medical attention and has returned to care. Discussions regarding staff supervision were conducted at the recent staff meeting, supervision plans are in place at the service.
<u>d pursuan</u> became upset, holding her hand on her stomach.
Cut to middle of forehead
Child <u>ted pursuant to</u> fell out of the tree he was sitting in and hit his head on the fence.
<u>pursua</u> fell backwards onto the platform injuring his left forearm.
Child fell off scooter whilst walking from School to after school care
<u>pursua</u> wouldn't be attending as he a confirmed case of hand, foot and mouth.
Confirmed case of hand, foot and mouth
TRIM ref: 13/273373
Child bumped head on plastic frame
At 12:15pm the child was eating her lunch by the fence in the pre-school playground when a chicken from <u>ted pursuant to</u> approached the child and pecked the child on the finger. The child sustained a cut to the left pointer finger approximately 0.1mm in length. The area was cleaned and a bandaid was applied.
7/08/2013 - 12noon - Child was riding a scooter when he fell off sustaining an injury to the little fingernail on his left hand.
Child did not turn up to After School Care
Further investigation is being done to obtain more details on the incident.
Child <u>ed pursuant</u> was lying on the grass, she wasn't sore, she didn't show any other signs, but mum took her to the hospital
Child fell & hurt arm, medical attention was sought
The child has heavily decayed teeth. The teeth appeared to be approx 3mm in length. The child was pushing a toy car when he tripped over his own feet. The child has fallen forwards bumping his mouth on the astro turf. There was a small cut to the top lip approximately 7mm in length and bruising around the top of the teeth. The parent understands the level of decay in the mouth and was not concerned by the bruising. She will not be taking <u>pursua</u> to the dentist.
*
*
Child <u>ted pursuant to</u> leant across a peer and cut her finger during a scissor activity
<u>pursua</u> Room during rest time <u>pursua</u> insert a small bead into her left ear.
<u>pursua</u> has a confirmed case of Human parvovirus B19 (erythema infectiosum, slapped Cheek syndrome)
not-40013501 child convulsing
13/273602 Child sat in plastic crate and slid down slide. When child landed he hit his head and sustained a cut above right eye.
Another child had thrown a rock at <u>ursua</u> head.
No Further action required
Child hit his lip on outdoor climbing frame resulting in a cut to lip.
3.30pm Baby yard. Child was running, tripped and hit his head on a pole sustaining a bump.
The child felt cold to touch and then felt really hot. The child's temperature at 11:52AM was 38.2 degrees. The child then had a convulsion and an ambulance was called at 11:55AM. The staff followed instructions from 000 until the ambulance arrived.
child put sultana in right nostril
TRIM: 13/278365 Phoned service. Spoke with <u>d pursuant</u> Service advised mother to take child to doctor to have play dough removed. Mother took child home and removed play dough herself. Playdough removed from the play environment for the moment while educators talk frequently to the children about its appropriate use. Tools to support appropriate play were provided at the time of the incident. Educator was sitting at the table with the children. Educator managed to prevent one child from putting play dough in ear but not this child.
During a yoga session the child told the staff that he put a rubber band from in his pocket up his nose. First aid treatment - Looked and couldn't see anything. Gave tissues and asked him to blow his nose but nothing came out.
<u>pursua</u> was playing on the boat and jumped, hitting his head and sustaining a 1cm cut.
*
NOT-40013364
<u>pursua</u> requires additional behaviour support. During outside play he climbed a tree. staff were working to get him down when he fell. He complained that he couldn't move his legs so staff immediately called his mother who spoke with him. Staff indicated that they were considering calling an ambulance but <u>ursua</u> said he had told her he was fine and she would be there within 1/2 hour. <u>ursua</u> arrived at 4.50 <u>pursua</u> was able to walk and run as he was leaving the service.
On the 08.08.2013 at approximately 9:15am the child fell to the side whilst riding a scooter down a hill which resulted in the child landing awkwardly on her right ankle. The child sustained no visible injury however stated that her ankle was hurting her throughout the day. The staff members attended to the child, applied an ice pack to the area and monitored the child until the parent arrived at the centre at approximately 3:50pm. On the 09.08.2013 the child's parent notified the centre staff that she took the child to the Doctor's. At the Doctors X-ray's revealed the child has a break to the area. The Centre Director will continue to liaise with the parent as to the child's return date and ongoing medical treatment.
12:05pm At entrance to toilet area <u>pursua</u> and another child collided with <u>pursua</u> falling backwards and striking his head on the door frame.
child split chin

NOT-40013612 - child had tripped and hurt finger
Failure to collect child
4.40pm Child slipped over her own feet and hit her head on the edge/corner of the wall.
4.40pm Child slipped over her own feet and hit her head on the edge/corner of the wall.
At 3.45pm [redacted] complained to staff that she had a sore left arm. No incident was observed. Dr identified [redacted] had a dislocated elbow. [redacted] returned to centre the following day. [redacted] mums said [redacted] elbow has been dislocated.
NOT-4001369 child fractured collar bone trim#13/281426
Child [redacted] fell off the monkey bars and was holding her arm.
[redacted] in deleted pursuant to section 8/8/13 -SI01
At the incident was unwitnessed, educators believed that because the children were running in the playground the child and the peers have collided. The child sustained no visible injuries, however the shoulder was tender. An ice pack was applied. When he was still in pain, staff put a sling on the arm.
TRIM ref. 13/279763
At 4.20pm the educator was guiding the child out of the bathroom when the child fell to the ground having a temper tantrum. The child was crying. The educator asked the child if anything hurts and the child responded by pointing to her arm. The child was taken by the parent to hospital at 7.30pm on 9 August 2013 where she was held under observation. Information deleted pursuant to section 22 relevant information deleted pursuant to section 22 of the FOI Act the child became upset and complained of a sore arm. Hospital staff said that the child's elbow was dislocated and to monitor until 13 August 2013. If the child's arm is not better on the 13 August 2013 they will attend the fracture clinic for further assessment.
At 2.40pm [redacted] was playing with peers in senior yard and being chased. [redacted] fell forward into sink resulting in 2cm cut to forehead. Pressure applied to wound and sterile gauze taped over forehead after mother was shown injury.
At 4.20pm the child was playing in the playground on the fort with another peer when the child slipped. This resulted in the child falling off the fort and bumping her lip on the astro turf ground. The child sustained swelling to the lip area. The child's gums were also bruised. Ice pack was applied.
[redacted] was stepping onto the balance beam when he slipped and hit his mouth on the plastic frame. Cut to his mouth causing bleeding.
At 2.45pm on 9/8/13, [redacted] put his finger in the hinge of the 1/2 door between the room and bathroom in junior kindy. Another child shut the door on [redacted] right little finger catching the top in the hinge. An educator was in the bathroom and another in the room. There were 11 children aged 2-3.
4.40pm Child slipped over her own feet and hit her head on the edge/corner of the wall.
Child [redacted] went to jump over a log and he hooked his foot & fell face first, he put his arm down to break his fall.
Discussions with educators around supervision conducted. Child did not attend medical attention. Child back in care as per booking.
Child fell & bit tongue. medical attention was sought.
[redacted] was running when a peer tripped her causing her to fall and hit her left cheek on the ground.
child tripped and bumped his chin
NOT-4001480 TRIM #13/304676 Parent brought [redacted] to centre at 8am and informed staff his lip was swollen from a possible bite. [redacted] was monitored by staff. His lip became more swollen and at 2pm his mother [redacted] was phoned and advised to take him to a doctor. [redacted] phoned [redacted] and was advised he was not taken to doctor and relevant documentation was sent to mother. As injury occurred PRIOR to attendance at the service and NO medical attention sought, no further action required.
TRIM 13/282025 Phoned service. Spoke with NS who advised incident occurred when child was getting off the couch- fell forward while leaning over arm rest while getting down. Returned to service next day. No visible swelling. Risk control measures include positioning of couch with one arm rest against the wall and placing a mat/carpet alongside the couch.
[redacted] was dancing to a song at group time when she approached the Educator with a bloody bottom lip. The incident occurred at approx. 10.45 [redacted] had put her teeth through her bottom lip. Non one witnessed [redacted] hurting herself. Kindy room.
[redacted] did not arrive for ASC by 3pm. Parents had not called back by 3.35 so the Police were called at 3.36pm [redacted] called at 3.37 to notify staff that [redacted] was at home
[redacted] was jumping on trampoline. that is in the ground. Bounced off and bumped her head on pole, there are mats covering all poles and also soft fall reinforcement approx 1 metre around circumference of the trampoline. The bump caused [redacted] head to bleed. There was a laceration.
Child fell off swing & broke arm. medical attention was sought.
13/292424 Child was playing in cardboard box. Child lost balance and hit forehead on shelf.
Child was pushing a pram while looking down and ran into a shade sail pole. Child sustained a cut to forehead. Five stitches applied 13/292428
[redacted] presented to his mother whilst not in care with a strained neck muscle.
The child had a confirmed case of adenovirus. He has been absent from care all week.

Child fell & cut head while playing on playground
The child was running in the playground from one side to the other when he has attempted to stop before the fence. This resulted in the child falling forwards and putting his arm out to stop his fall.
10:15 [redacted] tripped running on the concrete and grazed his knees. [redacted] could walk but was unhappy. 12:00 [redacted] was contacted as [redacted] was unhappy, agreed to keep in contact, [redacted] explained [redacted] over reacts when injured. 1:40 [redacted] woke crying after rest time, he couldn't weight bear on right leg and his knee was swollen. 1:40 Mum phoned to collect at 2:30 [redacted] collected and taken to the Doctor. Doctor sent him to Robina hospital for an xray. The hospital wouldn't xray and sent him home. 14/8/13 Leg sore in morning, but running on it by the afternoon.
child had bead up nose
Phoned service. Spoke to NS - [redacted] Confirmed account of incident. Glass jars etc. are available in the environment on shelves etc. for children to view items which they contain. Children do access these and move them on to tables nearby. Have been taught how to handle these carefully. However, incident occurred largely due to lack of supervision. Two educators have been counselled re this as a result. Risk assessment provided with SIO1 to be revisited and collaborative reflection on practice to occur to inform another risk assessment which is to be forwarded to OEC/EC.
Injury to foot
[redacted] and [redacted] didn't arrive for ASC. Parents called from 3.15pm and messages left. Staff confirmed with school that the children had been there that day. Police called at 3.30pm, and [redacted] at 3.45pm. Father called back to confirm that the boys were with their Grandmother just before 4pm.
4.35 - Sandpit and soft fall area [redacted] of playground. Another Child hurt [redacted] after he had interfered with a creative structure being built, by throwing a coconut at it. Child retaliated by throwing in back at him. It hit him above left eye. Skin split - required stitches.
[redacted] was riding the child roller coaster and fell off. Cut chin area, resulting in an open wound [redacted] was taken to the family doctor and had the chin glued and dressing applied.
Child not collected from centre, police were contacted
Child tripped & fell onto Elbow, medical attention was sought
Injury to right ankle
Splinter in finger
cut to chin
TRIM # 13/296320
13/295511 Risk assessment of area, discussions with nominated supervisor, photograph of area. Child back in care, dentist states full recovery - no permanent damage to gum or adult teeth.
[redacted] was riding a bike within the toddler's yard. As he approached the sandpit he continued to roll into it [redacted] fell face first into the sand. He was observed to have blood dripping from his forehead as he sat up [redacted] held up a small shell that was located in the sandpit. [redacted] applied pressure to the cut and applied ice to the injured area once the bleeding slowed.
8.50am [redacted] fell and started crying in [redacted] playground. She was near wooden step but on flat ground holding onto left leg crying badly. [redacted] said she was skipping and fell over. Shoes were on wrong feet.
Child was hit by another child with a toy shovel while playing, resulting in a small chip to her tooth requiring dental attention.
Child [redacted] was pushed into another child's hard hat, chipping his front tooth.
Injury to chin area
Child with high temperature and suspected epilepsy.
Child fell hurting his arm, medical attention was sought
[redacted] was given his own morning tea and 15 minutes later face and neck started swelling and blister on top lip, parents decided not to seek medical attention.
Parent took child for medical attention. Nurse diagnosed 'pulled elbow' and is quite common and can occur from falling on his arm or another child's standing on his arm, etc. Child returned to care next booked day.
[redacted] Bus was involved in a car accident on the intersection of the Bruce Highway and Coombs Street White Rock at around 8:50am. Ambulance, Fire Brigade and Police attended the scene of the accident.
[redacted] hurt his ankle playing soccer sustaining a sprain.
TRIM # 13/285152
11 confirmed cases of hand, foot and mouth
[redacted] slipped over in the hall doing a sport activity. As she slipped she put her arm down to stop the fall and hurt her right wrist. No visible injuries.
Cut to lip
Object up child's nose
Injury to right foot
He had asked another child to push him over but he fell awkwardly on his hand and twisted his elbow. Parent phoned on Friday at 8.30am to advise that the elbow was broken.
Injury to mouth
Child was collected from the service by a person who was unknown to the educators.
Child [redacted] had a possible allergic reaction to sunscreen.

The child was standing at the end of an activity table as she attempted to sit on a chair she slipped causing her to fall forwards and bump her mouth on the edge of the table.

At 12.00pm on 16.08.2013 at [redacted] playground, child was playing with a friend with the barrel. One child inside the barrel the other rolling the barrel. The barrel was pushed into the fort and the point of impact was the child's mouth. TRIM 13/286150, NOT 40013889

Child didn't show at after school care

Child went missing from the service but was found

At 5.45pm, a parent started yelling at me (Director) saying a staff member had hurt his child while leaving the room. See attached statement from [redacted]

[redacted] was in the bathroom during indoor playtime and apparently fell, knocking his ear somewhere around the basin area. A 'tear' was examined by [redacted] and first aid given. Incident 11.40am, School nurse 11.45am.

[redacted] was standing at the bottom of the boat on rope climbing ladder holding onto the right pole climbing up when she turned to see who was coming, twisting and losing her balance falling landing with her elbow under her body weight onto softfall surface around the boat.

Two siblings were fighting [redacted] joined in and was struck on the head. Staff member tried to stop fight. Incident report attached.

Cut under left eyebrow

13/295282 Child has returned to care. Family reports tests results came back indicating the child was medically well. Doctor believes that he fainted due to the sight of his own blood and this may occur again in the future. Family have updated the enrolment medical form to indicate this. Educators have listed the child with an additional need to make other educators aware that this may occur in the future.

[redacted] woke from a sleep, vomited while eating lunch and had high temperature.

Location - In outside playground during [redacted] information deleted pursuant to section 22 of the [redacted] was playing soccer when he and another child collided-hitting his right eye under the eyebrow. First Aid given - [redacted] applied ice and monitored [redacted] for any further medical concerns - none became present. Parent took child to the Doctor and advised that there were no serious concerns with the injury.

On the 19.08.2013 at approximately 12:50pm the staff member noted the child had a bruise approximately 8cm in length under his right eye and blood from the left nostril. The staff member did not witness an incident however the child was located beside a bouncer. The staff member attended to the child and cleaned the area with a cool cloth. The child was monitored until the parent arrived at the centre at approximately 1:15pm. The parent took the child to the Doctors where it was determined the child had soft tissue damage to the area. No further treatment was required. The child is expected to return to the centre on his next booked day the 20.08.2013.

On the 19.08.2013 at approximately 3:25pm the child was playing in the playground [redacted] information deleted pursuant to section 22 of the [redacted] when she was bitten by a centipede. The child sustained a bite mark to the right fore finger. The staff members attended to the child and applied an ice pack to the area and called Poisons information line and an ambulance at approximately 3:30pm. The staff members washed the area and applied antiseptic spray to bite as directed by poisons information. The staff members continued to monitor the child until the parent arrived and the ambulance arrived at the centre. The child was taken to the Hospital via ambulance accompanied by the parent where she was monitored. No further treatment was required. The child is expected to return to the centre on her next booked day the 22.08.2013.

Child stood up from playing position, stumbled and banged eye on shelf unit.

At 2:50PM the child was walking on the natural grass area in the playground when he has stepped on a piece of tan bark. The bark has gone into the foot as he was not wearing any shoes at the time. At the doctors the bark was removed and the child was prescribed anti-biotics as a precaution.

At 2:50pm the child was walking along a plank when he slipped and hit his chin on the edge of the fort. This resulted in an open wound to the middle of the chin approx 2cm in length. The wound was glued at the doctor's.

[redacted] was running on the concrete pathway when he tripped and fell. He cut the area just above his knee. It was a clean cut and looked like it needed stitches

[redacted] was swinging on a swing when another child picked up a metal drink bottle and threw it at him. [redacted] was swinging in a forward motion at the time of impact. The bottle hit [redacted] on the bridge of his nose. Pressure to the wounded area was applied by [redacted] and triple OOO was called immediately

NOT-40014028 TRIM # 13/288517

Mum and emergency contacts called. Police called at 3.30pm. Mum called back to confirm she had children at 3.45pm. She had called and left a voice message, however there was no message on the voice mail.

Cut to chin

TRIM ref: 13/289734

[redacted] was riding a bike down a hill and crashed into a pole (square in shape)

Broken Arm/wrist

Child had hair pulled by another child, was pulled about 2cm, no injuries could be seen at time as child was taken from witnessing carer. Mother/Carer 2 states child had scratch's over face, bit on hand and sand in eyes.

Child was playing on balance beam when she fell 30cm to ground landing on her feet. Child said to carer that her ankle was sore carer got her an ice pack and looked over foot and ankle area.

Child [redacted] was hit in the eye by another child with a stick.

13/296581 Maintenance person has reglued carpet onto the window ledge. Couch has been placed in front of the window to prevent injury from reoccurring. Educators have discussed supervision and placement of furniture in the room

3.30pm; outdoor play area; metal climbing equipment. Circumstances as reported to Educator by [redacted] when asked what happened and where [redacted] was climbing over the top bar of the A-frame, slipped and landed astride the bar. First aid was administered (see attached Incident Report).

Child went to retrieve the ball from the garden she stood on a broken piece of wood with a nail that went through her shoe and into the ball of her right foot.

12.15pm Rest time, [redacted] put blanket over his head, was walking and tripped over the blanket and fell forward, striking his head against the corner of a wall cornice, causing a cut to his forehead.

SI01 Notification [redacted] Pursuant to [redacted]

TRIM ref. 13/291658

Child injury

Child had something in his eye after playing outside, medical attention sought and eye irrigated out.

Child [redacted] a rash on his left shoulder, over a two hour period it seemed to spread.

Grandmother [redacted] had tripped over concrete barrier falling on her shoulder and throwing child [redacted] forward onto the concrete.

\*

Convulsion

TRIM: 13/308115 [redacted] slipped from the monkey bars on the playground during afternoon play time. [redacted] injured his wrist at 4.05pm. [redacted] was comforted and reassured that he would be fine by the educator and [redacted] that was there at the time. The coordinator assessed the situation and suggested calling an ambulance but [redacted] became agitated at this suggestion and the Coordinator contacted mum only straight away. Once mum was contacted, the question was asked if she wanted the service to contract an ambulance but the mother said it was unnecessary and that she would be there to collect the child in 15 minutes and take him to a doctor or hospital. The child was made comfortable in side the service building and first aid was administered until the mother arrived at 4.22pm. Supporting documentation will be sent by email to Regional Office.

[redacted] was running in the playground and tripped over his own feet and bumped his head. Had seen the Dr and he gave [redacted] the all clear. Dr suggested they keep him home for the day to watch him.

