The Woorabinda Aboriginal Shire Council, together with the Queensland Government, would like to hear what you think about plans for Woorabinda State School

Discrete Communities Infrastructure program

Improving schools for Aboriginal and Torres Strait Islander communities.

The Discrete Communities Infrastructure (DCI) program is a Queensland Government program which provides funding to better plan, improve and build educational buildings and spaces by co-designing them with Aboriginal and Torres Strait Islander communities.

The Woorabinda DCI co-design program

For the past 12 months, the Woorabinda Aboriginal Shire Council members and key school community members have been working with the DCI team to co-design a master plan and identify key projects for Woorabinda State School.

Next steps:

1. **Agree on and endorse:**
   - The master plan
   - A list of prioritised projects, categorised into short-term, medium-term and long-term plans
2. **Seek funding for the prioritised projects.**