Child was in the shed unsupervised

Child taken to [redacted] Hospital where urine tests were conducted and came back clear. Child underwent MRI and service is still waiting on results. See TRIM 13/302790 and 13/302755

At 11.45am [redacted] was trying to get up from the lunch table when he tripped and fell as his leg got caught on the leg of the chair. Staff offered him an ice pack but he refused. At 5.40pm [redacted] phoned the centre and spoke to [redacted] stating that the doctor had stated that [redacted] appeared to be in some pain and would like to follow up in the morning on the 22.8.13. [redacted] phoned at 10.15am and spoke to [redacted] stating that she has just taken [redacted] for an x-ray and his collarbone was broken.

TRIM ref: 13/296740

[redacted] who is still unsteady on her feet, walked across the mat tripped and fell. The mat was not raised or uneven.

Child slipped & hit their ear, medical attention was sought

3.25pm in the playground - [redacted] came down the firemans pole and slipped and fell, landing on her left side hurting her arm. First aid administered. When settled [redacted] did not want to go back and play and was holding her wrist.

Child fell over & was unconscious for a short time

[redacted] was pushing the circular swing. He then went to jump on but missed and fell onto the bark and softfall. He hit his chin and top lip.

Child tripped and fell on a toy, bumping her mouth on the wooden bridge she was walking on sustaining a cut to the right side of the bottom lip.

At 3.30pm [redacted] was playing in the playground when another child threw sand in his eyes. At the doctor the GP could not remove all the sand from the eye, so his mother took him to the hospital. At the hospital the sand was removed and a slight scratch was found on the eye. No further treatment required.

Injury to nose and lip

Child developed a red rash & medical attention was sought

[redacted] was going across the monkey bars at the year 2-3 playground when she fell off landing awkwardly on her left leg and immediately screamed out in pain. Another child was on the platform and started across and fell partly near her. [redacted] was unable to move her leg so was carried carefully and slowly to the office where pillows were placed under her leg to restrict movement. Ice pack applied and I sat with her holding her hand as she asked me to read her a story while we waited Dad to arrive soon after.

P/C - 26.08.13 to service, No identifiable triggers for seizures. Followed management plan from [redacted] and child doctor. Which state ambulance to be called after 5min into seizure? Child parent was called, ambulance transported child to hospital as oxygen level was low.

13/300877 I called the Director [redacted] today 27/08/13 to establish the outcome of the child's injury. The child had one stitch put in his lip which was removed on the weekend and is back at Kindergarten. The Kindergarten group have been reminded about the rules of not running on concrete and being careful with their friends. Discussing the rules about not running on concrete will be ongoing to remind children.

pursua was walking fast into the bathroom towards the sink to wash her hands. pursua tripped over and hit her head hard on the edge of the sink. A cut appeared above her left eyebrow and a bruise on her right cheek. She said her mouth was sore and she had a swollen lip. An ice pack was applied to the injured areas by deleted pursuant to se was rested and monitored until her mother arrived to collect her.

At approximately 15.25 the children had arrived by bus to the service. pursua and another child were running across the stadium and the other child's bag connected with pursua head. Basic first aid was applied by educator and emergency services were not contacted.

pursua was playing basketball outside in the 3-5 yr yard when the ball hit his cheek and he appeared in pain. He expressed his pain and ice pack was applied as he sat quietly with pursua Co-ordinator.

On 21.08.2013 during morning outside play, pursua was running after a large ball. She tripped over it and knocked her face on a trestle (part of set up obstacle course).

Child led pursuant to a bruise on left eye lid going into the eye socket.

Child led pursuant to ran and fell, when he got up the educator noticed that his lip had swelled up.

Child jumped off outdoor play equipment and landed awkwardly on his arm.

Child led pursuant sustained a cut to the right side of the forehead approximately 1cm in length.

child sustained a wound to corner of eye from block thrown by another child

Child injured Ankle while playing musical chairs

pursua was on the block mat. He went to sit down but was too close to the block shelf. He hit his head on the block shelf as he went to sit down. This resulted in a 2-3 cm cut on the left side of his head.

At 2.40pm the child was washing his hands and rubbed his eyes. This resulted in soap getting in the eyes.

Deep cut under the chin.

13/297107 P/C – 26.08.13 to service, the child had a small bead in his nose and was removed at hospital. Service have checked the activity tables and there were no bead matching or similar to the bead. Spoke to children about the dangers of placing objects in their nose. Risk assessments completed and have removed all buttons and bead from the younger rooms for safety.

Child's father entered the service and informed staff that he was taking his son.

pursua was on the swing when he came off backwards hitting his chin and nose on the artificial grass resulting in a blood nose. (Detailed report attached) See incident report attached

Children didn't arrive to ASC. Identified as missing at 3.05pm when roll call completed. Parent left message and texted. School and pursua contacted. Police called at 3.32pm. Mother called at 4.13pm to notify staff she had children

22/08/13 led pursuant to land in deleted pursuant to sect did not arrive at after school care.

injury box checked on incident type instead of attendance of emergency services. NOT-40014963

4.15 pm, Infant's playground, ursu slipped and fell, hitting her chin on the ground, as she was running around the small cubby house. Ice was applied to her chin. No other injury was observed.

At approx 3.45pm on 22/08/2013 led pursuant to got knocked in the mouth with the swing causing her front left tooth to become loose.

The child was playing with blocks on the verandah in the preschool outdoor area. Another child was standing holding a block raised in the air above pursua. As pursua stood, the child brought the block down bumping pursua left eye and causing a cut to the eyelid 4cm in length. An ice pack and pressure were applied and the ambulance called and arrived at 2.25pm led pursuant to land the child were taken in the ambulance to hospital where the child received 2 stitches.

led pursuant was participating in a game near the fort. As he ran down to the fort he tripped, falling forward and landed on the lower platform, hitting his chest on the edge and his chin on the platform. The child sustained a cut on his chin approximately 2cm in length. Pressure was applied to the wound.

SI01 Notification - led pursuant to

At 11.50am pursua was sitting on a chair and has repositioned herself and fallen off the chair bumping her chin on the corner of the table on the way down. The child appeared not to be herself after the incident. The educators checked the child when the child started to cough as though she was going to vomit. An ambulance was called. The ambulance officers assessed the child and the parent took the child to the doctors. The skin split underneath the chin and was approximately 3.1cm long and 0.05cm wide. Ice pack and pressure were applied.

13/312037 P/C & Email – 28.03.13 to service as follow up on notification, and to request further information. Information requested around plan to prevent this incident re-occurring. 03.09.13 – Reminder email sent to service re requested information. 04.09.13 – Information received - Plan response has been put into place, meeting with parents, continual behavioural guidance for child, review of supervision plan, continue daily outdoor area check.

Another child turned and accidentally turned and bumped him in the head with a block.

pursua and another child were digging in the sandpit when the other child swung a shovel hitting pursua in the face

Child led pursuant to was hit on the head with a soccer goal, when another child lifted the back of it causing it to fall.

Suspected seizure

Bump to right side of head

pursua was playing on the climbing frame with his friends in the preschool yard. He fell off and landed on his left hand - height approx 1m

Child fell while attempting to slide down firemans pole resulting in a broken arm and a dislocated elbow.

- Child fell while playing with hoola hoop, first aid applied, and parent contacted. - Children spoken to around safe play and use of play equipment. - Staff spoke to about supervision and positioning themselves to have clear vision of all children in playground. - No further action required.

pursua was playing in the playground with two other children, when he was hit on the middle of his forehead and left eye lid by a small rock. Deleted pursuant to section 22 of the FOI Act. The incident happened at 8.55am

pursua fell sideways off slide.

On 03/10/2013, d pursuant was notified of a staff supervision incident from deleted pursuant to section 22 of the FOI Act Centre Director - deleted pursuant to section 22 of the FOI Act. It is alleged that during the week of 26/08/2013-30/08/2013, in deleted pursuant to section 22 of the FOI Act and deleted pursuant to section 22 of the FOI Act had not supervised formation deleted pursuant to section 22 of the FOI Act effectively and a child left the room unattended. It has been brought to the centre director's attention on 03/10/2013 that pursuant was playing in the playground when he decided to climb onto a bike to open a door that leads inside the building. The child then went through the room to get a chair and entered the storeroom to get a watch from the bench. The educators have noticed the child missing from the playground (for an undetermined time) and have then gone looking for him. The child was found in the room unattended. The educators took the child back to the playground. The centre director and area manager are currently investigating the incident in accordance with organisational procedures.

At 11.15am the child was running to the bathroom when she has tripped over a mattress. This resulted in the child falling forwards and bumping her head on the bathroom door.

26/08/2013 - deleted pursuant to section 22 of the FOI Act phoned to inform the centre that jursu had Vericella (chicken-pox)

d pursuant phoned the centre to inform that pursua had a case of hand, foot and mouth

Cut to middle of forehead

Child fell down steps & fractured arm. Medical attention was sought

pursua was having afternoon tea at 2.30pm when he fell and his limbs had jerky movements. And a ambulance was called.

child fell off bike hitting head on concrete path

Child cut chin, medical attention was sought

Injury to chin and mouth

Toddler yard. Child was climbing on the soft fall equipment when he fell and put a tooth through his lip.

Educator bumped heads with a child. An ambulance was called to transport deleted pursuant to section 22 of the FOI Act to the hospital. Deleted pursuant to section 22 of the FOI Act had concussion.

3.35pm Child playing in yard - 3 staff supervising. Pursua ran across decked platform and jumped off. He fell forwards and hit his head on a table located 2m from platform. Staff offered immediate first aid and school nurse was called.

TRIM # 13/322652

On the way to meet mother the child has bumped into a table causing her to fall forward and bump the right side of her forehead.

pursua didn't arrive for ASC. School contacted and all emergency contacts were called, including her mother. Pursua contacted by staff and then Police called at 3.30pm. Police located deleted pursuant to section 22 of the FOI Act who was with her mother and called to notify us at 4.45pm

Injury to mouth

On 27 August 2013 at approximately 11.10am pursua was playing in the sandpit in the playground with other children. An Educator, deleted pursuant to section 22 of the FOI Act who was supervising in the playground near the sandpit at the time saw that pursua had begun to cry and he told her he got sand in his eyes. Pursua was immediately attended to by the Director deleted pursuant to section 22 of the FOI Act who rinsed his eyes with water for approximately 10 minutes. After his eyes were rinsed pursua showed no further signs of discomfort and he happily returned to the playground to play. Pursua was of the opinion that there was no need to contact his parent at that time. Pursua checked pursua just before rest time at approximately 12.05pm and he was not displaying any signs of distress or discomfort. During afternoon play in the top sandpit at approx. 3.00pm pursua was seen by an Educator deleted pursuant to section 22 of the FOI Act throwing sand at another child. The Educator spoke to him and he stopped throwing the sand. Pursua is unable to determine whether he got more sand in his eyes at this time. He was not showing any form of discomfort. Later that day at approximately 5pm pursua noticed pursua wiping at his left eye and that the eye looked irritated. While pursua was on the way to the bathroom with pursua to attend to his eye his mother deleted pursuant to section 22 of the FOI Act arrived (approx. 5.05pm) and she decided to take him to the doctor. Pursua attended deleted pursuant to section 22 of the FOI Act the next day (28 August) and pursua was advised that anti-biotic eye drops had been prescribed as a preventative measure, in case there was a scratch on his eye. Relevant information deleted pursuant to section 22 of the FOI Act.

At 2.45pm pursua was on a swing when he was struck by another child holding a plastic container; this resulted in an open wound approx. 1.5cm in length. Educators cleaned the wound and applied an ice pack. The child was taken to the hospital and the wound was closed

pursua was running along the footpath when he tripped and fell forward

Very low speed nose to tail car accident. No visible injuries to deleted pursuant to section 22 of the FOI Act. Ambulance attended

Very low speed nose to tail car accident. No injuries were reported to deleted pursuant to section 22 of the FOI Act

Child fell cutting his cheek bone area, Medical attention was sought

pursua did not arrive for ASC.

Children didn't arrive at ASC.

The incident was unwitnessed. The child was not distressed or upset on the day. The incident was advised by the child later to the parent that she has hurt herself on the slide.

pursua was unwell with a high temperatures of 39.3 degrees. She had a headache, sore stomach and was very red in the face. She was shaking and unable to move well.

At 11.00am ursu was standing in the bathroom next to the change table when he fell to the floor. The child then had a convulsion which lasted approx. 1 minute. Educators placed the child on his side and monitored the child until the ambulance arrived (in 17mins). The paramedics transported the child to hospital.

Deep cut to back of head

child collided with peer sustaining an injury to his face

Observed child holding her neck and appearing uncomfortable.

Child did not arrive to After School Care

NOT-40015194 child in front yard

pursua was playing T-Ball on the oval. He fell over while running backwards and used his right hand & arm to brace his fall. Ice was applied to his right wrist. pursua sustained a fracture from his fall.

Suspected spider bite

13/315993 Child was running towards cubby house. Child tripped and hit forehead on cubby house. Child sustained a cut to forehead. Ambulance called.

The Child leted pursuant to was playing happily with a toy on the mat then was laying face down in sleep like position. Educator tried to wake child, was listless & not responding. Ambulance was called.

13/304020 Child was carrying a box with another child. pursua wasn't looking where he was going and ran into the climbing structure, bumping his chin.

Child leted pursuant to was crying and walking towards staff when he appeared to faint. staff attended and applied first-aid. child regained consciousness very quickly but felt hop and sweaty to touch

ursu was struck on the head with a musical instrument by another child. This resulted in an open wound to the top of the head approx. 1cm in length. Educators applied an ice pack. At the doctors the wound was closed with glue. A follow up appointment has been scheduled for 2/9/2013.

ursu was playing on the fort when she lost her footing and fell backwards onto the chain climbing frame hitting her hip. Her foot was caught in the chain. She landed at a 45 degree angle with her head hanging downward. Staff members spoke to ursu to calm her and then when she was ready, moved her to the lower platform. Care was taken in the movement of ursu to a more comfortable position. ursu continued to complain that she had loss of feeling in her right leg and therefore the ambulance was called. The ambulance determined that no further action was required.

Child hit in head with plastic shovel

At 10.05am ursu was jumping in the classroom when he fell backwards landing on a wooden train.

incident

TRIM

Injury to head

ursu was playing chase with his peers when they collided and fell over at 4.20pm. A staff member attended to pursua immediately. sat with another staff member and was being cuddled as Mum arrived.

SIO1 - leted pursuant to incident

Child was left at school.

TRIM #

Children do not turn up for after school care

The child was running around the sandpit when he fell over and bumped his head on the fence post.

NOT-40014794 SIO1 child fell and hit head

Child tripped over a skipping rope and fell on the grass, no visible injury at the time. Parents took her to hospital later that evening and she had sustained a fractured arm. TRIM # 13/333464
Child lost her balance whilst walking along the green edging. Child fell sideways causing her to land on her right arm.
Went to torso and ambulance called
Child started coughing & continued after being given Ventolin. Medical attention was sought
Child did not arrive to ASC
NOT-40015192 Child fell and bumped head on door frame
Child was running down a plank between the high and low fort when he slipped and fell onto the edge of the low fort.
At 8.45am Child was sliding down the plastic slide when he fell off landing on his right arm. No visible injury was noted at the time of the incident, however, swelling to the elbow area was noted at 10.10am. Educators applied an ice pack. At the doctors the child was diagnosed with a fractured elbow, and the arm was placed in a sling.
NOT-40015192 child bumped head
Child fell off plastic cube
Child slipped & hit head on brick wall, medical attention was sought.
TRIM # 13/310794: Child was found in carpark shortly after mother had dropped him off.
At 8.55am another child threw a wooden block which hit Child on the cheek bone under his right eye.
TRIM 13/314339
Child deleted pursuant to section 22 was running up the stairs of the jungle gym when he tripped over his own feet and fell over bumping his head on the corner of the step resulting in a small cut to his forehead.
Child deleted pursuant to section 22 was climbing along the balance plank when she fell forwards and off the edge of the plank. This resulting in a 2cm cut to the left side of the lower lip and a small chip to a front tooth.
Allergic Reaction & Medical attention was sought
Child was walking down the stairs, misjudged last step and came down hard on her foot.
Child rolled onto her left arm quickly after she put her foot back onto her bed.
TRIM # 13/317309
Child was outside on veranda, when he stepped over a cushion and tripped hitting the soft part of the couch. - First aid applied, child held ice pack on his ear until it was too cold. - Educators have re-looked at the setup of the home corner on the veranda and will monitor the amount of equipment lying around to prevent any further incidents. - No further action required.
Children were playing in the sandpit when Child fell bumping the back of his head causing a laceration to the back of his head.
Child deleted pursuant to section 22 was walking in the sandpit when he fell over, he fell into the edge and hurt his right arm. Basic first aid was applied ie: ice applied till child said they were better.
Missing child
Child fell off Play Fort & injured arm. Medical attention was sought
Irrelevant information deleted pursuant to section 22 of the FOI Act were notified of 9 cases of Gastroenteritis. Deleted pursuant to section 22 reported the cases to Public Health. The Centre has displayed signs up in the service. Centre will be following the recommendations as outlined by Public Health in relation to infection control and exclusion of cases. The centre has closed their sandpits until the outbreak has been declared over.
At 15.35 on the day Child disclosed that information deleted pursuant to section 22 of FOI Act touched my Child's private parts. Deleted pursuant to section 22 wrote this on a piece of paper which she immediately destroyed.
Child was riding one of the toy horses and he was going quite fast. Child slipped over onto the concrete. Child hit his head and developed a bump on the left side of his forehead. An ice pack was applied. Child was taken to his doctor and advised to be monitored for 24 hours.
Child fell from fort - height of approx 90-95cm bumping back of head on edge of play equip.
The child was climbing on the obstacle course when she reached the small stepping stones and bumped her head on the brick wall.
Child was climbing on a tree stump when he fell resulting in Child cutting his chin.
3cm cut to head
Child jumped from a raised play space onto a large 1m pillow on the floor and hit the leg of a black board as he landed.
TRIM
On the playground at 4.30pm Child friend pushed him as he was sitting in a cart, and did not stop in time and ran into the wooden garden edging, causing Child's thumb to get caught in between the cart and the edging. Child's thumb was fractured.
Injury to arm
Climbing down from the monkey bars slipped hitting his arm on a rail and the platform.
At 3.35pm Child deleted pursuant to section 22 was holding Child's hand when she dropped suddenly so the educator let go of her hand. Within a minute the child started crying and holding her left arm. At this point her mother arrived. The centre was later informed that Child had dislocated her elbow.
Gash to right cheek
Child bumped their nose when they fell, medical attention was sought

The child was walking over to the sandpit and attempted to step over the edging of the sandpit when he has tripped and fell forwards and bumping his head on the wooden seat in the sand pit.
TRIM
pursua fell over on soft fall near swings at 12.30pm, and hurt her left arm. Fracture to left arm confirmed after x-rays
ted pursuant to was redirecting pursua to another area of play, guiding him by holding his upper left arm. As she walked with pursua he jumped and twisted in the air, landing forcefully on the ground with two feet. He immediately cried out, sitting on the ground holding his right shin.
pursua was collected from the service by an unauthorised person (deleted pursuant to s4). ID wasn't checked by certified supervisor. See attached
The children were playing when another child had a rock in hand which made contact with pursua
TRIM REF# 13/238598
At 8.30pm pursua began crying. Educators turned and saw pursua on the ground with chair upturned.
Cut to the head close to eye area
TRIM #13/333012
NOT-40015491 Child injured teeth on swing
Whilst in the preschool room on Monday the 9th of September at 2.30pm pursua and another child clashed heads together when they both bent down to get writing paper off the shelf at the same time. As a result pursua re-opened an existing wound that had been done at home on the 8th September.
- P/C to service, child was in outdoor playground, when educators noticed he looked red and hot. Mother (deleted pursuant to s4) took child indoors to take his temperature, once inside child had a febrile convulsion. Ambulance called and mother went to the hospital with child in ambulance. - Doctor diagnosed virus infection which caused fever to climb so quickly, which caused the convulsion.
pursua was running towards the fort while wearing thongs and fell landing head first onto the step of the fort.
The child was hit by a peer on the back of his head with the back flatside of a plastic shovel
On Monday (n deleted pursuant to s4) was walking towards the small coffee table when she tripped and hit her head on the table. It is uncertain if she tripped over her feet or the mat. pursua sustained a cut to the left side of her forehead (approx. 1cm in length). Educators cleaned the wound, applied steri strips and an ice pack. pursua was checked by her local doctor and no further treatment is required.
Child got their finger caught in toy oven door & when they pulled their finger their nail came off the nail bed. Medical attention was sought.
NOT-40015670 Child fractured elbow
3.40pm pursua came to pursua for a cuddle, he was crying. pursua cuddled him and he stopped crying. As pursua comforted pursua she ran her fingers in his hair. pursua saw a bit of blood, looking closer she found a tick sitting just under the scalp.
NOT # 400015696 Child fell and chipped his tooth.
Transitioning inside for lunch, (n deleted pursuant to section 2) (Teacher) lead children inside and started helping gathering lunches. (ted pursuant to Qualified Educator) went on her 10 minute break. As pursua returned to the Kindergarten room, she noticed 2 children standing at the door. pursua went over and let them inside. The Child (d pursuant to) was smirking. The other child (ted pursuant to) was very upset.
Transitioning inside for lunch, (n deleted pursuant to section 2) (Teacher) lead children inside and started helping gathering lunches. (ted pursuant to Qualified Educator) went on her 10 minute break. As pursua returned to the Kindergarten room, she noticed 2 children standing at the door. pursua went over and let them inside. The child (ted pursuant to) was very upset. d pursuant (the other child) was smirking.
pursua was skipping inside the classroom when he tripped over his own feet. As he fell he hit his face on the edge of the table causing a cut near his right eyebrow, bruising and grazing. First aid was applied. d pursuant mother was going to take him to the doctor as it may need stitches.
2.10pm pursua was playing by himself on the back yard. He tripped and fell on his glasses. As he has fallen his glasses have smashed and cut above his left eye. Immediate contact was made with pursua parents and ambulance
Child fell hitting their head & medical attention was sought
TRIM 13/325201
Staff member picked up pursua and realised that she was convulsing.
13/330020 - P/C to service, 3 children playing and one child pushed another child into the child (injured) which resulted in the girl falling and hitting her face on the floor. - Child's mouth was bleeding around the gum line above the tooth, parent called. - First aid applied and child comforted. - When parent came to collect child she was advised to take child to either doctors or dentist to check her teeth. - Child was taken to doctors no treatment was required. - Child returned to service the following day. (Day after incident). Educators have spoken to children about safe play and the dangers of pushing each other and ruff play. No further action required.
TRIM 13/327178 8.15am - 8.30am (n deleted pursuant to section 2) and surrounding shopping complex. Police were called. (staff statements attached)
Trim # 13/324074
NOT No: 40015660 Child fell from swing.
On the 11.09.2013 at approximately 2.30pm the child was kneeling on a child size chair when she has pushed herself away from the table. This resulted in the child falling backwards with her feet in the hole on the back of the chair and the chair falling on both of her feet. Both big toes were injured. The right toe was appeared to be swollen and the left toe was bruised. The staff members applied an ice pack to the area.

TRIM # 13/330745	
Child fell while running and broke collar bone.	
Child was laying on the ground under the climbing bars crying and saying that her wrist hurt.	
see attached report - TRIM - 13/334568	
Child was lying under a tree, Educator found her unresponsive then had a seizure. Ambulance was called.	
leted pursuant to §	at approximately 10.20am the child was running through the sand pit when he tripped on a mound of sand and fell. The child began to cry and a staff member attended to him. The child sustained a bruise with swelling to the left knee and the child was holding his left thigh area. The staff member monitored the child and called an ambulance. The child was taken to the Hospital via ambulance where it was determined the child sustained a dislocated hip. lation deleted pursuant to section 2 The Centre Director and staff will continue to liaise with the parents as to the medical outcome.
ursu	was playing outside when she was hit by a ball and fell on the ground, landing on her arm. There was 41 children & 4 staff on at the time.
Child fell from top of cosy coup car. medical attention was sought	
TRIM REF # 13/329802	
2cm cut to forehead	
TRIM # 13/333348	
pursua	jumped centre fence to go to mum who was in carpark.
At 10.50	pursua was hopping off the toilet, misplaced her step and fell head first into the toilet cubicle resulting in a cut in the middle of her forehead
On the 13/09/2013 at approximately 7.45am	the child was Playing with the foam blocks when she fell backwards catching the back of her head on the pole. This pole supports the sun shade. The child sustained a cut to the middle of the back of the head approximately 2cm in length.
TRIM # 13/331153	
Child fell and hit her head	
ECM phone call to jrsu	- incident deemed not urgent.
Child fell hitting his head on platform. Ambulance was phoned immediately.	
NOT-40016032 child seizure	
pursua	informed the educator that he tripped on the see-saw and hurt his ankle.
pursua	presented with a temperature at 4.20pm, while on the phone to parent, noticed breathing & heart racing. Parent requested an Ambulance be called 4.35pm.
j pursua	was playing in the large playground on the plastic fort when she fell awkwardly onto her arm. This occurred at 4.45pm.
TRIM # 13/330915	
Injury to head	
pursua	was running (inside) towards his bed, tripped and fell against the book shelf causing his nose to bleed. 11.30am The following morning d pursuant Director rang Mum to follow-up and was told pursua wrist was dislocated and the Doctor popped it back into place. Mum did not mention any other injuries. jrsu received a phone call from d pursuant at about 1pm on the same day. Pursua said he wanted to talk about the incident that happened at kindy the day before. (See incident report). Pursua said that pursua was at the hospital with suspected concussion and possible bleeding on the brain, and the hospital wanted to know if pursua had hit his head or fallen off anything. I explain to dad what was written in the incident report, that pursua had tripped over inside, he had not fallen off anything, and when he tripped he fall face first causing his nose to bleed. At no time throughout Monday afternoon, did pursua show any visible signs of concussion or indicate he was in pain. His behaviour was normal and consistent to what the staff has become to know of him.
Child ran into pole	
Child was brought to educator on the outdoor verandah by teacher assistant.	leted pursuant to § Child was crying but did not disclose his injury until his mother arrived at approx. 9.40am.
DURING PLAY	leted pursuant to § PULLED HER OVER HIS SHOULDER. SHE COMPLAINED OF A SORE ARM. STAFF APPLIED AN ICE-PACK AND HAD pursua REST UNTIL HER FATHER ARRIVED. DURING FOLLOW UP WITH PARENTS WE WERE NOTIFIED THAT pursua HAD FRACTURED HER RIGHT SHOULDER.
Bead stuck up child's nose.

Tooth of child dislodged due to head clash with another child on Friday 20 September 2013 in the [redacted] Room. No staff were aware of the incident at the time. Parent called the centre at 5.50pm after noticing the child's missing tooth.	
Time: 10.10am approx. Location: outdoor area. Circumstances: [redacted] was playing a game of chase with friends. [redacted] (assistant) was close by and heard [redacted] suggest to pick up a stick and go poke them. [redacted] spoke with [redacted] about safe ways to play with sticks and 'no poking'. [redacted] agreed. [redacted] stepped away. Within minutes [redacted] came to [redacted] holding his eye reporting [redacted] poked him with a stick.	
At approx. 8.15am [redacted] was playing a ball game on the oval. The ball landed over near the boundary fence [redacted] and another child went to fetch the ball and bumped heads but both were ok. At approx. 8.20am [redacted] went to Educator [redacted] with his arm outstretched and said he thinks he was bitten by a snake. [redacted] then took [redacted] [redacted] and [redacted] who took over. At approx. 8.25am [redacted] looked at [redacted] arm and noticed 2 small puncture marks that he said he got when he went to fetch the ball. At 8.28am [redacted] called emergency services who arrived at 8.34am to assess [redacted] [redacted] was taken to Royal Childrens Hospital for further assessment. Refer to attached detailed summary of Educators Reports.	
[redacted] [redacted] and was unable to verbalise that he was hurt. He went home and said his arm was sore. Parents took him to the doctor and his arm was x-rayed and a hair line fracture of the arm was found.	
As per incident report.	
When [redacted] came inside it was observed that she was panting. She was asked if she was ok and she replied that she couldn't breathe properly. [redacted] was seated and her breathing was monitored. Attempts were made to take [redacted] pulse as her breathing became more rapid. Triple 000 ambulance was called. [redacted] was comforted as she started to panic. [redacted] [redacted] stayed on the phone to Triple 000 and [redacted] stayed with [redacted] until the paramedics arrived.	
[redacted] [redacted] 11.05 We were all having morning tea when [redacted] nose started bleeding. We gave him immediate treatment. He has regular nose bleeds. Ambulance called 10 minutes after bleeding started. [redacted] was taken to hospital with his mother [redacted] by ambulance.	
[redacted] ran inside the [redacted] room to collect her bag as her mother was there to collect her. She fell forwards hitting her head on the lockers. Comfort and first was applied immediately as she had a lot of blood on her forehead. There was approximately a 1cm cut on the left side of her forehead. An ambulance was called at 4.20 upon mothers request. Ambulance attended and transported [redacted] and her mother to [redacted] Hospital.	
10.50am another child pushed [redacted] over in the playgym. She fell putting her arm down to stop the fall and landed on her right wrist. [redacted] (mother) was called and then the ambulance. Sent to Redcliffe Hospital - broken bone in right wrist. Report attached.	
Incident occurred 23 September 2013 at 3.50pm. The child was sitting on the ground by herself in the Pre-Kindergarten Playground. Educator then noticed she was lying on the ground & then noticed her body was stiff and jerking. Her face was red in colour and she started to vomit. Child was rolled onto her side in the recovery position & an ambulance was called. Ambulance arrived at the centre within 10 minutes. Educator went with the child to the hospital & met the child's mother. The child returned to the centre on Friday 27 September 2013. Refer to the attached letter from the hospital in relation to the medical condition for the child.	
Attention deleted pursuant to section 1 [redacted] was running through the middle of the playgym when he hit his head on a low bar. He hit it with force causing his head to be thrown backwards and causing two (2) large bumps on the right side of his forehead. An ice pack was applied. Triple 000 ambulance was called at approximately 4.10pm and was transported to [redacted] Hospital.	
Information deleted pursuant to section 22 of the [redacted] were permitted to take him home at 6.30pm. No signs of concussion. 25/9/13 Parents informed service that [redacted] was doing well and the bumps were subsiding.	
[redacted] and another child were playing on the mat when the other child tackled him to the ground causing him to bump his head. [redacted] stood up immediately whilst crying. [redacted] came over to comfort him and as he was being hugged his body arched back with his eyes rolling in his head. [redacted] body tensed and he passed out. [redacted] came to within approx. 20sec a little disorientated but alert. The ambulance was called as soon as [redacted] arched backwards and arrived within 10min. He was assessed and taken to hospital for further observation.	
On 25/09/2013 the parent informed the centre the child had placed the wheel of a toy car up his nose during rest time. Parent discovered injury when wiping his face at approximately 9.00am on 24/09/2013 when the child complained that it hurt his nose. When questioned by the parent, the child explained what happened. Parent took child to Logan hospital on the night of 24/09/2013. Doctors checked [redacted] couldn't see anything, but based on swelling and bruising advised that he see a specialist. Information deleted pursuant to section 22 of the [redacted] and specialist advised that he believed something had been up his nose, but that [redacted] had either blown it out or sucked it back. [redacted] fine now. Parent advised Director that [redacted] had done this. [redacted] has done this several times with sultanas and dried noodles. The child returned to care on the 26/09/2013.	
TRIM 13/345713. Child went missing at the [redacted] deleted pursuant to section [redacted] Educators thought he was in the toilet. Child was found unharmed by a member of public. Child unaccounted for approx 8 minutes.	
Location: Toddler room inside [redacted] temp taken at 10:20am (39.7). Paradol administered and Mum phoned. Minutes later [redacted] convulsed. [redacted] came to me while [redacted] administered first aid. I contacted an ambulance and [redacted] was brought to the parent room. Mum arrived and ambulance arrived 10.40am and took [redacted] and mum to hospital.	
Information deleted pursuant to section 22 of the [redacted] a group of children were taking turns at leap frogging over the [redacted] in the outdoor play space. [redacted] tripped over [redacted] and fell hurting his right arm. [redacted] refused any first aid at the time of the incident. He returned to vacation care the following day with limited movement and mild pain. [redacted] parents took him to hospital on Thursday 26/9/2013 and an Xray confirmed a fracture of the right elbow.

pursua	in a light fitting over heated and burnt out.
pursua	was playing on the year 1 playground on the monkey bars. She was swinging bar to bar when she missed a bar and hit her head on the step. The incident happened at 12.30pm. Parents were called immediately and pursua was taken to the hospital by her grandmother.
4.55pm	Child was climbing on rocks when she fell and hit her face. Cracked front tooth.
Entered by	ed pursuant to was retrieving a ball that was kicked over the fence. Instead of going through gate pursua jumped from rock ledge over the fence. This was at 5.16pm. When first aid was applied, pursua said his arm was sore but no apparent redness or marks. Mum apparently said that he does often say things are sore and turn into nothing which is why she didn't go directly to doctor or hospital. We were informed that they went the next morning and then to the fracture clinic (unsure of where)
At information deleted pursuant to section 22	it was nearing the end of the daily activity where the children participated in. Pursua was confronted by Child B who said something that upset him. Pursua became very angry and decided to express his anger by punching a steel pole. Pursua's knuckle above his little finger on his right hand became inflamed. An ice pack was applied by deleted pursuant to section 22 was taken to the doctor's and then hospital to have an X-ray of his hand. The X-ray confirmed pursua had broken the outer bone in his right hand and shunted/dislocated the knuckle back into the hand. They had to pull his finger back into place and set the hand in plaster.
On the 25/09/13	pursua was playing in the home corner, with other children. Another child swung a plastic whisk around, which caught on the back of pursua's earring. This resulted in the earring stud back, being pulled into the left ear.
9:05am.	Path leading to senior play area. Deleted pursuant to section 22 headed up towards the senior play area to show her daughter the yard. Pursua and Director were inside the building. We heard a scream and ran outside to find pursua on the floor holding her leg and crying.
pursua informed	ed pursuant to at 12:30pm he had picked up a bead in the yard and at rest time he had put the bead up his nose and could not get it out.
pursua walked out of the QSHC room and ran into the door.	He cut his eyebrow. Staff applied pressure and called his parents. He was picked up at 4:35pm. Parents notified staff on 26/9 that he had the cut glued together.
Incident injury trauma & illness record completed by Educator at 6:15am 26/09/13.	Nominated Supervisor and Assistant Director signed at 2:00pm 26/09/13.
Child ed pursuant to	As per attached incident form, pursua walked out of hall unaccompanied. He walked across the oval, turned around and walked back into the hall and continued to play. His disappearance from the hall was noticed by 2 The Office of EC.
Child was playing on a spider fort and as she was attempting to reach a rope, fell onto her elbow.	As she has had a previous broken arm, parents have taken her for Xrays to ensure there was no further damage.
Information deleted pursuant to section 22	wanted to deleted pursuant to section 22 and deleted pursuant to were fossicking for dinosaur eggs along with other children. Pursua picked up her tool and moved it backwards as pursua moved forwards. The fossicking tool struck the back of pursua's head. Pursua sustained a laceration to the back of his head. Pressure was immediately applied to pursua's head to stop the blood flow. A First Aid officer from the Park also attended and recommended that the Mt D pursuant ambulance be called, suggesting the laceration may require gluing. The ambulance attended and transported ed pursuant to and worker ed pursuant to ed pursuant to Logan Hospital.
Incident happened at outside area during vacation care at 4.00pm.	pursua swallowed a 20 cent coin and it became stuck in his throat. The ambulance was called at 4.05pm. Pursua was still able to breathe and was talking. The ambulance arrived at 4.10pm and pursua was taken to Caboolture hospital at 4.25pm.
At information deleted pursuant to section 22	was playing soccer with other children on the oval. Pursua had a collision with another child and fell to the ground clutching at his left forearm. An ice pack was applied to the injured area and ed pursuant to arm was immobilised. Pursua's mother collected him from vacation care and decided to take him to Prince Charles Hospital after arriving home. Pursua was given the all clear from the hospital as he did not sustain a fracture/break.
ed pursuant to	was not his normal self. He appeared pale and lethargic. Deleted pursuant to section 22 began to take pursua's temperature when seizure soon occurred in carer's arms.
Playing on play gym and older child tried to pick her up and she fell from the second rung of the ladder and she hit her cheek on the ground.	
As entered by RA KA TRIM #13/350859	pursua told pursua that his heart was beating really fast and he was very pale. He was having trouble breathing. Pursua contacted parents and an ambulance. Pursua was taken to the Logan hospital (10.30-11am)
NOT-40016473 At information deleted pursuant to section 22	was playing "red rover" with other children in the undercover area. Pursua fell over whilst running and knocked her head on the ground. Waiting to hear results from pursua's mother after she took her to the doctor.
On the 27.09.2013 at approximately 10:20am	the child was walking in the room when he tripped over his own feet. This resulted in him falling forward onto the floor. The child sustained a cut to the middle of the outer top and bottom lip approximately 0.5cm in length and a blood nose. The staff members attended to the child and applied an ice pack to the area. The child was also given an ice block in attempt to reduce the swelling to the lip area. The parent collected the child at approximately 11:10am and took him to the Hospital where he was kept in for monitoring due to suspected concussion. The child is expected to return to the centre on the 03.10.2013.
pursua arrived at centre tired and could hardly open eyes.	Shortly after he was floppy and unable to walk. Mum and ambulance were called.

deleted pursuant to s at approximately 8.50am the child was playing on the fort standing near the slide area. The child appeared to lose her balance and fell forward over the edge of the slide onto the bark. The child was crying and supporting her elbow. She told educator's that it hurt. The staff members applied an ice pack to the area in attempt to reduce the swelling and called an ambulance at approximately 9:00am. The child was taken to the Hospital via ambulance. It was confirmed by an x-ray that the elbow was broken. Irrelevant information deleted pursuant to section 22 of the FOI Act was realised on the same day (Saturday) and is now recovering at home for week.

TRIM # 13/349623 deleted pursuant to at 4:30pm the child was riding a bike in the playground, when she tried to manoeuvre between a pole and d pursuant The child caught their toe on the pole and injured the toe. The educators applied an ice pack and the child resumed playing. The parent took the child to the hospital deleted pursuant to and the doctor confirmed the right little toe was broken. The toe has been strapped and the child will return to the centre deleted pursuant to.

Jursu was swinging on a flying fox located in main playground centre 3. At approximately 8:30am he released his grip and fell to the ground. An ambulance was called. Medics treated Jursu and transported him to hospital (Southport) at 9.30am. deleted pursuant to s travelled with Jursu.

Educator saw child crying by sandpit fence, went over and asked what was wrong. Child replied 'I have bumped my arm and I have hurt myself' (indicating left arm/elbow area). Child asked for d pursuant- her teacher d pursuant bought the child to centre manager in office. Child was asked what happened and she replied 'I hurt my arm - I twisted it on floor grass'. Ice was being applied and d pursuant had child's arm in sling. She was sat on a chair while her parents were contacted.

At approximately 11.05am on the 27/9/13 Jursu was skating at deleted pursuant to s when she fell and hurt her arm. Staff and the first aid officer at skateway both checked it.

4.15pm - on deleted pursuant to secti- Location Back Playground - Staff heard crying child lying next to low balance beam. Asking questions Jursu was pushed off the beam from another child. Parent contacted. No emergency service were notified as parent took control of the child. Ice pack applied.

The children were playing a game of basketball and two children bumped into each other. The child landed with her wrist backwards.

Jursu was running inside the Toddler Room when he fell over hitting his forehead on the door frame.

3.10pm. Child swinging on the money bars and fell off, landing on his left arm.

The Child participated in the deleted pursuant to While trying to get out of the Jursu he fell and hurt his elbow. The activity was conducted in front of our room. The Educator in charge has 11 Children in her care. There were other Parents present watching the activity. The time of the incident was 4:10pm

Time. 11.30 Jursu was in training rink standing alone went to move and fell over hurting her right leg. deleted pursuant to secti took over apply first aid and their incident procedure. Location - Information deleted pursuant to section 22 d Management contact ambulance which arrived around 12.40. 12.55 Ambulance informed staff they were taking her to Mater Children's Hospital.

27/09/2013 9am. Child was discovered lying face down on the ground. Staff checking him observed that his body was limp, he was making a gurgling sound and was foaming at the mouth. Ambulance was called.

Ice Skating - lost balance and fell over, banging head on ice. Information deleted pursuant to section 22 d

Ah deleted pursuant to secti the children were playing a parachute game of cat and mouse on the oval. It is not entirely sure how Jursu hurt his thumb. The injury is suspected of occurring whilst Jursu was crawling underneath the parachute and possibly bumping his thumb awkwardly on the ground. There was minimal swelling however an ice pack was applied to the injured thumb and his thumb was splinted with a large popstick and tape and Jursu rested until his mother arrived. Jursu was taken for x-rays (1/10/13) and the doctor diagnosed that the thumb was potentially dislocated and popped back into place itself. Jursu has been cleared to return to vacation care.

Jursu was collecting material for collage, she ran and jumped onto deck. She slipped as she came up onto the deck and her foot went underneath her.

On Monday 30th September 2013, Jursu had been playing with the dress-up clothing during an activity at Vacation Care and at 10.52am Jursu went to an Educator to advise she was itchy all over. The Educator inspected where she was scratching and discovered that her neck and top of chest was covered with what appeared to be hives. The Educator immediately advised the Nominated Supervisor/Coordinator and ice and cool washers were applied and Jursu was taken into a cooler room. At 11.55am Nominated Supervisor/Coordinator phoned deleted pursuant to s who advised he was approx. 1 hour from service and to phone the ambulance for him. The Nominated Supervisor/Coordinator phoned the ambulance straight away. Ambulance Officers arrived and checked Jursu breathing and rash and advised that the parent could follow up with their GP on the rash. Jursu was not transported to a hospital. deleted pursuant to s arrived at then deleted pursuant to secti service at 11.40am to collect Jursu where he advised the Nominated Supervisor/Coordinator that he would take Jursu to see their doctor.

Child fell from a plank in the outdoor play area at 10.45am. Approved provider believes fracture occurred when child fell from plank. Received call from Health Department stating that child deleted pursuant to had tested positive to Ecoli.

Ah deleted pursuant to section 27 was playing in the playground and walking along the stepping stones when her foot slipped. Jursu fell forward and hit her chin on the next step splitting her chin open. Pressure was applied to stop the bleeding (approx 10 minutes). Jursu mother collected her and took her to see a doctor.

TRIM # 13/352747	Ation deleted pursuant to section 22 of the FOI Act at approximately 3.35pm	2 other boys were being spoken to about inappropriate behaviour. When [redacted] was advised that he would be sitting at the coordinator's [redacted] for the afternoon, he stormed out of the room and said that he was leaving. Attempts were made to stop [redacted] from leaving by holding his arm, put his arm up to hit the coordinator so she let go at which time he ran off. [redacted] rang at 3.40pm and advised that [redacted] was at home and he would come to collect [redacted] and speak with the coordinator [redacted] rang the coordinator at 4.21pm to say sorry.							
	[redacted] was sitting near [redacted] crying. [redacted] was bleeding from the back of his head. It appears that he hit his head on the pole.								
	[redacted] was trying to open a craft cupboard which is child locked and it wouldn't open. He pulled a second time and a glass jar fell out and smashed on the floor. [redacted] was in bear feet and stepped to the side and caught a piece of glass in his left heel. His mum on deleted pursuant to section 22 of the FOI Act witnessed the incident. [redacted] was monitored over night and it continued to bleed. He was taken to the doctor's yesterday (2/10/13) and has been referred to have an ultrasound on (4/10/13) as they think glass maybe still in the wound. The glass has gone near a vein. Also want to make sure the glass has completely gone and it isn't given a chance to travel.								
TRIM # 13/354806	8.40am [redacted] was running in the outside playground, slipped and fell on her right wrist. Incident report attached								
	8.40am Child fell landing on arm, 2-3 years play room. Immediate scream and holding arm. Dislocated elbow								
	(Child) [redacted] was sitting on the carpet getting ready for afternoon tea when [redacted] (Educator) turned around and saw [redacted] (Child) trembling rigidly.								
	PLEASE NOTE [redacted] HAS NO MEDICAL HISTORY, THIS ATTACK CAME FOR NO UNKNOWN REASON. THANKFULLY OUR SERVICE HOLDS AN EMERGENCY EPI-PEN. AT 3.00PM IN THE PRE-PREP ROOM [redacted] WOKE UP COUGHING AND MAKING A WHEEZING SOUND. HE WENT TO THE TOILET AND SEEMED TO BE NEARLY VOMITING BUT NOTHING HAPPENED. HE SETTLED A BIT, WE PHONED MUM TO INFORM HER AND COMFORTED (TEMP, COOL COMPRESS, REST) HIM [redacted] BEGAN COUGHING AND GAGGING AGAIN (THINKING HE WAS GOING TO VOMIT). MONITORED HIM AND PLACED HIM IN RECOVERY POSITION IN CASE HE WAS GOING TO CHOKE [redacted] THEN INFORMED EDUCATOR THAT HIS TONGUE WASN'T RIGHT AND HE WAS HAVING DIFFICULTY TALKING (NO ASTHMA SIGNS). CHECKED HIS HEALTH HISTORY - NIL. PHONED MUM AGAIN TO SEE WHERE SHE WAS, REALISED [redacted] HAD SIGNS OF ANAPHYLAXIS AS HIS FACE BEGAN TO SWELL, EYES PROTRUDED, RASH OVER FACE, TORSO SWELLED, THROAT SWELLED AND HIS TONGUE WAS SO SWOLLEN THAT IT KEPT COMING OUT OF HIS MOUTH, COUGH AND WHEEZE CONSISTENT. IMMEDIATELY ADMINISTERED SERVICE'S EMERGENCY EPI-PEN AND PHONED AMBULANCE. MUM ARRIVED BEFORE AMBULANCE. TOOK AMBULANCE AT LEAST 5 MINS TO GET HERE.								
	At 3.50pm [redacted] ran down a ramp in outdoor play area and fell. [redacted] face landed on a toy resulting in split to upper lip. Ambulance was called 5 minutes after incident.								
	On deleted pursuant to section 22 of the FOI Act was notified of a staff supervision incident from [redacted] information deleted pursuant to section 22 of the FOI Act. It is alleged [redacted] information deleted pursuant to section 22 of the FOI Act had not supervised [redacted] information deleted pursuant to section 22 of the FOI Act and the child was left unattended in the pre-kindergarten room. It is alleged that a parent advised the educators who were in the pre-kindergarten playground with the children that they had found a child [redacted] unsupervised in the pre-kindergarten room. A staff member [redacted] Assistant, unqualified) attended to the child immediately. The child was not upset and was sitting at a table colouring in a picture. It is believed that the child was left unsupervised approximately 10 mins as the group of children from the toddlers and pre-kindergarten had transitioned to the playground at approximately 4.50pm. [redacted] will notify the child's parent of the incident. The matter will be investigated in accordance with organisational procedures.								
	Child [redacted] Please see attached description.								
	At 8.50am a group of school children were doing handstands. They were asked to stop this activity. As one came down her foot hit [redacted] mouth, causing swelling to lip and 2 teeth came out. Child visited dentist. No emergency services involved.								
	There was an incident report done for a mark on her cheek but was not notified about the chipped tooth as it was not evident when she left the centre.								
	1.55pm [redacted] information deleted pursuant to section 22 of the FOI Act Child presented with abdominal pain. Ambulance called.								
	At approx 4.30pm on the 2nd OCTOBER 2013 [redacted] was playing handball under the covered play area, when the ball bounced out to the oval [redacted] went to get the ball when another child picked up the ball and threw the ball back, when it hit a pole going back out to the oval again [redacted] ran to get it as did the other child. [redacted] picked up the ball and started running back up to play Handball, with the other child chasing him. [redacted] tripped and the other child fell over him. When [redacted] got up [redacted] (supervisor) saw that he had grazed his forehead above his left eye. [redacted] brought him inside to sit down, got an icepack for his face. As [redacted] lifted his left arm he experienced pain. The service then rang the ambulance who attended the service at approximately 4.50pm and took him to the [redacted] General Hospital. At approximately 4.35 pm [redacted] (certified supervisor) rang [redacted] (nominated supervisor) to let her know what had happened. [redacted] returned to the service at approximately 5.10pm to find out the information on the incident. [redacted] contacted mum [redacted] deleted pursuant to section 22 of the FOI Act at approximately 7.45pm the night of the incident to check up on [redacted] the parent informed the coordinator that the child had a confirmed broken left collarbone.

On the 03.10.2013 at approximately 7:15am the child was playing with the large exercise ball and tripped falling on the ground. After the incident the child was unable to walk on his leg. The child sustained a red mark to the top of the left leg approximately the size of a 50 cent piece. The staff members attended to the child, elevated his legs and applied an ice pack to the area. The staff members called an ambulance for the child after contacting the parent at approximately 8:30am. The ambulance arrived at the centre at approximately 8:45pm and monitored the child. The parent took the child to the Hospital where it was determined the child had a broken Femur. Irrelevant information deleted pursuant to section 22 of the FOI Act. The Centre Director will liaise with the parent as to the medical outcome.	Mount Gravatt	d pursuant	No	No	No	No	Yes	No
At 9:00am the toddlers were getting ready for morning tea when d pursuant tripped over his shoes bumping his chin on a table. Educator comforted d pursuant and noticed blood coming from his mouth. On further inspection noticed that his front bottom teeth had moved forward. His mother was called followed by the ambulance. Ambulance arrived at 9:35am	Caboolture	STRATHPINE	No	No	No	No	Yes	No
At approx. 3:50pm d pursuant was interacting with a small group of children and a Senior Educator. He said directly to the d pursuant "What me spin" d pursuant then stood on one foot and proceeded to spin (pirouette-like). d pursuant noticed that while his body spun his leg appeared to stay in the same position. d pursuant then fell to the ground, landing with his legs twisted underneath himself, and falling hard onto his arm. d pursuant untangled d pursuant and while looking at his arm asked were it hurt, d pursuant replied "No. My leg". As he was already in d pursuant's arm she brought to the reception area, as it was free of children and interruptions. First Aid was provided by d pursuant to d pursuant with assistance by d pursuant (Educator). d pursuant contacted mum briefly at 3:56pm to inform her what had happened and that we were calling an ambulance. d pursuant then contacted 000 at 3:57pm and requested support of Ambulance Service. d pursuant went into the front entry way to meet mum and pass on information from the 000 operator to not move d pursuant unnecessarily - mum sat beside d pursuant and spoke calmly with d pursuant. Pillows and cushions were placed under d pursuant's arms, and a chair placed under her leg to assist her in holding d pursuant's weight. Once mum arrived d pursuant went to the front driveway to meet the ambulance and to direct parents through the playground emergency gate to ensure privacy and safety for d pursuant. [redacted] had been sleeping during rest time in the Kindergarten studio when she woke up and vomitted. A couple of minutes later her mouth started twitching and her eyes were losing focus. At this stage her parents were contacted and advised that we needed to call an ambulance.

TRIM ref: 13/356725 At approximately 7.50am on the 8/10/13 [redacted] told staff that she had been bitten by an orange spider. Staff applied an ice pack and called her mother who requested that an ambulance be called on advice from the hospital.

At 10.40 am inside the Junior Kindy room, [redacted] was playing with balloons when he fell and hit his head on a low table. He hit his left eyebrow resulting in a 1cm gash.

[redacted] suffered a seizure at 12.50pm on 08/10/13 and [redacted] deleted pursuant to section 22 The Ambulance was called at 12.50pm [redacted] has suffered seizure's before. The ambulance officers didn't take [redacted] to hospital. Her father took her to their family Doctor. A Medical Plan has been created from [redacted] family doctor. Irrelevant information deleted pursuant to section 22 of the FOI Act

3.45pm at [redacted] deleted pursuant to section 22 was playing "capture the flag" when he tripped and fell backwards hitting his head on the concrete, [redacted] became dizzy, nauseous, he sustained a headache and poor memory recall and his speech was slurred. Triple 000 Ambulance was called and arrived approximately 4pm.

[redacted] deleted pursuant to section 22 (child) soiled herself and Educators were encouraging her to change, [redacted] refused to cooperate with Educators request. Educators assisted [redacted] to the toilet facilities where she became very aggressive and began to bit and kick at Educators. Educators have tried to control the aggressive behaviour by using their hands to prevent [redacted] from injuring herself or them further. In controlling [redacted] aggression, marks has been left on [redacted] wrists.

Entered by RA/LN [redacted] was running on the playground on the soft fall surface, tripped over her own feet and landed on her left arm, breaking the arm over and below the elbow.

TRIM #13/368706 NOT-40017339 At 4.12pm at [redacted] information deleted pursuant to section 22 [redacted] was pushing trucks 3 high and was asked to stop and wash up for afternoon tea. [redacted] refused and then fell over the trucks. He hit his chin on the ground causing 2 front teeth to fall out. [redacted] mum was called immediately. Attempts were made to wash the blood out of his mouth however he was screaming and wouldn't accept assistance. [redacted] mum administered 5ml of panadol once she arrived [redacted] deleted pursuant to section 22

A chair fell on the baby's head when the toddler overturned the chair The educator phoned the office at 12.20PM, staff left the office immediately and arrived at the educators 5 minutes later. Ambulance called, baby under observation at the hospital. The baby was discharged at 6.00PM with no injury sustained.

At 3.30pm [redacted] was playing with the dog through the glass door. The educator heard him scream, when she went out to see why he was screaming their was water coming out of the back of the water dispenser which was beside the glass door.

[redacted] was on the carpet at mat time when he got upset and had a blood nose. This was cleaned, checked and discussions had. At no time did [redacted] mention he had brought a piece of lego from home and stuffed it up his nose. Within the hour of this his mother came and educator let her know of [redacted] upset behaviour.

9.35am [redacted] approached staff member, from the direction of the rope swing, saying something was in his eye.

On the 09.10.2013 at approximately 3.45pm the child was sitting on a small push along bike, he attempted to move the bike forwards onto the concrete area which resulted in the child falling forwards bumping his chin on the concrete area. The child sustained a cut to under the chin approximately 1.5cm in length and small marks to his tongue. The staff members attended to the child and applied an ice pack to the area, the child was also given an ice block to aid in reducing the swelling to the tounge area. The child was collected by his parent at approximately 4.10pm and taken to the Doctor's where the area was glued. The child returned to the centre on the 10.10.2013.

At 10.30am in the Junior Kindy room a group of children were playing, with the wooden blocks (including [redacted]). When a child picked up a block and spun around. This resulted in [redacted] being caught by the wooden block, on the right eye brow causing an open wound. [redacted] was taken to the RCH (Royal Children's Hospital), where they cut the laceration into a straight line. Then glued it back together.

At 3.50pm at [redacted] information deleted pursuant to section 22 [redacted] was playing a ball game on the outside playground. He turned to run and collided his head/mouth with another child. [redacted] sustained a split lip as his tooth was forced into the right side of his lip. First aid was provided by way of wet cloth, ice pack and pressure in attempt to reduce the bleeding. The bleeding did not cease and there was a lot of blood, therefore Triple 000 ambulance was called at 3.53pm and arrived at 4.15pm. Contact was made the following day by the parents to advise [redacted] received 2 stitches to his lip and was back at school.

4.30 - Playground/oval [redacted] was playing football when he went to catch the ball, [redacted] dislocated his finger.

At approximately 12.00pm, [redacted] irrelevant information deleted pursuant to section 22 of the FOI [redacted] was playing on the slide in the playground. As she neared the bottom, she fell off the slide landing on the left hand side of her body. She put her left arm out to break her fall. She was crying and seemed to be in discomfort. [redacted] spoke with [redacted] deleted pursuant to section 22 (Coordinator) and then phoned the parent. [redacted] irrelevant information deleted pursuant to section 22 of the FOI

Accident occured in undercover court area at 4.15pm [redacted] was accidently pushed over whilst playing a game of 'Golden Child'. Mum arrived 10 mins after accident occured and she took child for medical assistance.

Entered by RA/LN - (5 children) 3.20pm 9.10.2013. The bus collected children from school at intersection. Got a green light, bus proceeded through. Another vehicle to left came through red light and hit driver side of bus. Emergency services called and checked all over - Completed police report. Ambulance checked Educator & children. No injuries were sustained.

[redacted] deleted pursuant to section 22 3.30pm playing ball. Finger got bent back when catching ball. Educator brought her in for first aid, ice pack, elevation, strapped two fingers together reassured. Called both parents [redacted] deleted pursuant to section 22 picked her up.

Entered by RAILN Approx 1:10pm [redacted] put a piece of paper up her nose. Approx 1:30pm Director phoned ambulance and was advised of incident. Approx 2:30pm [redacted] arrived and also ambulance. Paramedics advised to take [redacted] to a GP.

At 2:30 pm inside the classroom [redacted] was bitten on the face by another child. An ice pack and first aid was applied. There was a pillow outside for children to sit on and [redacted] was walking past and tripped over the pillow falling and hitting his head on the concrete.

[redacted] suffered a Seizure at 9:50am on 10-10-13. The ambulance was called. Child was running when she tripped and fell on hands and knees, grazing her right knee and injuring her right hand. Parent took child to hospital where a fractured finger was diagnosed.

[redacted] noticed a rash on [redacted] neck when she was talking to her [redacted] then checked her body and discovered the rash was all over her back, torso, groin and behind her ears. [redacted] took [redacted] to [redacted] (Supervisor).

the child ran from the classroom to the veranda. Time 12:15pm. Because of the speed, he slipped on an outdoor mat & fell on to his side. He knocked his head on the floor upon impact but it was the metal hinge on the inside of his glasses which cut his eyebrow. We applied first aid immediately & stopped the bleeding completely after approx. 5 minutes. Child started to gag and when picked up by the educator he vomited and appeared to be choking. Educator called the mother and the ambulance. Ambulance arrived and was assessed and allowed to leave with his mother under the advise that they should visit a GP.

At 4:15pm in the top playground [redacted] was playing with peers on the fort with a slide. He fell off halfway down. He used his arm to brace his fall on the 'soft fall' ground.

Incident Occured on [redacted] at 3:50pm. Child was running through the digging patch in the big playground, tried jumping over the edging, caught his foot and fell over it sideways hitting his forehead on the wooden stepping stumps outside of the digging patch. Injury sustained was a large bump and graze to the child's forehead. Ice Pack was administered and child sat with educator in cooler area of the centre until parents arrived to collect the child. Parents sought medical attention, doctor requested parents to monitor child for 24 hours due to head injury. Child returned to care on the next booked day.

Entered by RAILN TRIM 13/365098 Group educator left the room to do the dishes and left the Assistant Educator alone. During this 5-10 minute period 4 children had locked themselves in it. A parent collecting their child noticed the children in the cupboard.

[redacted] informed the service [redacted] that another child had touched [redacted] on the vagina on the 11/10/2013 and that she was sore and red. Irrelevant information deleted pursuant to section 22 of the FOI Act.

3:10pm [redacted] noticed [redacted] was warm. Temperature was taken and parents contacted. Panadol was given and [redacted] was monitored. [redacted] noticed change in breathing and notified [redacted] [redacted] rang parents who requested an ambulance. Paramedics arrived at 3:50pm. Refer to attached form for more information.

[redacted] at approximately 4:45pm a staff member noted the child sitting on the floor near the fort area, she approached the child. The staff member noted the child had a cut to the left side of the forehead approximately 1.5cm in length. The staff member applied pressure to the area and notified the parent who took the child to the Doctors. At the Doctors the child received 3 stitches and glue to the area. The Doctor referred the child to have x-ray's and a CT scan due to the incident not being witnessed. The Centre Director will liaise with the parent as to the medical outcome and the child's return date.

Child walked over to the couch after morning tea. Educator noticed child started to slump, twitching and frothing at the mouth (approx 3:15pm). Child was placed in the recovery position and monitored while ambulance service stayed on the line until the paramedics arrived. Parents and ambulance called and arrived at the same time.

On 14/10/2013 at 2:50pm the child started to make gagging noises then began to vomit [redacted] picked [redacted] off the mat, and she vomitted again, then settled [redacted] place [redacted] back on the mat and [redacted] began gagging and vomiting again. The child vomitted for a few minutes, pausing to catch her breath. The child was treated at the emergency department and given hydrolyte to increase hydration levels. The parent took the child to the doctor [redacted] who requested a stool sample as the child has suspected Rota virus. The doctor advised the parent the child will be sick for a few days.

At 4:30pm an educator has heard the child cry. The educator approached the child and found her on top of the bike she was riding. The child did not advise of the injury and continued to cry. The right foot of the child was noted to be swollen.

[redacted] was standing at the table and slipped hitting his eyebrow on the side of the table.

At 10:15am [redacted] was in our [redacted] room when she fell to the mat and began to convulse. Amy contacted the office immediately to request an ambulance. Convulsion lasted for 60 seconds. [redacted] then vomitted. The ambulance arrived within 10 minutes followed shortly by the parents [redacted] was taken to Mater Childern's Hospital.

Child [redacted] 12:50pm Educator in nursery noted child's elevated temperature (38.8C) after rising from rest. Parent arrived 5 mins later, after being phoned by Service Manager. Temp had risen to 39.4C and Mum administered dose of Panadol. 30 mins later Mum was about to administer does of Nurofen, as per previous Hospital directions when child's eyes rolled back and started convulsing [redacted] phoned ambulance (000) at Mum's request who arrived within 10 mins and checked child (who had stopped convulsing) and transported child to Hospital. Child discharged by Hospital by 4pm. Mum phoned service to say that she was ok.

NOT - 40017483 - About 4pm ursua fell off a piece of equipment in the playground and hurt his head on the right side near his ear. No mark, cut etc so educators did not fill out an incident form. Turns out that he later had a broken arm so it was not his head that was injured.
14/10/2013 Child was playing on a see saw in the playground when she fell off sustaining a small fracture to her lower left arm.
NOT-40017490 TRIM # 13/371839 ursua jumped to the ground from the climbing platform and landed on his arm. parent notified staff on 15 oct that his arm was broken
At 1.30pm relevant information deleted pursuant to section 22 of the FOI and other children were sitting at the tables cutting and drawing. One of the other children advised the supervisor that ursua had cut her nose between her nostrils. The injured area was wiped clean and ice applied to reduce the bleeding.
14/10/2013 Child was asleep. When he stirred & whimpered, educator checked on him. He lay still then began to have a seizure which lasted 90 seconds. Ambulance was called and the child and his mother were transported to hospital
ant information deleted pursuant to section 22 of the FOI At 10.30am the child was dancing and spinning around when she tripped and hit her head on a wooden chair. An ambulance was called as the child seemed to be holding her breath and was unable to stay awake. Ambulance attended and checked the child. After examination it is believed that she may have kept falling asleep as she was holding her breath and that she was fine.
The parent arrived at the centre at 10.00am for a centre tour for a possible enrolment. The parent placed the child in the car to leave the centre when she has accidentally locked the keys inside the car. The child was also locked in the car. The Centre Director called emergency services immediately. The child was in the car for approximately 30 minutes before being rescued. RACQ and the Ambulance also arrived at the centre. Ambulance officers assessed the child and was showered before being transported to the hospital for assessment.
ursua was sliding down the slide on her back, feet first. As she neared the bottom of the slide she turned over and hit her nose on the side of the slide. 4.00pm in the big playground. She walked away from the slide and then laid down on the ground. The educator that witnessed the incident went straight over and ursua was crying and her nose was bleeding. Emergency services were not called as the bleeding stopped and ice was applied. It looked bruised and sore.
Child leted pursuant to s Incident happened at around 4pm on the verandah. According to child she hit her elbow on the verandah pole, walked a few steps and collapsed. Staff member found ursua lying on the ground unresponsive but breathing (this staff member was positioned 1 metre away). Ambulance was phoned immediately and the child gradually became more responsive. By the time the ambulance arrived the child was more responsive but still pale and a little drowsy. A staff member travelled with the child in the ambulance to hospital ant information deleted pursuant to section 22 of the FOI After 2 hours of monitoring and with no observable head injury symptoms, child was sent home with parent from hospital (approximately 6pm)
Child was scratched in the eye by another child during the course of outdoor play in the afternoon.
On 15 October 2013 ursua said her arm/wrist was sore after she had slipped off the monkey bar onto the soft fall. Staff member I pursuant asked Coordinator ursua to examine arm and ice was applied. No swelling or bruising. Child went back to indoor play after ice treatment.
Please see attached form.
At 4.10pm at information deleted pursuant to section 22 of FOI was playing on the flying fox, when she lost her grip and fell off ursua landed on her left wrist. Ice was applied to the injured area and her left arm placed in a sling. Triple 000 Ambulance was called and attended. ursua sustained a fracture to her left wrist.
At 3.30pm at information deleted pursuant to section 22 was playing on the playground when he moved to avoid another child. ursua fell to the ground landing on the rubber soft fall. ursua fell on his left forearm. An ice pack was applied and his arm placed in a comfortable position. Triple 000 Ambulance was called.
5pm - 15/10/2013 - Verandah outside area Children playing. child began to fit and first aid was applied by staff member, parent and ambulance called at 5.01pm. Grandparent arrived at 5.20pm as the ambulance arrived and monitored the child and suggested hospital visit.
At 3.40pm in the bottom playground (climbing/obstacle area) ursua was sitting on an A frame when another child threw a rock and hit him in the head causing it to gape open and bleed slightly. We immediately applied pressure to the area, cleaned and iced area. We then applied butterfly clips and a pad then bandaged the area as the parents did not know how long they would be.
At 4.15pm the children were in the classroom and the child was playing with a peer with wooden blocks. h deleted pursuant to section 22 of the FOI
Irrelevant information deleted pursuant to section 22 of the FOI Act
relevant information deleted pursuant to section 22 of the FOI A peer has accidentally dropped one on these planks on the child's hand during play. The plank is approximately 90cm in length and 10cm in width and depth is approx. 2cm. The weight is unknown. The Child went to the hospital and an x-ray showed a fracture to the left arm near the wrist area. The arm was placed in a 1/2 cast.
A child bumped into ursua on the oval. He fell over and hit the back of his head.
16/10/2013 - 8.50am in 2-5's playground Child stated he was hit by a ball. ed pursuant to section 22 of the FOI collected ursua and took him to the doctor who glued the cut.
Wednesday- 16/10/13 Adventure playground 4.45pm. The child missed a bar on the monkey bars.
At 3.45pm at information deleted pursuant to section 22 of the FOI was playing in the playground when she tripped. ursua sustained a laceration below her left eye. A sten strip was applied to the 1.2cm laceration. ursua was taken to Mater Children's Hospital where the injury was glued.
8.45am ursua kicked his left foot on as chair, causing him to fall and appeared to roll his right ankle as he fell to his right. ursua didn't put pressure on his foot after the incident and no swelling or bursae appeared.
Child fell from swing (approx 30cm high) onto sand softfall. Incident occurred at 4.15pm. 13/380416

3pm Front Playground, chelsea came up to her educator & said she ran into the pole, little bump on right side to forehead & bruise. on deleted pursuant to section 22 of the FOI Act was in the Playground when she felt severe chest pain. She then found it difficult to breath so an Ambulance was called. Time: 8.10am Ambulance called: 8.15am

8.45am [redacted] was playing in the outdoor area under the shade sail. He came to a staff member crying and holding his head which was bleeding. Cleaning of the area was attempted and mother called. [redacted] started to become disorientated and he was moved indoors. An Ambulance was called.

8.45am [redacted] was sitting at the preschool door and appeared upset. Educator noticed that his breathing was rapid and asked him to stand up. He appeared shaky and unsteady. His eyes rolled back in his head and he collapsed into educators arms. [redacted] was participating in a soccer game. he became angry and climbed the fence before staff could respond. This was observed and responded to by staff. [redacted] climbed straight back over.

Teacher noticed [redacted] crying on the obstacle course at approx 9.00 am. She looked as if she may have fallen between the rungs of a curved ladder.

At 11.30 am [redacted] was in the Bathroom and was receiving First Aid by the Centre Director on deleted pursuant to section 22 of the FOI Act. She was just about to put a band aid on his big toe, which was bleeding. As she did this [redacted] had a seizure in her arms. Paramedic's check his vital and [redacted] was awake and responsive. He was taken to hospital with Mum. He was monitored and blood was taken.

The Child [redacted] was sitting listening to a story when a child did a forward roll and brought their foot down onto [redacted] left arm.

Approximately 10.30am [redacted] tripped over in the Locker Room attempting to put her lunch box away. She fell hitting her head on the bottom of her locker.

NOT - 40017560 child hit on the head with shovel. Cut to head. ambulance called.

Outdoor Playground - Babies=2 and Toddlers=1 5.18pm [redacted] had a seizure. Parent was notified and ambulance called. Staff followed instructions from emergency phone operator.

[redacted] was playing basketball and [redacted] went to take the ball of another child. [redacted] left thumb got pushed back on child's hand. This happened approximately 4.27pm ambulance was phoned but cancelled on [redacted] request.

17/10/2013 5pm. Child was climbing on the play fort and jumped off the top of the platform onto the netting, falling onto his right arm.

on deleted pursuant to section 22 of the FOI Act fainted on deleted pursuant to section 22 of the FOI Act at approx 12.50pm. An ambulance was called

At 9.40am the child was jumping on a wooden box in the playground when she has landed on a nail. The nail was not rusty and the wooden box was made yesterday during craft time. The nail was still in the foot. The ambulance officers arrived at 10.10am and assessed the child. Pain relief was provided to the child. The child was transported the child to the hospital accompanied by the parent.

At 3.30pm [redacted] was running out in the yard. He tripped over a tyre and placed his arm out in front to break his fall. First aid was applied and emergency services (Ambulance) was called.

At 4pm at [redacted] information deleted pursuant to section 22 of the FOI Act was skateboarding [redacted] under supervision [redacted] fell on his left arm and sustained a bruise and an ice pack was applied [redacted] was taken to the hospital for an xray on Saturday 19/10/13. Irrelevant information deleted pursuant to section 22 of the FOI Act he has a joint effusion.

[redacted] was discovered in toddler bathroom being sprayed by another child with disinfectant. He was showered and eyes rinsed on advice from Poisons Information Service who were contacted at 4.20pm. Followup [redacted] was taken to the Mater Children's hospital by his mother. The doctor at the hospital flushed out [redacted] eyes again and then he was sent home. [redacted] has returned medication deleted pursuant to section 22 of the FOI Act with no evident side effects from the incident.

9.45am [redacted] was sitting at kitchen table on a child booster seat that was attached to the a chair. She pushed on the table and moved the chair back and tipped the chair backwards onto the floor. Educator called an ambulance at 9.55am

Incident occurred approx 5.15pm in activity building. [redacted] was sitting on a chair watching TV. Suddenly he screamed and turned around where an educator saw he had a toy plane on his eye. 5.17pm emergency services contacted. TRIM REF # 13/389296

Entered by RALN TRIM: 13/376317 Children playing at part [redacted] was climbing a tree and fell down, landing on his right hand wrist. Mum notified [redacted] 10am 22/10/13 saying overnight she had taken [redacted] to doctor and was broken. [redacted] (Child) overbalanced and fell off the fort onto the soft fall, landing on his left elbow- 11.00am

[redacted] was jumping from the jouncing board onto thick matting. She fell and landed played flat, with her arm out from her body. She did not cry. She said she could not move her arm. She could wiggle her fingers. [redacted] to doctor and was broken. [redacted] walked to the veranda. Her parents were called and her father came at 10am.

[redacted] and another child were playing, falling over a pillow, causing [redacted] to fall landing on his finger / hand. Incident occurred at 2.25pm in junior toddler room. Mother called. Trim Ref # 13/382475

Entered by RALN TRIM: 13/376247 At 9.00am [redacted] was walking when he tripped on a cushion just outside [redacted] information deleted pursuant to section 22 of the FOI Act playground. After calming [redacted] down we removed him from the playground and called an ambulance at approx 9.05am. Duty of care was passed onto paramedic when he arrived at approx 9.30am.

	Toowoomba	[redacted] pursuant to section 22 of the FOI Act	No	No	No	Yes	No	No

At 4.20pm a [redacted] information deleted pursuant to section 22 of [redacted] was doing handstands on the gym mat [redacted] deleted pursuant to section 22 of [redacted] fell onto her left wrist and hit the back of her head. She said she had pain in her arm only. An ice pack was applied. Triple 000 ambulance was called at 4.45pm and taken to the hospital at 5.20pm. Mother called in the evening to state that [redacted] had sprained her wrist only. No break was sustained.

[redacted] and another child were playing in the home corner when the other child stuck a matchstick into [redacted] left ear at 10.30. Educator heard [redacted] cry and [redacted] told her what had happened.

Morning inside playing – 10am onwards [redacted] engaging on mat with other child. [redacted] hit by a metal tin hitting under his left eye. A small open wound appeared immediately.

TRIM: 13/382510 Entered by RALN Outdoor obstacle course in centre of yard, 3.15pm. Educator in immediate area, 2 Educators just outside area. [redacted] ran down beam angled with A Frame. another child moved across and they collided.

[redacted] complained of a sore vagina to parents at home [redacted] deleted pursuant to section 22 of [redacted] When checking it was discovered her vagina was bleeding. Parents took [redacted] to Mater Children's Hospital, doctors & child protection checked & spoke to [redacted] [redacted] said it hurt from towel when showered at kindy (due to bowel motion soiled undies) sand was also in undies from afternoon outdoor play. doctors & child protection happy with [redacted] injury being consistent with her description of what happened & did not want to investigate further.

On 24/10/13 at 2.30pm at educators home in play room [redacted] knocked [redacted] plate of food off table and [redacted] picked up a piece of carrot and put it in her mouth [redacted] started crying and [redacted] picked her up and administered 5 blows to shoulder blade. She started turning blue and [redacted] retrieved carrot from airway and call ambulance.

On the 25/10/2013 at approximately 7.45AM the child was playing near the external wall [redacted] information deleted pursuant to section 22 of [redacted] deleted pursuant to section 22 of [redacted] The child was heard crying, holding his finger and pointing to a snake which was lodged between the bottom of the external wall and the ground (astro-turf). After inspection of the child's finger that he was holding the educators assumed that the child had been bitten by the snake and informed the Nominated Supervisor immediately. The Nominated Supervisor contacted the emergency service via telephone calling 000. All children were relocated back inside the centre. The educator applied first aid to the child. An ice pack was applied to the finger while a compression bandage was put onto the child from his shoulder down to his hand. The child was then moved into the office while we waited for the ambulance to arrive. The child was taken to the base hospital, with the Approved Provider, where they conducted blood tests to determine if the child had been bitten. The test came back negative. The child will stay at the base hospital for further monitoring and another blood test. The snake catcher was called at 10.14AM and upon arrival he confirmed the species of the snake was a baby brown tree snake. The snake could have come from the vacant block on the north side of the centre that is starting to become overgrown or it could have come from the trees that line the neighbours on the south side of the centre.

At 3.55pm a [redacted] information deleted pursuant to section 22 of [redacted] was running from another child whilst playing tag. [redacted] slipped causing him to fall over and strike his head on the corner of a concrete seat. Paper towel and pressure was applied to the gash above his left eyebrow by [redacted] deleted pursuant to section 22 of [redacted] grandparent took him to the doctor where the wound was sealed.

[redacted] told her mother that she fell onto a piece of playground equipment and hurt her pubic area. [redacted] notified staff that the area was bleeding and made enquires as to what had happened. [redacted] told her mother that she fell on the rock climbing wall and that a staff member had provided her with an ice pack. No injury had been reported by staff and at no time was an ice pack provided, as the CS was in the area that they are kept. A staff member did recall that they had seen [redacted] crying earlier and she was comforted by an agency staff member briefly before going back to play for the rest of the day. This was around 4pm. She was collected at 4.55pm. We are following up with the agency to speak with the staff member.

At approx. 3.25 while playing [redacted] appears to have been kicked in the face when another child did a cartwheel. She informed staff and was provided with an ice pack. Staff could not see any marks, swelling or cuts. She was kept inside playing quietly while under staff observation. After about 15 mins she told staff she felt funny and started to get upset. Staff attempted to contact her mother. Her condition seemed to deteriorate and she was unable to recall the incident at all. Staff called an ambulance at 4.09pm, and informed mum at 4.14pm. [redacted] became drowsy and started vomiting. Mum arrived at 4.20pm. Staff called again for the ambulance, which arrived at about 4.27pm. [redacted] was taken to the hospital in the ambulance at approx. 4.52pm. Mum notified staff on 26/10 via text that she was fine, but Doctors suspected a concussion.

Child was playing outside went to sit in a toy wheelbarrow which caused the wheelbarrow to tip resulting in the child falling and hitting his forehead on the cement.

Time – 9.10am Date – 25/10/2013 [redacted] was playing on the fort outside when he tripped forward, falling and bumped his head on the bar/iron steering wheel. The caused an egg to appear on both sides of his head. Ice pack applied straight away.

2.45-3.15pm the child is usually collected from [redacted] deleted pursuant to section 22 of [redacted] The child was safe and [redacted] contacted the child's father.

Child was swinging on monkey bars and fell.

At 5.20pm The child was playing in the playground when the parent arrived to collect the child. The parent noted the child did not look well and consulted with another educator. The child appeared to be very lethargic and her eyes were rolling back. The parent was very concerned as the child was not responding. Ambulance officers were called to attend the centre. Ambulance officers arrived at 5.40pm and assessed the child. The child's temperature was taken and read 36.5 degrees. The child was breathing normally at the time. The body stiffened for approximately 3 seconds. The child was quite distressed by this time and was transported to the hospital. TRIM REF # 13/385162

At 2.05pm educators noticed that the child began having a convulsion shortly after the rest period. The child began making an unusual noise, then vomited (reflux milky vomit) and his body trembling. The convulsion lasted approximately for one minute. The child remained groggy after the seizure. The educators immediately called for an ambulance.

28/10/2013 - 2.30pm Child was moving along the lower deck in the playground and jumped off the edge landing on his side on the softfall. Child complained of sore left arm & staff noted a lump on his elbow. Ambulance was called.

The child was struck on the back of the head with a small log. There was a cut and bleeding. Incident occurred at 11.15am. First aid was applied and an ambulance called.

Entered by RALIN TRIM 13/385633 10.30AM 29/10/13 [redacted] outside sandpit [redacted] and a few of his peers were playing with the 'mud' (they were mixing sand, water, sticks and rocks in buckets). All of a sudden [redacted] ran out of sandpit with his finger bleeding saying 'I'm bleeding'. When asked what happened he said 'the rock hurt his finger'.

At 1.45pm on 29/10/2013 an incident occurred where [redacted] fell off a foam block approximately 7cm high and landed awkwardly. A cold compress was applied to the right knee. The child was taken to a doctor and the father and at 4.10pm the centre was informed that [redacted] had broken his femur. At 4.25pm a follow up phone call from the mother to inform us that [redacted] has a spiral femur break and he will be in traction in hospital for 3 to 4 weeks and that the break is common from an awkward fall not a fall from a height. The centre manager has kept in contact with the family and we will continue to support the family during this time.

4.40pm Babies room, [redacted] who is not yet walking, was standing at the table and lost balance and hit his cheek on the table as he fell.

Time: 3.40pm Area Front Playground [redacted] was supervising, she heard [redacted] crying turned around he was on the ground and relayed that he ran into his friend, [redacted] picked him up, [redacted] eventually relayed his leg was sore, there was no mark or swelling. Ice was applied, [redacted] sat for a while then when he went to stand up he said he couldn't walk his leg was still sore. Dad arrived at this time.

Entered by RALIN TRIM: 13/388740 Attached  
NOT - 40018201 - TRIM # 13/396013

Child was walking along balance beam when she lost her balance and fell onto softfall. Child seemed a little dazed and said her arm was sore. Educator assessed situation, applied first aid and contacted parent.

10.35am in the babies room, [redacted] stepped towards the bay window shelf & fell forwards. [redacted] approached me with a cry & I noticed a slight red mark on the left side of his cheek. I checked for a bruise & checked his mouth for blood. [redacted] came back from her morning tea break & changed [redacted] happy noticing that one of his front teeth had a chip in it.

3.40pm While playing chasey in the playground, child fell off the playground onto the softfall landing on her stomach and right arm. Mother took child to hospital as the arm had been broken previously.

The three boys were in the Junior Kindy playground and they pushed on the double gates which opened and they got into the grass paddock. Irrelevant information deleted pursuant to section 22 of the FOI Act. Report attached.

Time: 3.45pm [redacted] deleted pursuant to section 22 was leaning against a door (gate) [redacted] deleted pursuant to section 22 another child pushed the gate opened, [redacted] deleted pursuant to section 22 standing on her hands. No visible sign of injury - ice pack on arm. TRIM REF # 13/398672

3.50pm fort at [redacted] playground [redacted] jumped off the fort and landed on all 4 limbs. She lost her balance and complained of a sore left wrist. The next morning her Dad returned to inform the service that [redacted] had broken her wrist in two places.

At 3.45PM [redacted] deleted pursuant to section 22 (Child) was jumping over a soft crawling tunnel in the soft fall area when he fell causing him to fall on his left arm in the playground (see incident report). An ice pack was immediately administered to the left arm to reduce swelling. Whilst the father was present, Panadol (10ml) was given at 4.00PM together with a sling and an ice pack to reduce swelling. The child was then taken to the doctor by his father. [redacted] deleted pursuant to section 22 Centre Manager) was notified by [redacted] deleted pursuant to section 22 that [redacted] had been to the hospital overnight and they are suspecting a dent in his left radius [redacted] has a half cast on his left arm from his armpit to his wrist. Irrelevant information deleted pursuant to section 22 of the FOI Act.

[redacted] On Thursday afternoon on 31/10/2013 we were informed by the mother that it is anticipated that [redacted] will be returning to care on Wednesday. [redacted] We will continue to keep in contact with the family during this time. TRIM REF # 13/389544

At 4.30pm on the 30/10/13 in the Pre-School yard [redacted] was pushed by another child off the slide. [redacted] landed on the soft fall on the left side of his body.

[redacted] did not arrive to ASC, mum called and at 3.40pm police called as staff had not heard back. Mum called and left message at 4pm to say he was safe.

Child [redacted] had walked to his house and then his grandmother's house- on his own.

[redacted] was participating in a [redacted] ASC lesson of cricket on the [redacted] deleted pursuant to section 22 She tripped while running, putting her hand out to break her fall. Her arm was immediately painful. 4.32 pm [redacted] applied an ice pack to the area. [redacted] supported the left arm and applied a sling, made [redacted] as comfortable as possible and called her mother who then took her to her doctor. We were later informed that [redacted] arm was fractured.

[redacted] woke up with a sore arm. The educator advised the parents to seek medical attention. The Doctor confirmed that [redacted] had a dislocated elbow.

At 8am the child was sitting on a push along bike when she lost her balance and fell bumping her arm on the soft fall area.

At 4pm was in the garden watering the plants and she cut her toe on the garden edging.

At 7am the child was running on the Veranda when he has tripped over his own feet. This resulted in the child falling sideways and landing on his shoulder. The child still had full movement of the arm and shoulder. The child was taken to the doctor and it was discovered that he had a broken collar bone.

At 3pm [redacted] was playing outside [redacted] with other children when he was tickled by another child while on the ground. He flung himself backwards in excitement hitting his head on the bottom of the downpipe. First aid was administered - wound cleaned and ice pack applied. Nominated Supervisor attempted to contact father [redacted] but was unsuccessful so contacted [redacted] (grandmother) who collected [redacted] at 3.10pm and advised the Nominated Supervisor she would be taking [redacted] to a doctor to have it checked out with it being a head injury. [redacted] advised the Nominated Supervisor on Friday 1st November that [redacted] head had been glued and that [redacted] would be back at the After School Care program that day. Child was listed on ASC roll and did not arrive within 10 minutes [redacted]. All contacts on enrolment were called by staff without answers. Police were then contacted, who tried also to contact the family. Both parents called the service after 5.00pm to advise the mother had collected the child from school.

[redacted] was climbing on the couch in the Kindergarten room when he fell and bumped his head on the ground. [redacted] didn't arrive for ASC. Staff tried to call mum and searched grounds. Police called at 3.30pm, mum called at 4.40pm to notify staff she had [redacted].

At 12.40 we started packing away from our obstacle-athon. [redacted] and another child were leaving as two other children came in with a plank. The other child pushed past these two plank-carriers, causing one to drop the plank. The other child also let go and the plank dropped on [redacted] foot. We called mum who came to fetch him. Dad took him for an x-ray. No breakage can be seen.

Name of Child [redacted] Name of Child [redacted] Information deleted pursuant to section 22 of the R Circumstances leading to the incident [redacted] and [redacted] took a ladder and used it to climb the side fence at approx 3.30pm. Action taken - Children returned over fence to playground. Ladder removed - children spoken to about use of ladder. Staff spoken to about communication, re - supervision. All children accounted for Ratio control sheets checked, all children/staff in ratio.

The Child [redacted] fell off the couch and was crying. She was holding her breath and then her body went limp.

The Child [redacted] was climbing on the timber balustrade around the outdoor veranda when he fell, hitting his mouth on the rail - knocking out right upper central incisor.

The Child [redacted] had yoghurt for dessert as wasn't able to have lamingtons due to containing egg. [redacted] reached and took a handful of lamington from the other child and had a mouthful. Educator called Ambulance and Mum came back and let us know that they had administered Prednisone as his tongue had swollen slightly on the outside, she said that he was fine and was eating a second lunch.

4:28pm Big oval [redacted] was swinging on the monkey bars. He told me he slipped. I heard him scream out. Another educator ran over to us. 4:30 reported to co-ordinator. 4:32 rang ambulance 4:32 rang [redacted] co-ordinator administered first aid and stayed with [redacted] 5pm ambulance arrived, [redacted] arrived at approx. 4:45pm.

At 5.20pm [redacted] was walking near the picnic table when another child ran into [redacted]. The other child's head collided with with [redacted] forehead leaving a 2cm split above the right eye.

9am outside in the playground, [redacted] was playing on the concrete area when he lost his footing & fell over hitting his mouth on the concrete. No toys or structures were involved.

Child didn't show up for ASC. Staff followed policy, trying to contact parents and then when location of the child could not be confirmed by 3.30, police were called.

[redacted] was jumping off the tyres in the sandpit. He had a plastic shovel in his hand at the time. The shovel hit the sand closely followed by [redacted] head. When his head hit the shovel it caused a small hole in his forehead which bled. This occurred at 3.30pm on the 1/11/13 in the sandpit in the large playground. [redacted] was in close proximity reaching him within seconds of the incident occurring and began applying first aid and asking a fellow team member to contact his family.

[redacted] had been generally unwell since lunch time. After 4pm she had a temperature and some time after 4.30pm appeared to have a seizure in which an ambulance was called. A staff member went with [redacted] in the ambulance. When dad arrived at hospital some time after he didn't keep [redacted] at the hospital and carried her back to his car. TRIM REF # 13/392592 See attached sheet.

[redacted] was playing in the playground at Before School Care and was holding his hat in one hand and swinging on the monkey bars with the other hand. He then swung on the bars using the hand that was holding the hat and he slipped and fell off.

Entered by RAILN [redacted] was standing on a play tunnel (57cm high) & fell forward. She put her hands out to take the fall. [redacted] was in our Kindy/Pre yard. The accident happened at 3.43pm. Parents took [redacted] to the hospital - a broken arm was diagnosed. At 12.15 [redacted] was crying. He said that another child hit him with a metal dessert spoon. He had a small cut on his bottom lip and his bottom tooth was chipped. Observed a red mark on the back of the tooth.

The child had been unwell for 3 weeks and has been tested positive for whooping cough. Test results given on 04/11/2013.

At 11am the child and a peer were playing on the See Saw, and the other child jumped off. This resulted in the See Saw swing down a bumping the child's mouth. The incident caused the two top central incisors to become dislodged.

At 4.02pm after a behavioural incident, [redacted] ran from the service. Staff followed but lost sight of him. Staff located him at a playground at approx. 4.22. He would not return to the service so staff sat with him until his mother arrived at 4.50pm.
at 3.30pm [redacted] was playing when he fell and landed on his arm. Staff spoke with his mum at 3.40pm, after applying first aid. Mum declined calling an ambulance, and arrived within 10 minutes. Mum notified staff the following day that [redacted] had broken his arm.
Entered by RAILN TRIM: 13/409175 At 5 pm [redacted] began crying. He was sitting on the ground holding his shoulder. He had been running with peers. Educators looked for an injury. Parent arrived as this was happening and they took him home. Parent phoned centre next day (14/11/13) to advise that [redacted] had fractured his collar-bone and is wearing a sling.
Entered by RAILN TRIM: 13/409123 [redacted] was spinning around in play and fell over. There were 3 staff [redacted] and [redacted] 29 children (Please see below for staff members full name)
Approximately 3.50pm [redacted] fell from the flying fox, hit his head on the platform causing approximately 1 cm cut to the back of his head. Paramedics were called to assist. [redacted] was not transported to hospital as his Nan [redacted] transported him to the doctor.
Information deleted pursuant to section 22 of [redacted] was playing a game in the undercroft. [redacted] fell and hit his head. An ice pack was applied and he was monitored. [redacted] mother took him to hospital after he was collected. [redacted]
Entered by RAILN TRIM: 13/406699 Incident occurred from 8.30 to 9.20am All information is contained in the report.
Entered by RAILN TRIM: 13/414636 [redacted] was walking (while playing a game. Stay off the ground tigy) and stepped up onto the large stepping stone and skidded, then tripped over her own feet and tangling her feet up together, then fell face down on the ground in sandpit.
[redacted] was playing nicely in the [redacted] room when she tripped over a toy drum and bumped her chin on the floor. She received a 1cm cut. Medical treatment was sort and a stitch required. She returned to care.
4.30pm [redacted] got his foot caught in the climbing equipment causing him to trip onto the plastic platform in adventure playground. He received a gash to his forehead. Ambulance was called and referred [redacted] Trauma Centre.
[redacted] fell and bit her bottom lip. TRIM: 13/409381
[redacted] & 2 other boys were playing a chasing game and falling at the end of the playground. When they all fell they accidentally kicked [redacted] in the mouth causing his teeth to go through his lip.
At 9:15am in the educators backyard [redacted] fell and hit the right side of her forehead on the corner of the house bricks.
[redacted] (staff member) was feeling faint, had pain in the chest and flushed face. She was taken to the parent room and an ambulance was called. Ambulance arrived, after taking vitals, blood pressure was high, they decided to take her to QEII hospital.
At 8.25am the child was not settling. The child has a known condition of [redacted] The centre has a medical management action plan in place for the child and the condition is managed through this. The child seemed to be unsettled after drop off. The child advised [redacted] that he did not feel well and then vomited. The CD gave the child an emergency dosage of his medication as per action plan and then called the parent. The child then vomited for a second time. The parent advised over the phone to administer two tablets additional tablets. The child had vomited again before the CD could administer the tablets. After vomiting the CD gave the child the two tablets when the parent arrived. The child has then vomited excessively where the parent administered 3 tablets. The child asked the parent to take him to the hospital. The child was taken to the doctor. [redacted] bted pursuant to relevant information deleted pursuant to section 22 of the FOI Act
At 5.15pm at [redacted] information deleted pursuant to section 22 of [redacted] was showing a staff member how fast she could run on the race track in the playground. As [redacted] came to the end she fell backwards over a all and hit the back of her head on the ground. An ice pack was applied to [redacted] head. [redacted] was taken to the doctor's after she arrived home as she started vomiting. [redacted] parents then took her to hospital later Friday night and she was admitted early Saturday morning under observation for a moderate head injury (concussion).
10.10am Outdoor Play [redacted] information deleted pursuant to section 22 of the FOI Act playing on hill area alongside of his Peers. Educator witnessed [redacted] bump his head, asked if he was ok. Acknowledged [redacted] as he was crying. Approached [redacted] has a breath hold and noticed cut on head.
At 2:35pm the child was running over to the sandpit and has jumped into the sandpit landing on his knees. From landing on his knees the child has put his hands out to stop his fall. The child has hurt his right wrist. The child also advised that the right side of his neck is sore as well. The child was referred to have an alter sound, which confirmed of the green line fracture to the wrist.
An incident occurred in the Nursery room adjacent to the kitchenette door at 3:50pm on 15/11/2013 a [redacted] in deleted pursuant to section 22 of the FOI Act when [redacted] (child) had her finger in the door hinge when another child shut the door, squashing her right pinky finger causing swelling and bruising. The finger was held under cold running water and ice was then applied once the finger showed signs of swelling. On Friday afternoon Mum informed the Centre Director that there was no break and it would just bruise over the weekend. The child returned to the service on Monday, 18/11/2013 and the swelling and bruising had almost cleared. Maintenance will install a finger guard to all of the kitchenette and half doors throughout the centre.
Child was accidentally left on bus at drop off time. Staff unaware until mother arrive at service to find him. Appears child had fallen asleep in corner of rear seat. Time on bus appears to be approx 1 hour. Bus was parked in the shade. When staff member found him he was hot and sweaty and bewildered but otherwise ok.

11.05am whilst playing outside, [pursua] came to me complaining of a sore neck (left side). He was just walking. We asked him to sit quietly and have a drink. He went inside and whilst playing with the iPad was in quite a lot of pain and crying. We applied an ice pack to the left side of his neck, keeping him sitting in a comfortable position.

3pm - 15/11/2013 in Toddler wing playground on softfall area, [pursua] was at the top of the plastic slide ready to go down when it toppled. As it toppled, [pursua] fell off and bumped his head on the wooden pole. [pursua] never lost consciousness. He did not vomit at any time. TRIM REF # 13/409524

Entered by RALN TRIM: 13/445674 In the pre prep room, [pursua] was sitting at a table colouring in when she slumped in her chair. The educator went to her and picked her up but found she was not responsive. Her eyes were dilated and she had wet herself. Her breathing was normal she was very pale.

8.30am Child climbed onto a table. Child jumped from table hitting his head as he went down. Cut to mouth and tooth knocked out. At approximately 9.30am the child approached an educator to show her, her toe. It is unclear at this stage how the child has hurt herself. The child sustained a cut to the inside of the left big toe. The toe nail appeared to be lifted. Pressure was applied to toe to stem the bleeding. An ice pack was also applied. TRIM REF # 13/412536

At 4.10pm ant information deleted pursuant to section 22 of the [pursua] was outside playing in the upper playground. Two children had folded [pursua] into a soft fall mat and sat on top of him. An employee [pursua] observed [pursua] had protruding from the mat and ran to unfold it. She found [pursua] in an unusual position, blue in the face and he didn't seem to be breathing. [pursua] was carried in the foetal position with his head back to assist in opening his airways. [pursua] massaged [pursua] chest. [pursua] started breathing after a short time, the blueness had gone and he started to open his eyes. Triple 000 ambulance was called and transported [pursua] to the hospital.

Tues 19 Nov - Bite was noticed on left wrist (2.00pm). - Staff Member called Dad (2.15pm). Dad said he would come straight away and take to doctors. - Director decided not to wait any longer for father and called an Ambulance (2.30pm). - Child's Father arrived (2.40pm). Director asked Father to wait for Ambulance. - Ambulance arrived (2.45pm). - Ambulance took [pursua] and her father to hospital in Ambulance (2.50pm). - Parents contacted Director to update on situation. Mother stated: "Doctors suspect just ant bite or such but want to rule out snake bite so are doing blood tests etc" (4.00pm) - Doctors from Hospital called Director to ask questions and explain findings. Doctor stated: "It does not appear to be anything more than a bad reaction to an ant bite. however, we want to keep her in to be 100% sure that we can rule out a snake bite". Doctor asked: "Do you have any snakes and/or spiders in the rooms?" - Director replied "None that we are aware of!!!" - Hospital kept her in over night for observations (suspected snake bite procedure). - Director phoned Parent to follow up and see how situation was. Parent explained everything was fine, child was fine and happy, swelling had decreased dramatically and she was settling in for a night of 'observations' (8.00pm). Wed 20 Nov - Parents called Director and explained that Hospital finding was that it is NOT a snake bite. Simply an ant bite or such that she had an allergic reaction to. Parent thanked Director and staff for the way situation was dealt with. [pursua] was discharged from hospital approx 10.00am (20 Nov 2013). TRIM REF # 13/414891

At 9.40am [pursua] was playing with his friends on the grassed area in front of the shed. He ran to go over to another area and he stumbled on the grass, falling sideways and hitting his left cheek on the log retaining wall.

Entered by RALN TRIM: 13/414699 Outside playtime, [pursua] was jumping on the low jumping board, when he fell off, landing awkwardly on his right arm - forearm. [pursua] was not moving his arm and seemed in a lot of pain.

At 3.30pm staff called the police station to notify them that they boys hadn't turned up to ASC. Mum was called again and confirmed that they should have been at the service. At 3.50pm the boys and their sister [pursua] arrived at the service to let staff know they were okay.

[pursua] fell off of the activity fort. He landed on the soft fall. His shoulder was sore, ice was applied and [pursua] continued playing normally.

At collection child climbed onto trampoline and her jumping caused her to fall heavy and she also landed on her drink bottle (see attached incident report)

[pursua] was playing on the couch outside with 2 other children when he stood and fell off the couch and hit the right side of his head on the concrete cutting is open, approx 1.5cm in length.

[pursua] had a temperature of 39.7c at 11.10am. Parent was called. Panadol was administered. Temperature then dropped and raised again. Parents were non-contactable. Ambulance called. Reports attached.

[pursua] was asked to go wash her hands after getting nappy changed. In doing this she has slipped hitting her chin on the basin and then falling straight onto the floor, hit her lower lip and sustained a laceration. Immediately the mouth was washed out and it was seen that she has bitten down on her lip and the tooth has gone through. Child was taken to doctors on mother's request. TRIM REF # 13/413060

[pursua] lost his balance and fell hitting his head on the ground resulting in a graze to his forehead and a fat lip as his teeth went through his top lip.

At 4.00pm Child stepped off his skateboard and another child's board collided with his ankle.

At 4.20pm ant information deleted pursuant to section 22 of the [pursua] was swinging on monkey bars. She lost her grip and fell, face first on a wooden platform and her tongue was deeply cut by her teeth. First aid was administered by placing a gauze to stop the bleeding. Triple 000 ambulance was called. They transported [pursua] accompanied by the service coordinator [pursua] to hospital where her Aunt [pursua] met them. TRIM REF # 13/414935

Undercover area - at 4.05pm child slipped whilst playing a ball game. Educators attended, immediately provided first aid. Decided to call paramedics at 4.05pm, mother called at 4.11pm, ambulance arrived at 4.15pm

The incident was not witnessed. At 3.40pm the child has told the educator that he slipped and lost his footing by the swing. This resulted in the child falling down and hitting his head on the edge of the wooden boarder, which retains the wood bark. Ambulance was called at 3.50pm and arrived at the centre 4pm and the child was taken to the local hospital.

On the 20.11.2013 at approximately 11.30am a staff member [redacted] went to lift a child out of a highchair and began experiencing pain in her chest. An Ambulance was called at 11.35am and arrived approximately 15 minutes later. The ambulance needed to stabilise the educator before transported her to the hospital. The educator remained in hospital overnight with a suspected heart attack.

[redacted] failed to meet the educator in the agreed place.

[redacted] was sliding down the slide as she had her hand pulled by another child at top of slide. The pull on hand resulted in pain and ice was applied. Parents took [redacted] to hospital and doctor found wrist was dislocated and he popped it back into place. TRIM Ref # 13/416821

Location - Playground obstacle course. Activity - free play [redacted] was playing with friends on the obstacle course. He was observed crying and holding his arm. Another child explained he fell on his arm when climbing on the small A frame. First aid was administered and the mother was called. After attending the doctors his mother advised he had a buckle fracture on his arm.

[redacted] was playing in the [redacted] large playground, kicking a ball. She then lost her footing when she went to kick the ball next and fell backward hitting her head on the corner of one of the square poles on the fort at 3.50pm. [redacted] sustained a cut to the back of her head on the right approximately 1cm long. [redacted] mother picked her up at 4.10pm and took her to medical centre. Incident report attached to this notification and [redacted] mother requested to sign the incident report when she was at the centre next. TRIM REF # 13/421588

Children were playing croquet. [redacted] bent down to pick something from the ground and simultaneously another child swung the croquet mallet catching [redacted] on the chin, resulting in a deep cut. TRIM REF # 13/421638

Child was playing tag, looking behind her as she ran and ran into a shade sail pole. Ear was split and bleeding, cartilage appeared exposed. Parents some time away so ambulance contacted.

Slipped, turning ankle and falling on to it while on playground equipment.

[redacted] did not arrive to after school care. Both parents were contacted and they informed she should be at after school care. Service staff and teachers were looking for child. Police were called.

[redacted] was attempting to get onto the chair, he was on his knees when he fell backwards onto the vinyl floor.

[redacted] she child was attempting to jump between platforms in the playground when he slipped hitting his face on the platform. Educators applied an ice pack. [redacted] the child was taken to the doctors and was told no further treatment required. On 06/12/2013 the service was advised by the parent that the child had an x-ray. [redacted] The result of the x-ray was a small concave fracture to the left side of the nose and soft tissue damage around the eye socket. No further treatment is required.

At 5.30pm [redacted] was in the kindy room from 5pm to 5.20pm and then brought the 7 children down to the pre kindy room. He then went to the office to pick up the phone and the rota bring them back to the pre kindy [redacted] then went across to the store cupboard, to put the roster on top on his bag in the cupboard. [redacted] went to open the door, but it didn't open properly. He then popped his head round the door and discovered [redacted] sitting on the floor playing with the truck and tea light candles. [redacted] asked [redacted] to hop out of the store cupboard and turned to [redacted] and stated "How long has [redacted] been in the store room?" [redacted] responded "I was not aware he was in the store room".

[redacted] did not turn up to After School Care. Both parents were contacted and they confirmed she should be at after school care. Service staff and teachers were looking for her. Police were called.

At 2.30pm the child was holding his elbow when a staff member asked what had happened. The child did not respond. The child previous to the incident was noted to be sliding down the slide head first. An ice pack was applied to the area.

At 4.15am the child advised the CD that her foot was hurting and she wanted her shoes on. On the 21.11.2013 the parent advised the CD that she had taken the child to the Doctors where it was determined the child had a broken big toe (left)

3.40pm - [redacted] tripped walking out of sandpit and fell onto path. Upon crying, staff turned to see him on the ground. Checking for injury 2 indentations noticed on face. Child consoled. Dad arrived within 5 minutes however once home showed signs of concussion. Centre suggested a Doctor check as mum called to ask about the incident.

The group of children were playing in the school playground when a tree limb fell from a gum tree and hit the child on the head causing a gash. An ambulance was called and child taken to hospital.

Entered by RALIN TRIM, 13/431188 At 3pm [redacted] had been signed out by Mum, but was still playing in playground while Mum collected his belongings and attended to [redacted] stepped off the climbing structure onto softfall, putting his tooth through his lip and hurting his right forearm. X-rays show no break to arm!

[redacted] was playing in prep-playground in the Fort at approximately 5.00pm. He slid down the pole and landed awkwardly on his elbow. First aid was administered immediately and [redacted] parent called. Parent sought medical advice after picking up [redacted] On the Monday we were informed that [redacted] elbow had been broken.

TRIM REF # 13/420110 [redacted] had a chronic toxic seizure. Educators placed her in the recovery position supporting her head and all objects causing any harm were removed from around her. Nominated Supervisor and parent was notified. Ambulance was called. A parent who is a nurse in the emergency department was at the service and also assisted.

At 5.15pm a [redacted] (Parent) had buckled her child into the car seat and had gone round to the driver's door. The parent thinks they stepped on a small stone and this resulted in [redacted] going over on her ankle. [redacted] (an educator) saw the incident from the playground and she ran out informing Centre Director of the incident. Ambulance was called at 5.20pm and arrived 5.40pm taken the parent to hospital.

At 2.45pm on the 22nd of November 2013 [redacted] was playing with another child on the self select mat. They both went for the same toy, bumped each other and [redacted] bumped the left side of his head on the toybox.

At 9:30 am [redacted] was running outside in the playground, when he tripped over his own footing and hit his head on the corner of the play table, leaving a small cut on his forehead.

During morning outdoor play [redacted] was swinging on the low bar on the play equipment. He fell off the equipment onto the ground. He said that he landed with his arm under his body.

On the 27.11.2013 at approximately 4:45pm the child was climbing on the obstacle course when she was knocked by another child causing her to fall forwards and bump her mouth on the plastic plank attached to the obstacle. The child sustained bleeding from the gum above the top central incisor tooth. [redacted] information deleted pursuant to section 22 of the FOI. The child was taken to the Dentist, where it was determined the child should see her specialist.

Child slid down the fort slide on her stomach approx 10am. A splinter of wood lodged under her toenail.

Sometime on 27/11/13 child found a screw head and placed it in his ear during his time at [redacted]. Child told his mother after care and parent used a torch to look in his ear where she could see something shiny. Family attended ER [redacted] information deleted pursuant to section 22 of the FOI. Relevant information deleted pursuant to section 22 of the FOI. [redacted] where the screw head was removed [redacted] deleted pursuant to section 22 of the FOI by ENT specialist.

Entered by RALYN TRIM: 13/445651 Please refer to attached document

Time 9:30am during outside time. Pre prep playground [redacted] was standing on the small connector blocks when they slipped out, from underneath causing [redacted] to lose his balance. He fell backwards hitting his back and head on the step of the fort. Recommended a doctor's visit to mum on arrival to collect.

At 4pm the child climbed out of the ball pit and fell, landing on her left arm. The child was taken to seek medical treatment, an x-ray determined the wrist was fractured. The bone was set by GP.

On their way home from [redacted] information deleted pursuant to section 22 of the FOI informed his mother that his ear was itchy. He also stated that another child had placed a bead in his ear to see what would happen. Staff were not aware of the incident. [redacted] was taken to the doctors however they could not remove it. He was then taken to Gold Coast Hospital and they could not remove it and suggested seeing a specialist. [redacted] is booked into [redacted] information deleted pursuant to section 22 of the FOI for the bead to be removed under sedation.

9:25am - [redacted] was playing on the obstacle course and kicked her big toe on the right foot causing a piece of timber to go under her toe nail.

[redacted] was playing Transformers in the SAC room when he tripped and fell hitting his head on the carpeted floor. The Ambulance was called immediately and attended.

3:55pm [redacted] information deleted pursuant to section 22 of the FOI came inside and it was observed he had a raised lump on his forehead. The skin was not broken and there was no bleeding. When [redacted] was asked what had happened, he stated he had swung on the verandah railing and slipped, bumping his head on the floor. An ice pack was administered by [redacted] information deleted pursuant to section 22 of the FOI was taken to the doctor by his father for examination. The doctor had no concerns however asked to maintain observation only.

3:50pm child was found in sandpit with a empty medication vial and one tablet.

[redacted] was taken to hospital by mother who witnessed the accident as she was standing beside [redacted] as it happened. [redacted] fell off tyres in the outside yard landing on the softfall awkwardly.

At approximately 9:30am [redacted] information deleted pursuant to section 22 of the FOI (child's mother) was dropping [redacted] information deleted pursuant to section 22 of the FOI to kindy. During drop off [redacted] noticed [redacted] father's vehicle drive past the Centre. This is a breach of the current temporary protection order that is in place. At approximately 9:45am I was requested to call the Police. I rang '000'. At approximately 11:00am the Police arrived. They spoke with [redacted] information deleted pursuant to section 22 of the FOI then spoke to me giving me a direct phone number to ring if we needed them. They then escorted [redacted] information deleted pursuant to section 22 of the FOI to her car.

Child [redacted] information deleted pursuant to section 22 of the FOI had hurt his leg and was going to the doctors to have it looked at. Mum felt the injury happened at the centre the day before but she was not told anything.

At approximately 11:00am [redacted] information deleted pursuant to section 22 of the FOI ate a muffin which is believed to of had traces of nuts. The educator has a known nut allergy and 12:20pm the staff member began to have a reaction causing itchy ears and throat. The educator administered herself anti-histamine. An ambulance was called for the educator and she was transported to the hospital where she was monitored and further anti-histamine was administered.

Playground, 8:30am [redacted] was playing on a little digger and fell off beside it (about 30cm onto artificial grass with softfall under). The educator approached him and he was holding his right forearm. The educator comforted [redacted] and ice was applied (retrieved by another educator). As he continued to show distress and didn't settle, his parents were contacted that staff were concerned about his arm. TRIM REF # 13/426419

At 2:00pm [redacted] was engaged in quiet activities indoors where the children had the choice to rest on their beds, read books or play with construction materials. [redacted] was in an area of the room with one other child playing with construction. She walked about 2 meters to pick up a piece of the construction set and when she returned to her bed she tripped on the corner of the other child's top sheet and fell to the carpeted floor. She indicated that her right ankle was sore and she was carried to a chair and her foot was elevated to another chair. Ice was applied for 10 minutes and her Mother was notified immediately. [redacted] information deleted pursuant to section 22 of the FOI arrived at 2:20pm and took [redacted] information deleted pursuant to section 22 of the FOI to the Mater Children's Hospital where was diagnosed as having a spiral fracture to her right tibia.

At 4:15pm [redacted] was sitting on the skate board with a rope attached to the end and holding onto the handle of the skateboard while another child was pulling the rope. The child that was pulling the rope started running and the board moved from side to side which then [redacted] information deleted pursuant to section 22 of the FOI got off balance and left off onto his left shoulder.

Child vomited. Tablets were found in the room near the child. Another child also vomited. See attached.

Information deleted pursuant to section 22 of the FOI Act
At 3:30pm the child was playing in the playground when he was accidentally hit on the back of the legs with a trolley by a peer. An educator approached him to see if he was alright, and as she lifted the child his body became rigid and lost consciousness. The child regained consciousness after approximately five minutes. Upon arrival at the hospital the parent disclosed that the child has been have episodes since they were young on a regular basis. Information deleted pursuant to section 22 of the FOI Act
Irrelevant information deleted pursuant to section 22 of the FOI Act
On the 04.12.2013 a staff member [redacted] advised the Centre Director that on the 03.12.2013 a child [redacted] was unsupervised the playground for approximately two minutes prior to being located by a parent leaving the centre. TRIM REF # 13/435298
Around 3.30pm [redacted] was outside on the little fort. She was coming down the ladder part facing forward when her shoe caught in the bottom rung and she tumbled face first onto the grass. TRIM REF # 13/443263
Entered by RALIN TRIM: 13/443771 Incident time 5.35pm Incident occurred in the senior yards sandpit. Mum arrived as incident occurred. Emergency services were not called. Please see attached documents.
12.15pm inside classroom [redacted] pulled a broom from a cleaning shelf, causing the shelving unit to fall onto her. The shelf landed on her left wrist/arm. A large lump and bruise appeared instantly. Ice was applied, ambulance and parent called. TRIM REF # 13/432174
TRIM REF # 14/5472 At 11.00 am the child was coughing, short of breath and seemed to become lethargic therefore an ambulance was called.
At approximately 11.30am outside [redacted] was sitting at the lunch table when the child next to him opened her yoghurt resulting in yoghurt splashing [redacted] in the eye and face. [redacted] is anaphylactic to dairy products and caused runny, itchy eyes and rash developing on his face. Mum and ambulance were called.
At 4.00pm the child was jumping on a balance beam when she has her balance and fallen. This resulted in the child falling off the plank onto the soft fall area. The child bumped her mouth on the ground and knocking the top central incisor. The child went to the dentist and the loose tooth was pulled out. No further treatment required.
On the 04.12.2013 at approximately 4.50pm staff members [redacted] Certificate III, studying Diploma and [redacted] Assistant, Certificate III) were checking the role whilst in the playground when they noted a child [redacted] was missing. On the 04.12.2013 at approximately 4.50pm staff members [redacted] Certificate III, studying Diploma and [redacted] Assistant, Certificate III) were checking the role whilst in the playground when they noted a child [redacted] was missing. A staff member located the child unsupervised in the office area. It is believed that the child was unsupervised for approximately five minutes. The child advised the staff member that he had climbed onto the [redacted] and swung off the handle of the store room which had opened the door.
2.45pm at information deleted pursuant to section 22 of the FOI Act was time for children to be collected. There were a lot of parents coming in and out of the kindy room, paying accounts and saying goodbyes. [redacted] went out of the room without staff knowledge. [redacted] mother and father arrived to find [redacted] in the caged area outside the kindy doors. [redacted] mother was distressed and brought it to the attention of staff. [redacted] was spoken with regarding the kindy rules, in particular "no leaving the kindy room without your carer". Some new procedures/steps have been put in place to reduce the risk of this happening again. These include new signage, children sitting until collected, parents to wait until children have left to discuss matters/pay accounts and efpas access in the kindy room so both staff members are in the room at all times.
4.40pm at information deleted pursuant to section 22 of the FOI Act was playing on the climbing frame on the oval. [redacted] fell off the frame. [redacted] complained of pain in his right wrist and forearm. An icepack was administered to the injured areas. We have since been advised [redacted] sustained a hairline fracture. TRIM REF # 13/436099
Information deleted pursuant to section 22 of the FOI Act
At approximately 10:20am the child got up from the book corner and tripped over his own feet. This resulted in the child falling forward and bumping his mouth on the floor. The staff members attended to the child and gave him an icy pole to reduce swelling and stop the bleeding. The child sustained a chipped Left central incisor with bleeding around the gum area. The parent collected the child and took the child to a dentist where the child's tooth was capped. Information deleted pursuant to section 22 of the FOI Act
Child was struck on the forearm by another child while dancing at Zumba class. Pain persisted after application of icepack and ambulance contacted.
Information deleted pursuant to section 22 of the FOI Act
Information deleted pursuant to section 22 of the FOI Act
Walking was walking up the fort stairs and fell over knocking his left cheek on the top step resulting in a small cut on his left cheek. TRIM REF # 13/443906
Child was walking to the eating area with his morning tea. He turned around and collided with another child, lost his balance and fell onto the concrete chair that is attached to the table, hitting the back of his lower head, causing a small cut that bled. Parent collected child and took him to the local doctor where the wound was glued. No further treatment required.

At 9.35am the child was playing in the classroom, when the educator noticed the child fall backwards and her body began to seized up. The ambulance arrived at 9.47am and said the child had a febrile convulsion. The ambulance transported the child to the hospital, where the child was monitored and released at 1pm. TRIM REF # 13/436924

[redacted] was playing when he fell, and bumped his head on the corner of the puzzle / bead toddler toy. This caused a split on the right side of the forehead. Bleeding was minimal. The incident was reported to the RP on duty immediately, who called the Nominated Supervisor and the QAS. Dad arrived and met with the QAS, who advised that [redacted] could be seen by a GP for further attention. TRIM REF # 13/436945

Child [redacted] started down on the carpet and started putting legos into their bag [redacted] started to cry and said he bent his arm the wrong way picking up the blocks.

[redacted] and two other children had been previously wrestling on the mat. [redacted] stated that he tripped when he got up to walk away.

12.45pm in childrens bathroom - was washing his hands and fell onto sink hitting his mouth. Triced ice pack but chifl fell it uncomfortable. got him to swish and spit as mouth was full with blood. Sat with teacher until mum arrived. Fell asleep in teachers arms

10.10am - All Toddlers inside for activities. The incident occurred on mat area with a small group dancing to music with instruments. Educator [redacted] heard [redacted] cry and saw blood coming out of his forehead. Director informed as [redacted] was being treated for his injury. Director contacted parent. [redacted] monitored. [redacted] arrived 10.40am and left immediately to go to doctors.

2.55pm at [redacted] deleted pursuant to section 27 there was a delay in collecting children as a prep child needed to go to the toilet. When the bell rang the children were released from class by the teacher without waiting for OSHC staff to collect the children. [redacted] [redacted] name was on the list however it was not immediately highlighted he was missed. As soon as staff arrived at the OSHC room a second roll was done and it was noticed [redacted] was not there. A staff member went to his usual collection point and [redacted] was there to be collected. [redacted] was in the OSHC room by 2.55pm.

[redacted] tripped and fell on his left side onto tiles

[redacted] was heading to the bathroom when he started running and fell forward bumping his head on a chair. Report attached

4pm - Out in the preschool yard during inside-outside play. [redacted] was chasing another child when she fell bracing her fall with her arm. [redacted] told [redacted] she was being a monster. [redacted] asked her to move her fingers - then put ice packs on top and below and elevated her wrist.

At approx 10.03am [redacted] was pulling a pull along toy quickly between the table and high chairs when he tripped and fell head first into the corner of the doorway (edge of bricks). [redacted] (educator) picked him up and applied pressure to the wound approx 1.5cm with gauze and icepack over the top until mum arrived. TRIM REF # 13/440539

2.55pm at [redacted] deleted pursuant to section 27 [redacted] was standing at the wash basin. She screamed out for help. When the educator attended she observed [redacted] was standing, her left knee cap was out to the side. [redacted] said this had occurred before with her other knee. At the time she was washing her face and hands and she turned. Triple 000 Ambulance was called. Whilst on the phone to the ambulance [redacted] was seated and it popped back in. Ice was applied to the knee and she was immobilised. The ambulance did not transport [redacted] however encouraged her mother to take her to the doctor.

On the 06.12.2013 at approximately 11.30am Staff member [redacted] (Educator, Diploma) witnessed the child climb over the perimeter fence in the playground. The staff member attempted to stop the child however the child ran down the footpath, through the centre car park area and onto the medium strip at the neighbours house. [redacted] alerted the other staff members. Staff members [redacted] deleted pursuant to section 27 Support staff, certificate III and [redacted] deleted pursuant to section 27 went out to the medium strip and brought the child back to the centre.

4pm at [redacted] relevant information deleted pursuant to section 22 of the FOI [redacted] slipped on wet cement, fell and hit the back of his head. Ice was applied to the injured area and [redacted] rested until his mother collected him. [redacted] was taken to Emergency at Ipswich Hospital. Irrelevant information deleted pursuant to section 22 of the FOI Act [redacted] The hospital stated it was late onset concussion.

The toddler group was in the playground and transitioned into the classroom at approx. 4.30pm with [redacted] deleted pursuant to section 27 At this time [redacted] the second educator, left the group to pack away the playground. When [redacted] returned to the door of the classroom from the playground, she noted [redacted] at the door. [redacted] took [redacted] into the classroom. During this time [redacted] had finished her shift and was replaced by [redacted] deleted pursuant to section 27

At 1.30pm [redacted] deleted pursuant to section 27 had an Anaphylactic attack. He did not respond to initial treatment, was taken to doctors clinic for further treatment where ambulance service was called by the doctor. Parent met at the doctors clinic and went with child.

[redacted] was playing cricket and was the wicket keeper. The batter swung the bat and as [redacted] went down to catch the ball the bat caught [redacted] eyebrow which created a split.

On the 06.12.2013 Emergency services were called as a parent had accidentally locked her child in her car which was located in the centre car park. A bystander broke the car's window and the child was retrieved prior to emergency services arrived. The police and an ambulance arrived at the centre shortly after. The child was taken to the Hospital where it was determined no further treatment was required.

Entered by RALN TRIM: 13/452155 5.20pm [redacted] was running outside when he over garden edging and hit his head on a wooden stage outside. Causing a deep gash, mum took him straight to the hospital.

On [redacted] information deleted pursuant to section 22 of the FOI [redacted] was running down the slide when [redacted] fell and fell down onto his arm. Staff applied ice straight away whilst another staff member attempted to call the parent. Parent arrived [redacted] spoke to dad and suggested having it checked dad said he is ok. (as per statement).

Senior yard, 3.55pm, 3 staff in ratio numbers. Other child was pushing the tyre swing and bumped heads with [redacted] ice pack was given and child return to play, seemed fine. Later after leaving service child started vomiting and became dazed taking him to hospital. TRIM REF # 13/443064
8/12/2013 11am - Child was running in the Senior Kindy yard towards the obstacle course when she tripped over a padded mat. Child landed on front outer right forearm.
11.15am at [redacted] information deleted pursuant to section 22 of the FOI Act [redacted] was exploring near the fence line. She approached a staff member with her finger up her nose and said "nose". Her eyes were watering and she began sneezing. Upon inspection it was observed something was stuck up her nose. [redacted] was taken to hospital and a nurse was able to remove the berry in its entirety without further incident. The berry tree which is located in the neighbours yard has been cut right back to eliviate further incidents.
At 10.30am the child began to urinate on the floor. The educator witnessed the child doing this and has approached the child. The educator has picked the child up under the arms and has taken the child to the bathroom. After the child was finished in the bathroom, the child complained of a sore arm. The parent arrived to the centre and requested an ambulance to attend the service. [redacted] walking up the stairs in the playground when he fell landing on his arm. [redacted] attended the doctors the next day
Irrelevant information deleted pursuant to section 22 of the FOI Act
[redacted] failed to turn up to ASC despite booking. As per above by 3.16, as per policy parents were rung (and texted) and subsequently emergency contacts were called and messaged. [redacted] was notified and the Police were contacted at 3.35. Police indicated they would do a drive past [redacted] house and see if he was there. At 3.40 the emergency contact in deleted pursuant to section 22 of the FOI Act contacted the service and said she would drive to [redacted] house to see if he was there. At 3.55 [redacted] returned [redacted] to the service. Further attempt was made to contact the parents. Shortly after [redacted] father contacted the service and was updated on the incident. Entered by RALIN TRIM: 13/445605 See attachment.
[redacted] had a temp of 41 deg. The ambulance arrived at 3.50pm [redacted] had got hold of the parent just before so the parent asked for [redacted] to stay until she got there. The ambulance was concerned about [redacted] heart rate. [redacted] temp dropped down to 38.5 deg when ambulance checked. Ambulance stayed until [redacted] arrived. He spoke to [redacted] and got her contact details. I then told [redacted] that I have spoken to her doctor about what's happened. TRIM REF # 13/443933
Child was running around in the heat and felt unwell. She was asked to rest in the shade and ice packs applied. The ambulance was called as a precaution and after inspecting child, stated everything was normal. The number of children - 36, educators - 4 The first aid administrator - [redacted] current first aid, CPR and asthma & anaphylaxis trained). Her first aid expires on Feb 22, 2014 and her Asthma & Anaphylaxis expires on January 30, 2014. The time of return from the excursion was 1.15 pm.
Ambulance called due to the blood seeping from the child's eye. Ambulance gave clearance to provide to parent. Mother took child to doctor and it was reported the excessive blood from the nose bleed had seeped through the cavities to the eye and was of no concern.
[redacted] at approximately 4.25am [redacted] was dancing with her peers in the classroom, when she tripped over her own feet. [redacted] has hit her head against a cabinet in the room, resulting in an open wound to the bridge of her nose. The educators applied an ice pack and pressure to the wound. The service called an ambulance at 4.30pm and arrived at 4.35pm. The child was transported to the hospital, the wound glued and the child released from hospital. [redacted] No further treatment required. The child will return to the service [redacted] to [redacted]
[redacted] at approximately 10.00am the child was walking into the classroom after attending an extra-curricular activity, when he tripped over another child's foot. The child has fallen to the ground injuring his right wrist. Educators applied an ice pack and immobilised the arm. The parent took the child to the doctor surgery. An x-ray showed a greenstick fracture to the left wrist and the arm has been placed in a cast. The child returned to the service [redacted] to [redacted]
Please see attached document
TRIM REF # 13/442923 On 10/12/2013 at 9.35am was walking along the balance beam then fell landing onto her left hand side. The child was holding her left arm and there was bruising to the arm. Educators applied an ice pack. The ambulance was called at 9.55am and arrived at 10.00am. The child attended the emergency department at the hospital. The parent advised the service on 11/12/2013 that the arm is not broken and the child will return to the service [redacted] information deleted pursuant to section 22 of the FOI Act
[redacted] at 7.20am the child was playing with a toy aeroplane [redacted] when he put his index and middle finger through the window getting the fingers on his right hand stuck. Educators attempted to free his fingers with soap and oil, however after 30 minutes the service called the fire department to free the child's fingers. TRIM REF # 13/443318 The fire brigade arrived and the roof cut of the aeroplane and the child's fingers freed. The child remained at the service.
Ambulance called due to the blood seeping from the child's eye. Ambulance gave clearance to provide to parent. Mother took child to doctor and it was reported the excessive blood from the nose bleed had seeped through the cavities to the eye and was of no concern.
16.40 outdoor area. Children were playing a ball game when [redacted] took the ball off another child and that child in turn pushed [redacted] off the softfall wall. It was apparent to staff that [redacted] had broken his left arm. Notified supervisor and rang 000. Educator accompanied child to the hospital in the ambulance and stayed with him until his mum arrived.

Entered by RALN TRIM: 13/445412 [redacted] was exiting the toilet when another child was entering and unfortunately it hit him in the head splitting the skin. It was bleeding a little but nothing that couldn't be controlled with the ice pack and paper towel. [redacted] was coughing then started to gaga which resulting in her stopping breathing.

Child was trying to move a toy trolley outside and tripped falling backwards cutting the back of his head.

The group visited the playground information deleted pursuant to section 22 of [redacted] fell while going across the monkey bars. [redacted] was collected at 1.30. We were advised the next day that her wrist was broken.

[redacted] was pushed over by another child. He got up and [redacted] checked him over and he appeared alright. I have him cuddles but as the morning progressed his wrist got limp and he could not move his hand. I showed his wrist to [redacted] (Educator/first aid) and she applied a bandage and I applied a splint. [redacted] sustained a broken wrist. TRIM REF # 13/454727

Confirmed case of chicken-pox.

[redacted] was on the flying fox when another child pushed him off the flying fox. This occurred at 5.30pm. He landed on his right arm and complained of hurting and unable to move it. The mother was at the service when the incident occurred and would take him to the hospital.

Child was playing on the fort and jumped from the fireman pole. When he landed he hurt his ankle. Staff applied test and ice and swelling was noticed and no improvement. Parent notified.

Child tripped and hit left cheek on shelf.

Child was shaking and had a high temperature. She was unresponsive and acting strangely. 000 was called and attended the service.

On the 13.12.2013 at approximately 11.20am the child and a peer were pushing through a doorway when the peer pushed harder causing the child to bump into the doorway and fall onto the ground. The child sustained a burn approximately 1cm in length. The staff attended to the child applied a cool washer and called an ambulance. The paramedics monitored the child and advised the parent to purchase a burn band aid to apply to the area.

[redacted] was playing in the playground and she pushed her body between 2 poles. Educators thought that it was her head that was stuck but it was actually her body. Educator kept [redacted] calm till emergency services were called.

The Centre notified the approved provider of the incident on 16/12/2013. At 3.30pm a peer was running toward the child in the playground when the peer has grabbed the child and the child has fallen down with the peer. The left arm was moved by educators and this could be done quite freely.

Child [redacted] fell jumping off the swing onto her forearm @ 3.55pm. [redacted] verbally told the educator it was sore and [redacted] did not see the doctor until the following Wednesday the 17th Dec when it was confirmed to have a fracture.

9.35am - Outside kindy room/garden area back off kindy around sandpit. [redacted] was crouching through foliage of the passionfruit vine to get flowers when she was poked in her left eye by a stick of vine. She was comforted and her eye sight checked. Then parents were contacted to take her for a review by family doctor. Child was settled and ok.

[redacted] left the playground with his dad and ran down the ramp and fell over at the bottom of the ramp. Xrays at Mater Children's Hospital confirmed break of elbow. TRIM REF # 13/455828

[redacted] was running through the playground when she tripped over the balance beam, landing on her arm and twisting her body around. Her legs ended up under the beam. [redacted] took her to the doctor. [redacted] sustained an injury to her left arm. TRIM REF # 13/456063

Friday 13/12/2013- Children sitting on the mat [redacted] marking the roll [redacted] found a bead on the mat, picked it up and put it in his ear.

[redacted] was playing in the [redacted] playground and was pushed off the playground by another student, falling approximately 50 cm. (10.25 am) [redacted] complained of pain and clutched his wrist. First Aid was applied by the Educator [redacted] and the Coordinator [redacted] was spoken to immediately. Coordinator called the ambulance at 10.28 am and also contacted the mother who arrived prior to the ambulance and accompanied [redacted] in the ambulance when it left.

10am at [redacted] information deleted pursuant to section 22 of [redacted] was playing on the adventure playground [redacted] landed incorrectly when coming off the equipment. An ice pack was applied to her left foot and elevation throughout the day. The reason for the delay in reporting is due to the injury was not serious. However [redacted] was taken to the doctor's yesterday as her foot swelled over night.

At 5.00pm The child was sitting at the table when he placed his arms and legs inside his shirt. He lost balance and fell off his chair hitting his head. The child sustained no visible injuries.

Children were playing the the junior playground area. A child ran into [redacted] jarred her left shoulder. Ice was applied. Mum was called. Mother was advised to come immediately. Mother was called again at 2.50pm. mother arrived at approx. 3.00pm and took [redacted] to the doctors and hospital.

Entered by RALN TRIM: 13/455930 [redacted] was playing soccer [redacted] the educator He came up to the room at 3.45pm on 16/12/13 crying and said he hurt his finger when asked what happened he said he was goal keeper in the game of soccer and when he went to catch the ball his finger bent back. We put some ice straight onto his finger and monitored him while I went to phone his parents. I got hold of his dad straight away and he said he was only 10 mins away. When he arrived he looked at [redacted] and we told him what happened, and he said he would take him to the doctor. We didn't hear anything else of the situation before we left at 6.00pm. When I arrived at work the next day 17/12/13 I was told that [redacted] had broken his finger and he was in plaster.

Educator was unable to rouse child. Child taken indoors immediately and temperature taken - 40.3degrees. Educator called nominated supervisor who call 000 and parent. Parent accompanied child to hospital in the ambulance.

Child [redacted] was taken for medical attention and xrays and it was revealed that [redacted] had broken her arm.

At 9:30am the child was pushed by another peer off the rope she was sitting on. This resulted in the child falling backwards and bumping the back of her head on the garden edging. The child was complaining of a sore left arm. The child sustained a small amount of bruising to the left elbow. An ice pack was applied.

At 8:45am the child was playing in the kindy room when an educator noted her lying in the ground and putting her head on the floor. The educator approached the child and asked if she was ok. The child looked vague, pale and her lips appeared to be blue in colour. The educator picked up the child when the child has gone limp her arms. The child was breathing normally. The parent and emergency services were called at 8:49am to attend the centre. The parent arrived 5 minutes later. Emergency services were advising the centre of treatment over the phone. The ambulance officers arrived at 9:05am and assessed the child. The child was transported to hospital via ambulance accompanied by the parent.

[redacted] was playing with some other children in the sandpit with milkcrates. He started to climb on the crates, they became unbalanced and he fell, splitting under his jaw on the right side.

At approximately 7:30-7:40am staff member [redacted] found the child unsupervised in the Toddler playground when she was taking a group of children outside. It is believed that the child was unsupervised for approximately 5 minutes as a group of children had transitioned from the nursery room and through the Toddler yard approximately 5 minutes prior to the incident. The child was distressed when found. [redacted] and [redacted] comforted the child and he was settled within 5 minutes. TRIM REF # 13/453722

The child was running on the cement, fell and grazed his elbow. At 2:45PM the educator phoned the parent because the child wasn't using his arm. The parent took the child to hospital and the doctor said the arm was bruised. TRIM REF # 13/456154

[redacted] was playing on the playground on the bottom oval at the school when he reached up to grab a flying fox handle. He slipped and fell landing on his left elbow.

Entered by RALN TRIM 13/455677 [redacted] was laying on the ground. He was picked up by staff who noticed his mouth was bleeding. [redacted] deleted pursuant to section 22 of the FOI Act

17/12/2013 12:30pm [redacted] fell off his scooter while on an excursion at [redacted] and was complaining his arms hurt. He was able to move his arms, wrists and fingers

TRIM REF #14/5467 At approximately 8:20am, the child was in the playground. The child slipped off the fort and fell onto the softfall, landing on his left side with his left arm underneath him. Educators had noticed the child already tripped over his own feet twice earlier that morning.

Another child alerted the educators that [redacted] had jumped off the fort situated in the large playground and needed assistance. [redacted] was seated on the softfall / astro turfed area that surrounded the fort saying his foot was hurting. First aid was applied and ice was administered to the area. The father arrived 20 minutes after the incident. TRIM REF # 14/15189

At 2:16pm [redacted] was standing near the kitchen door care [redacted] went to close the door [redacted] pinky on right hand was in the hinge of door causing the nail to come off and bruising to back of pinky. [redacted] deleted pursuant to section 22 of the FOI Act. [redacted] had his finger x-rayed, there was no fracture or bone damage. He returned to care 18/12/2013. Trim Ref # 13/457421

[redacted] was about to get off the office chair, when another child swung the chair around [redacted] fell, landing on knees and forearms. Mum was contacted and had to return from Gold Coast. [redacted] range 13Health and was advised to do movement tests, give her something to eat and Nurofen. Parent phoned for permission. TRIM REF # 13/457495

Confirmed case of hand foot and mouth

At 4:25pm [redacted] deleted pursuant to section 22 of the FOI Act was playing in the playground and fell over. [redacted] reported that she had already fractured her arm earlier in the year so an ice pack was applied to her right wrist and [redacted] was monitored. [redacted] attended [redacted] mum

Irrelevant information deleted pursuant to section 22 of the FOI Act

[redacted] [redacted] advised [redacted] had in fact broken her arm.

It is alleged on 18/12/2013 at approximately 4:00pm the child exited the centre through a single gate which leads to the centre car park to meet his parent that arrived at the centre to collect him. It is alleged that the gardener left the gate latch unlocked. The centre has implemented supervision strategies and conducted further training on unplanned departures and effective supervision. The matter will be investigated in accordance with organisational procedures.

[redacted] (staff member) was playing a running game with the children from the Kindy room in the downstairs playground. When [redacted] tripped and landed on his arm on the ground. The staff members thought that it may be a sprain however after his mother took him to the emergency department at the RCH his mother stated that he had sustained a dislocated elbow.

Entered by RALN TRIM 13/455862 [redacted] was running with friends and went to leap frog over a hump, misjudged and kicked his little toe on his left foot. Staff asked if he was ok, he said yes and continued to play. This later complained of pain (3:20pm) and ice was applied. Leg elevated and parent notified.

At 2:30pm two children were involved in an incident while packing up their beds after rest period. [redacted] identified he was pushed by one of his peers falling down. [redacted] said he hit the wall when he fell splitting the top lip on the right side. Refer to attachment.

[redacted] fell over at the hall and fell on his right elbow. At this time 2 educators were at the hall playing games with 22 children.

[redacted] was on the fort when an educator noticed him lying on the top level, his legs were shaking. When the educator got to him, he had vomitted and was having a seizure. [redacted] was moved off the fort to the ground, placed in recovery position and ambulance called. TRIM REF # 13/455238

Incident occurred 3:45pm on concrete verandah of school hall [redacted] deleted pursuant to section 22 of the FOI Act was riding his scooter. He did a small jump on scooter. He was hardly moving, but fell off scooter and landed awkwardly on his left arm.
